Over Two Hundred Men at Monagh, W. Va., Go Out.

DEBS ARRIVES AT FAIRMOUNT

He Addressed a Large Mass Meeting There Last Night—More Illinois Miners Strike.

FAIRMOUNT, W. Va., July 19.—As a result of yesterday's meeting at Willow Tree Grove, near Monagh, 225 miners refused to work this morning. The drivers, being in sympathy with the miners, refused to haul, and consequently the rest of the miners who had gone to work were compelled to come out. About 60 miners at Pritchard, after hearing the news from Monagh, came out and the rest will follow.

The Hutchinson, Luther & Palatin miners were the next to come, and all the men with the exception of those at the Hite & Shaft mine will soon be out.

Engene V. Debs arrived here this morning, and will hold a meeting at Monagh at 2 o'clock this afternoon, returning here for a large meeting to-night, when it is thought will follow the lead of the Monagh men.

COLUMBUS, O., July 19.—The executive committee of the United Mineworkers is in session here. The consultation is private.

A DEMONSTRATION BY STRIKERS.
Efforts Made to Persuade Canonsburg Miners to Strike.

CANONSBURG, Pa., July 19.—About 500 striking miners from the Miners' Ron district passed through town today, headed by a brass band and a drum corps. A halt was made at the mines of the Canonsburg Coal company, where they were met with armed deputies and ordered to keep off the company's property. They halted in a vacant lot near by and sent committees over to the mines to gather together the miners. The mines of the company closed down today to await the decision of the miners employed here.

More Illinois Miners Out.
ST. LOUIS, July 19.—Information has been received to the effect that 450 men employed in the shafts of the St. Louis Consolidated Coal Company, at Collinsville, Ill., went out today at the request of the marching delegation.

THE NAVY ON A WAR FOOTING.
Miantonomoh to be Made Available for Service.

NEW YORK, July 19.—A special to the Herald from Washington says:

With a view to making available for immediate service as many of the ships of the navy as possible, Secretary Long is considering the advisability of placing the monitor Miantonomoh in the reserve.

The Miantonomoh was laid up in ordinary at League Island in 1895, and since that time but little attention has been paid to the ship except to make repairs from time to time. Secretary Long now intends to have the vessel put in thorough condition so that she can be ordered into reserve with the Columbia and Minneapolis. This means that a "short crew" with a full supply of stores and coal will be kept on board and that she can be made ready for sea service within five days if the necessity arises.

While department officials declare there is no significance in this move, the attitude of Japan with respect to Hawaii and Cuban troubles are sufficient to make the administration desire to be in good

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Blakeley & Houghton's Drug Store.

HOUSE BURNED; BOY DIED.

Singular Circumstances Attending a San Francisco Lad's Demise.

SAN FRANCISCO, July 19.—As the life of their little son was ebbing away, the home of Mr. and Mrs. Louis Torre, in this city, was nearly burned down. While the mother watched by the deathbed of her boy, the father helped to fight the flames. When they were extinguished the lad was dead.

A remarkable feature of the case is the fact that the boy's death was the result of injuries received Saturday while playing that he was a fireman, and aiding some young companions to extinguish an imaginary blaze in the very place the flames afterwards broke out.

What use is there in eating when food does you no good—in fact, when it does you more harm than good, for such is the case if it is not digested?

If you have a loathing for food there is no use of forcing it down, for it will not be digested. You must restore the digestive organs to their natural strength and cause the food to be digested, when an appetite will come, and with it a relish for food.

The tired, languid feeling will give place to vigor and energy; then you will put flesh on your bones and become strong. The Shaker Digestive Cordial as made by the Mount Lebanon Shakers contains food already digested and is a digester of foods as well. Its action is prompt and its effects permanent.

SILVER MAY RISE.

A Possible But Not Probable Effect of the Clondyke Discoveries.

WASHINGTON, July 19.—Quite a number of statesmen were asked what will be the effect of the Alaskan discoveries on the silver question. Most of them were inclined to the belief that the possible production of the new gold country had been greatly exaggerated for the benefit of the transportation companies and the local supply companies. Senator Allison, when asked about the situation, said:

"If the product of gold in Alaska is really enormous it would of course tend to approximate the value of gold and silver, but the output would have to be unprecedented to have much effect, for our output of gold is very large, you must remember."

Another authority said without hesitation there could be possibly no effect on the monetary situation unless the discoveries of gold were so stupendous as to take gold out of the list of precious metals.

GOOD DEMAND FOR WARSHIPS.

United States and Japan Bidding for Brazil's Spare Vessels.

NEW YORK, July 19.—The Herald's correspondent in Rio de Janeiro telegraphs that the United States and Japan have communicated with the government of Brazil with the idea of the possible purchase of warships now building for Brazil in England and Germany.

Owing to Brazil's financial plight at this time it was recently decided to sell, if possible, all the war vessels being built for Brazil in the two countries named. These are principally small boats.

Insured Invalids, Then Killed Them.

NEW YORK, July 19.—The Journal and Advertiser says:

W. D. Robinson, of Meridian, Miss., has been in the city several days in consultation with officials of some of the principal life insurance companies. His object is to bring to light the facts in a conspiracy to defraud insurance companies by insuring invalids, and when disease failed, to hasten the death of the victims by means of poison. The scene of the conspiracy is said to be laid in Kemper county, Miss. Mr. Robinson estimated the operation of the conspirators, given after conference with the New York Mutual Reserve, the New York Life, the Equitable and the Mutual Benefit, as follows:

Policies in which the members appeared as beneficiaries, 100; number who died by disease, 30; number who died by poison, 12; number whose lives were attempted, 15; canceled, 60; amt. cleared and divided by the plotters, \$75,000; still to be paid and divided, \$15,000.

In this connection the Journal and Advertiser reviews the operations of Dr. W. H. Lipscombe, of Seobas, Miss., now under sentence of death for the murder of S. C. Stewart; Guy Jack, a Mississippi merchant, indicted for murder by the grand jury and out on bail, and other Mississippi men. The Journal and Advertiser claims the ramifications of the conspiracy in the South to be practically endless.

A Demand by Russia.

BERLIN, July 19.—According to a special dispatch received here, Emperor Nicholas has telegraphed to the sultan demanding the immediate evacuation of Thessaly, and threatening that otherwise Russian troops will cross the Turkish frontier. It is said here semi-officially today that all the powers except Great Britain have consented to this course.

The ambassadors have informed the porte that they wish a written declaration as to the intentions of the Turkish government, which have hitherto been communicated orally by Tewfik Pasha.

The ambassadors have stated if this is not forthcoming they will suspend the peace negotiations and refer the whole matter to their respective governments with a view of adopting coercive measures.

All the Family.

With the close of the Presidential Campaign THE TRIBUNE recognizes the fact that the American people are now anxious to give their attention to home and business interests. To meet this condition, politics will have far less space and prominence, until another State or National occasion demands a renewal of the fight for the principles for which THE TRIBUNE has labored from its inception to the present day, and won its greatest victories.

Every possible effort will be put forth, and money freely spent, to make THE WEEKLY TRIBUNE pre-eminently a National Family Newspaper, interesting, instructive, entertaining and indispensable to each member of the family.
