Japan Determined to Force Trouble With Hawaii.

ARBITRATION PROPOSALS IGNORED

The United States Likely to be Called Upon to Settle the Immigration Squabble.

New York, July 12.—A dispatch to the Herald from Washington says:

Hawaii has offered to refer to arbitration the immigration question pending between herself and Japan, but the Tokio government has so far ignored the proposition. Telegraphic information to this effect has been received at the state department, and it is therefore possible to deny the report published that Japan had agreed to arbitrate the vexed question she is discussing with the Hawaiian government. The proposition was made in the report sent the Hawaiian minister for foreign affairs. Mr. Cooper, in answer to Mr. Shimamura's last letter reiterating the demand of his government that Hawaii recognize the principle of monetary liability as a motive of her action in excluding Japanese immigrants.

The Hawaiians do not expect that Japan would accept arbitration. In fact, before Minister Shimamura began correspondence with Mr. Cooper in relation to the matter, he declared that his government would never consent to arbitration. At that time neither he nor his government had any idea that the strong arm of the United States was soon to be thrown around Hawaii, and it was because of this ignorance, state department officials say, that Japan has assumed such a commanding tone in her negotiations with the little republic.

It is said that Mr. Shimamura in his last correspondence with the Hawaiian government, demands further explanation in regard to certain details connected with the immigration controversy, in which he holds that Hawaiian authorities have committed an official offense against his government. The minister refused to admit the principle of monetary liability, and insists that the Japanese government does not want to get at the real merits of the controversy, otherwise it would acquiesce in the proposition to refer the matter to arbitration.

In view of Mr. Cooper's refusal, it is the general expectation in administration circles that whether the senate ratifies the pending annexation treaty or fails to take action during the present session, this government will have to settle immigration question with Japan.

RACE WAR AT TIEN-TSIN, CHINA.

Natives are Enraged Against Foreign Residents.

SAN FRANCISCO, July 12.—The Occidental and Oriental steamer Doric has arrived from China and Japan, two days ahead of schedule time. She brought Yokohama advices to June 27.

The Japan Mail gives a summary of correspondence from Tien-Tsin, which shows that the state of the foreign colony in that city is alarming. Three Chinese were killed in the last days of May on charges that they had stolen native children in order that they might serve as offerings to insure the safety of the foundations of the new French Catholic cathedral to be dedicated June 21.

A Tien-Tsin correspondent says: "It is reported that a conspiracy has been formed to attack the foreign settlement on June 21 and to burn the Roman Catholic cathedral. The consuls of the various nationalities have deemed it

prudent to telegraph the facts to their governments and to ask for the protection of men-of-war. The gate leading from the foreign settlement to the Chinese quarter is closed every night at 11 o'clock. The Japanese gunboat Akagi is now at Taku in response to appeals from the Japanese consul. Chinese soldiers are quartered in various parts of the city for the express purpose of checking riots."

Fatal Accident Near Roseburg.

ROSEBURG, July 12.—Harry Weaver, unmarried, for a long time a resident of Roseburg, recently employed as hostler by the Messrs. In descending a steep grade the brake broke, the wagon turned over, and the contents fell upon Weaver, crushing him. He lived an hour, suffering dreadfully.

AGROUND IN CONFERENCE.

Tariff Bill Runs Against Some Serious Obstacles.

WASHINGTON, July 12.—The tariff conferees of the house struck some snags in their work today. The house conferees are standing solidly by their bill, and the senate conferees are no less tenacious. The senate conferees have laid before the house members the conditions in the senate, where there is no actual majority of Republicans, and where other than Republican votes are necessary to pass the bill. Members of the house are standing by their bill, nevertheless, and have told the senators they cannot accept the senate's amendments on many important items.

Lumber has been in dispute. Members of the house committee insisted that their rate on white pine must be accepted, and have been supported by Senator Burrows, of Michigan. The senate conferees say that if the house rate is restored it will provoke a long discussion in the senate. The house conferees, however, refused to accept even the rate which was originally reported in the senate bill, and stand for the house rate.

Burlaps, cotton ties and other items, which were placed on the free list by the senate met with great hostility from the house conferees, and nothing in the way of compromise offered by the senate members has been accepted.

The house members have maintained that the house bill has been commended more than the senate bill, and that the conference should get as close to it as possible.

It is developed today that the wool schedule had been under special consideration during the forenoon session, and that the house members had not shown a disposition to hold on to the house rates. There was evident apprehension that if this concession were granted there would be difficulty in getting the bill through the senate.

There was also a hurried conference between Republican representatives at the senate conference in regard to the probable course of the Democrats in case the articles which they were especially instrumental in having placed on the free list should be made dutiable. These articles include cotton bagging, gunny bags, burlaps, cotton ties, paris green, floor matting, etc. The house insists upon their restoration to the dutiable list, and some of the senate conferees are inclined to yield because of the revenue they would yield.

The conference with the Democrats was by no means reassuring. The Republicans were told that if these changes were made they (the Democrats) would be disposed to insist upon a full explanation in committee and an elaborate debate in the senate, which might indefinitely prolong the session. The result of the inquiry as to the effect of the restoration of the house rates was far from reassuring. The problem is giving the committee considerable concern.

The Mount Lebanon Shakers have recently perfected an ingenious cure for dyspepsia. Their Digestive Cordial consists of a food already digested and a digester of foods happily combined.

The importance of this invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach troubles. Thousands of pale thin, people have little inclination to eat, and what they do eat causes them pain and distress.

This Digestive Cordial of the Shakers corrects any stomach derangement at once. It makes thin people plump. Every one would be greatly interested to read the little book which has been placed in the hand of druggists for free distribution.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.
