

TYRNAVO IS TAKEN

Turkish Army Under Edhem Pasha Again Victorious.

A SERIES OF FIERCE BATTLES

The Mayor of Larissa Appeals to Them to Arise and Defend the City-- Fighting at Other Points.

LONDON, April 20.—A dispatch from Constantinople says after a series of furious engagements Edhem Pasha, the Turkish commander-in-chief, has occupied Tyrnava, ten miles from Larissa, in force. The dispatch says General Abdul Azel Paska is among the killed.

In conclusion the dispatch says the Turks will now immediately advance by forced marches upon Larissa, the headquarters of the Greek army in Thessaly.

LARISSA IS IN DANGER.

Greeks Appealed to Rise and Defend the City.

HEADQUARTERS OF THE GREEK ARMY IN THESSALY, LARISSA, April 20.—The mayor of Larissa has issued a proclamation calling upon all citizens to arm themselves in defense of the country. Every step possible is being taken to defend the place against the Turks, who are reported to have captured Tyrnava, ten miles from here, and to be pushing on to Larissa. The minister of the interior has issued orders to the prefects throughout the country calling upon them to summon all citizens to arms in defense of Greece now invaded by the Turks.

It is reported the Greeks have captured 200 Turkish prisoners at Viglia.

A CONFIRMATORY TELEGRAM.

Tells of Capture of the Outposts of Tyrnava.

BERLIN, April 20.—An official telegram from Constantinople says the Turks have captured all the positions commanding Tyrnava, thus confirming the dispatches on the subject from the correspondent of the Associated Press at Turkish headquarters at Ellassona.

The telegram referred to also says the Turks have not sustained great damage at Preveza, but two Greek warships were compelled by the Turkish fire to retire from there today, and this afternoon there are no signs of the Greek fleet in the vicinity of Preveza.

Will Fight for Their Country.

ATHENS, April 20.—6 p. m.—All members of the gen d'armierie and other police forces organized as military are now going to the frontier. Citizens have volunteered to guard the town. The same conditions prevail in all the other towns of Greece. On all sides there is a firm determination to meet the Turkish invasion, and every man who can be spared and who can bear arms is going to the front.

To Care for the Wounded.

ATHENS, April 20.—6 p. m.—Athens ladies under the patronage of the queen have converted the steamer Thessaly into a floating hospital. Three hundred beds for the wounded have been fitted up on board the steamer, and she is now proceeding to Volo.

CAREER OF JOHN JOSEPH NOURI.

Transition From Insane Asylum to Virgin Palace.

SAN FRANCISCO, April 20.—The strangeness of truth has often been commented upon as exceeding the most fanciful flights of fiction. An illustration of this is furnished in the career of John Joseph Nouri, who has been crowned patriarch at Trichoor, Malabar, and is ruler over Syrian Chaldeans.

Four years ago Nouri was committed by Judge Walter H. Levy to the asylum for the insane at Napa, and there he remained until September, 1893, when by the efforts of M. M. Foote, president of the California Association for the Protection of Persons, he was restored to liberty.

The Rev. Chalmers Easton, formerly a Presbyterian minister in this city, now of Washington D. C., is credited with having learned the facts in a letter from Rev. John Barrone, now traveling in India.

On June 23, 1892, there arrived in this

city from India a man who, by his dress, his manner and speech, was easily recognized as an Oriental religious student. Not less remarkable than his appearance was the story he told. He claimed to have discovered the remains of Noah's Ark on the summit of Mount Ararat.

When released from the asylum, Nouri claimed he had been robbed of four medals studded with diamonds, and valued at \$2500, the gift of the Chaldean Greek church, of a negotiable note for \$2500, and his credentials. Dr. Chalmers Easton believed in him, and helped him on his journey eastward. Later on he displayed his knowledge of Greek, and in Washington at the Smithsonian institution translated the hieroglyphics on some tables there with surprising ease. Intent on making his journey around the world, he traveled on to London, and from there came in May, 1894, the story that he intended to sue the United States for \$5,000,000 for ill treatment during his sojourn.

Now the climax to the story is in the letter to Rev. John Barrone, claiming that John Joseph Nouri, the deposed king of the Chaldeans, has been recognized, that his claims have been recognized, and the man who was described as "unkept and with the lackluster eyes of a lunatic," is living in splendor in a virgin palace at Trichoor.

GREAT OVATION TO CECIL RHODES

Ex-Reformer Welcomed Upon His Return to Cape Town.

NEW YORK, April 20.—A dispatch to the World from Cape Town says:

Cecil Rhodes' reception here on his return from England was in the nature of an ovation. He was presented with an address by the citizens which was in part as follows:

"We take unbounded satisfaction in assuring you that the feelings expressed in the demonstrations that have taken place here have not only been retained, but have deepened into the hearts of the people. We cannot refrain from stating that we entertain the gravest apprehensions of political movements within the colony, the object of which is to circumscribe British supremacy. They do not tend towards true and lasting peace. Your presence is absolutely essential, and we earnestly hope that your future services will add brilliance to your illustrious career."

The Transvaal republic has sent six agents to Durban, and the port of Natal, to watch the movements of British warships.

MONEY OF FREE CUBA.

Provisional Government is Coining Five-Peseta Pieces.

NEW YORK, April 20.—The Journal this morning says:

The Cuban dollar will be on the street within a few days. It will be a silver coin of the size of the Spanish coin known as five pesetas. Five million dollars' worth of bullion is to be converted into the coin, which, even if it is no more than a souvenir of the Cuban struggle, will still be worth its weight. The Cuban junta indorses the circulation of silver coin bearing the stamp of the provisional government. The money to buy this bullion and to defray the mechanical expense of the issue is said to have been raised through the exertion of A. J. Corbert, a local broker. He professes ignorance as to the identity of his principals. At the office of A. Kraus further information was obtained.

"Men with money have been figuring on this thing for a long time," he said. The junta is behind us. We start in with a million dollars' worth of five pesetas. The coin is about the size of the American dollar and resembles it much.

"The new Cuban coin, which must not be called a medal or a souvenir, will be accepted for its weight in silver anywhere. The design for the face of the coin will consist of a head or a figure indicating liberty. The seal of the Cuban republic, already familiar on its bond and postage stamps, will be on the reverse.

"The friends of Cuba who will have made this issue of coins are men of wealth. They will back the Cuban enterprise to the extent of ten millions if necessary."

When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Consumptives would never die if they could regain their usual weight. In fact there would be no consumption if there was no wasting of the system. The cause of this loss of flesh is a failure to properly digest the food eaten. Nine-tenths of all our diseases date back to some derangement of the stomach.

The Shaker Digestive Cordial will stop this wasting of the body. It acts by causing the food we eat to be digested so as to do good, for undigested food does more harm than good. The Cordial contains food already digested and is a digester of foods as well.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Sold by Druggists, 75 cents. No. 2-8.

Mrs. A. Inveen, residing at 720 Henry St., Aiton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. The 25 and 50 cent sizes for sale by Blakeley & Houghton.

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; to-day Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Where ever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by Blakeley & Houghton.

Dogs Need Iron.

According to Prof. Schmiederberg, of Strasburg, dogs need iron in their food. He relates the case of a strong dog that was nearly starved by being fed for a long time with pure milk. Just as he seemed on the point of death a grain of ferratin was added to his daily allowance of milk; when, instead of refusing as heretofore, he devoured it ravenously, and in the space of two weeks recovered his normal health and strength. —Albany Argus.

The origin of the bicycle is now traced back to the year 1791 in France, when the Sieur Mallard presented to the academy two rolling chairs propelled by pedals.
