THE CUBAN BUTCHER

He Is Excited by the Morgan Resolution.

WILL SEARCH AMERICAN VESSELS

The President Signs the Bill Appropriating \$50,000 for Relief of Americans in Cuba.

NEW YORK, May 24.—A dispatch to the Journal from Cienfuegos, Cuba, says: In an interview with Captain-General Weyler, upon his arrival here from Placetas, in reference to Senator Morgan's resolution, the general said:

"I am not surprised with the action thus far taken, nor shall I be if the house concurs in the senate resolution and sends it to the president. Your jingoes are in the saddle, and evidently bent upon forcing the country into some foreign complications in order to detract attention from the fast-approaching internal crisis.

"The few scattering bands of Cuban dynamiters, railroad wreckers, horse and cattle thieves, plantation burners and highwaymen now in the field here, who hold no port and possess no seat of civil government, have no right to expect recognition. Such distinction at President McKinley's hands, issued in the face of my own proclamation officially declaring the greater part of the island to be already pacified, would hold the Washington executive up to the ridicule of European powers, and prompt a healthy outburst of sympathy for the Spanish cause, especially from neighboring Old-World governments, also possessing colonies in the West Indies. In brief, recognition may aid the Cuban junta in placing a few bonds in the United States, but it will at the same time assure the successful issue of our proposed new Spanish loan in Paris, London and Vienna, and enable us to carry on the war with renewed vigor.

"Personally, I shall be glad. If recognition comes, our position then will be more clearly defined. It will work a virtual abrogation of our special treaty with the United States, place Yankees residing in Cuba in an identical position before the courts with other foreign residents, and I shall be troubled less by the constant complaints and often ridiculous demands from American consuls. It would also relieve the Spanish government of all responsibility for the destruction of foreign property not actually within the line of Spanish defenses, and further simplify matters by assuring us the right to board and search American vessels whenever suspected."

Continuing, the captain-general expressed delight at the proposition to have consuls here furnish free transportation to all Americans who desire to go to the United States, but said he considered the plan to distribute to resident Americans as an indirect and unjustified attempt to interfere in local affairs.

APPROVED BY THE PRESIDENT.

Resolution to Relieve Americans in Cuba Becomes a Law.

WASHINGTON, May 24.—The resolution appropriating \$50,000 for the relief of American citizens in Cuba reached the White House at half past 12 o'clock today, after being signed by both houses while they were in open session. The president signed the resolution immediately. He will at once consult with the state department respecting the adoption of measures of relief in addition to those taken last week, when Consul-General Lee was authorized to draw upon the state department for \$10,000 for pro-

Repurchase of Immediate Supplies.

WASHINGTON, May 24.—Immediately after the adjournment of the senate today, the Republican senators went into caucus. Allison said the caucus was called on the request of several senators, and some of those who signed the call stated they wanted to know something about the plan of procedure for consideration of the tariff bill.

Aldrich, who reported the bill, took the floor, but had not proceeded far when some one asked him for an explanation of the sugar schedule. Aldrich went into quite an elaborate explanation of the schedule, presenting the figures of the present law, the Dingley bill and the senate amendment. He said the senate amendments were less advantageous to sugar refiners than the Dingley bill or the present law.

To Recognize the Cubans.

WASHINGTON, May 24.—Representative McMillin, of Tennessee, today introduced in the house a resolution providing for consideration of the resolutions recognizing the belligerency of Cuban insurgents from day to day until they are disposed of. The resolution was referred to the committee on rules, but it is not likely the committee will consider it. A majority of the leaders will decide for themselves when it is proper to act on the resolution.

A Telephone War to Be Inaugurated.

CHICAGO, May 24.—The Times-Herald says: Steps looking to the formation of a powerful alliance in opposition to the Bell Telephone Company are to be taken in Chicago this week. Here are the main things contemplated:

A national exchange of the 10,000 operating telephone exchanges of the United States independent of the Bell company for mutual protection and development; long-distance toll line connections by the connection of the various independent telephone exchanges of the country; the establishment of an independent long-distance service, connecting the great commercial centers in the field now occupied exclusively by the Bell company; the completion in the near future of an opposition telephone exchange in the city of Chicago, for which purpose a company composed of capitalists with experience in large enterprises has already been organized; co-operation for resisting any action the Bell company may take in courts in reference to the Berliner decision.

Bell Company Will Be Ready.

St. Louis, May 24.—The capital stock of the Bell Telephone Company of Missouri is to be increased from \$400,000 to \$2,000,000, five times the present figure. A special meeting of stockholders of the company has been called for this purpose. The meeting will be held in this city July 1.

COMMENT UPON TETUAN INCIDENT

Madrid Herald Urges the Duke to Resign.

NEW YORK, May 24.—A Herald dispatch from Madrid says: The Herald in Madrid devotes an editorial to the Tetuan incident, strongly urging the duke to resign. Each party blames the other for the attitude of the United States since the heated personal discussion which caused the assault.

El Imparcial in an editorial this morning criticizes the government severely, saying that its policy has always been one of indecision and simulated optimism, and it fears the Duke of Tetuan's act has brought the party conflict to an acute stake. El Imparcial also condemns the government for allowing Americans in Havana to openly interfere with Spanish concerns.

The Madrid press generally displays great anxiety about President McKinley's attitude.

El Liberal makes no original comment, and only quotes the opinion of the foreign press relative to the American attitude. The Carlists are anxiously awaiting the outcome of the incident.
