because the weather happens to be warm. If you have a weak throat, a slight hacking cough, or some trouble with the bronchial tubes, summer is the best time to get rid of it. If you are losing flesh there is all the more need of attention. Weakness about the chest and thinness should never go together. One greatly increases the danger of the other. Heal the throat, cure the cough, and strengthen the whole system now. Keep taking Scott's Emulsion all summer. For sale by all druggists at 500 and \$1.00

The Mount Lebanon Shakers have recently perfected an ingenious cure for dyspepsia. Their Digestive Cordial consists of a food already digested and a digester of foods happily combined.

The importance of this invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach troubles. Thousands of pale thin, people have little inclination to eat, and what they do eat causes them pain and distress.

This Digestive Cordial of the Shakers corrects any stomach derangement at once. It makes thin people plump. Every one would be greatly interested to read the little book which has been placed in the hand of druggists for free dis-

Roofs of Michigan White Cedar Resist

There are said to be Michigan white cedar shingles now doing good service on roofs in that state that have been in full exposure and wear for over 75 years. It is thus seen that climate affects the durability of shingles, and the fact that white cedar is the natural product of Michigan and red cedar of the Pacific coast is held to be proof that the red cedar is naturally adapted for use on the Pacific coast and the white for use in such sections as the middle and north-western states, etc. A pecualiar objection is brought against the red cedar by some—namely: that there exists in that wood an acid which is, in the climate of certain sections, so acted upon by water as to corrode rapidly the nails with which the shingles are fastened onto roofs, the rest extending to the wood around the mails, and seen causing a lenky roof—this action explaining the holes so often to be seen around the nails in red cedar roofs. Another point offered for consideration in this common Council of Dalles City as follows: cedar is naturally adapted for use on the offered for consideration in this connection is the fact, as stated, that a shingle is ruined by kiln drying, and that no kiln-dried lumber can be regarded as of equal value for outside work to that which is air-dried.

OYSTER FAMINE PREDICTED. A Dealer Says the Beds Are Sure to Be

Exhausted. "Oysters will be a very rare delicacy in a few years," said an oyster man of New York to a Washington Star reporter. "For many years the beds were an oyster season and keeping alive the popular idea that oysters were not good except from September to April. This gave four months during which the oysters were left alone and allowed to increase. As a matter of fact, I think they are a little better during those four months than at any other time. This was first discovered by the seaside hotel men, and oysters were served during the summer months. The guests demanded bivalves when they returned to their homes, and now in all castern cities the signs of 'Fresh Oysters' are as numerous in July and August as in January and February. The new demand is being suplst being sold, we are prepared to sell plied, and at no time are the beds left round trip tickets to Portland, at one undisturbed. It is now only a question fare for the round trip to parties wishing of a few years before the oysters are gone, and all because the summer resort cific reduced rates between Portland and hotel men disabused the minds of the tickets August 15th. For further parentefrom April to September."

## THE FIRST

THE FIRST BATTLE is an interesting story of the great political struggle of 1896, its most important events and the many issues involved; a logical treatise on Bi-metallism as uttered by eminent exponents, including the part taken by Hon. W. J. Bryan in the silver agitation prior to the Democratic National Convention, and during the campaign; the best examples of his wonderful oratory, the most noteworthy incidents of his famous tour, a careful review of the political situation, a discussion of the election returns and the significance thereof, and the future possibilities of Bi-metallism as a political issue.
