THE HILLS SKIP FOR JOY.
 If prosperity is not on hand in Eastern Oregon, then we have forgotten what the term means. Right here at The Dalles we have nearly 8,000,000 pounds of wool that will bring into the country not less than \$900,000. We have shipped more than 100,000 sheep, and cattle galore, and now the west wind toys with the bearded wheat that laughs at the touch of its breath. The dark green fields drank the abundant rains, and the happy soil outdid itself in response to the showers. Today over miles and miles of rolling hills the billowing grain turns to gold beneath the ardent sun. The heavy heads drunken, surfeited, bend tiredly toward the earth, awaiting the stroke of the sickle that shall give them rest. There never was such grain in Eastern Oregon. Sherman county will have 3,500,000 bushels, Wasco and Gilliam a million each, and from across the river Klickitat will send more than another million. The price starts at about sixty cents, taking the San Francisco market as a measure. That means for Sherman county, even at fifty cents a bushel, nearly two million dollars. With a voting population of not to exceed 800, this means \$2500 for each voter in the county. It means nearly \$500 for each man, woman, child and baby.

If that isn't prosperity, what is it? It will take 7000 cars to haul it to market, and at twenty cars to the train, one train a day for every working day in the year, or a train an hour for thirteen days, and if the cars were all in a line it would make one train fifty miles long. The wheat of Wasco, Sherman and Gilliam and Klickitat would load a train of cars reaching from Grant to Portland, and if paid for in silver dollars, worth their face in gold, it would take 75 tons of them, or in silver bullion 150 tons, or ten carloads. It would take more than six tons of twenty dollar pieces to represent its value. The stock and wool already shipped would add three tons more to this, making nine tons of gold to be distributed in Wasco, Sherman and Gilliam counties. The Clondyke isn't in it.

JAPAN AND SPAIN.
 It is rumored that Japan and Spain have formed an alliance for the purpose of holding Uncle Sam in check. The terms of the agreement are alleged to be that in case the United States interferes in Cuba or persists in annexing Hawaii, Japan and Spain are to declare war and make a demonstration, both on the Pacific and Atlantic coasts. As Spain can't subdue a few patriots fighting for their liberty, down in Cuba, and is practically bankrupt, there is not much to fear from that source. Japan is very cocky, but she will find she is not fighting Chinamen if she tackles this country.

It is probable the rumor is without foundation; but if Spain wants this country to interfere in Cuba, she is taking the right course, and if Japan wants Hawaii annexed to the United States she cannot accomplish that fact quicker than by undertaking to run a bluff. Hawaii is going to be annexed, anyhow. Japan has shown the old mossbacks in the East how necessary it is, and Cuba is able to take care of herself.

The London Times says Secretary Sherman's letter to Ambassador Hay concerning the seals "is an attempt in offensive language to fasten upon England a charge of bad faith." For once an English paper may fairly claim perspicacity. That is what England has been guilty of. It may not

be politic to call a man a liar, even when that fact is self-evident; but why waste words in saying that "he uses the truth in an astonishingly frugal manner?" England has been guilty of no faith at all in the matter. However the seals are not worth quarreling about, and it is to be hoped they may soon be exterminated. This government has been, and is yet, at great expense protecting, or trying to protect, the fur-hunted animals from all the world but one measly, rotten, dishonest corporation. The quicker she goes out of that business the better.

Woman in Kansas, at least, is being granted all the rights and privileges heretofore monopolized by the men. At Kansas City, or the Kansas part of it, only last week the board of police commissioners decided that female prisoners must don overalls and work on the rock piles the same as men. This raised such a storm of protest that the board rescinded that part of the order compelling them to wear overalls; but this did not allay the storm, and finally the whole order was rescinded.

 The Mount Lebanon Shakers have recently perfected an ingenious cure for dyspepsia. Their Digestive Cordial consists of a food already digested and a digester of foods happily combined. The importance of this invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach troubles. Thousands of pale thin, people have little inclination to eat, and what they do eat causes them pain and distress. This Digestive Cordial of the Shakers corrects any stomach derangement at once. It makes thin people plump. Every one would be greatly interested to read the little book which has been placed in the hand of druggists for free distribution.
