A CLONDYKE IN PERU

Fabulous Richness of Peruvian Gold Fields.

THE MINES OF THE INCAS FOUND

One Man Takes Out 279 Pounds of Gold During the Month of June—Others Do As Well.

SAN FRANCISCO, July 24.—Recent advices from Peru, which have been confirmed by C. de Miranda, a petroleum magnate now in this city, state that the wonderfully rich strikes reported from the Clondyke region have been totally eclipsed by fabulous discoveries of gold in the South American republic. In an interview today Mr. Miranda said there no longer seemed to be any doubt that the famous Inca gold fields, which have been considered as myths among the intelligent people of Peru, have at last been discovered. The location of the newly discovered bonanza is in the departments of Sucre and Puno, in the eastern border of the country, which have long been famous for their richness in precious metals. Among the successful prospectors in the new fields is a Californian named Hardison, who left San Francisco two years ago in search of petroleum and penetrated into the interior. In June last he took out of one of his many claims 279 pounds of gold, and many Englishmen are reported to have been equally lucky.

THE QUEEN'S CROWD.

Rich Excursionists and Poor Miners Mingle on the Decks.

PORT TOWNSEND, Wash., July 24.—It was a much-mixed crowd which thronged the decks of the steamer Queen when she sailed at 4 o'clock yesterday afternoon for Alaska. Leaning over the rail between Philadelphia bankers and Boston schoolmarm's of the "touch-me-not" variety, was a hardy miner, wearing overalls, woolen blouse and sombrero, and destined to the rich fields of the Clondyke. Of the 420 passengers on the steamer 210 were booked for Dyea, from whence they will take up the line of march to the mines. The remainder are principally members of the Raymond-Whitcomb excursion and are from the East. Several prospective miners arrived this morning on the steamer Walla Walla from San Francisco and took passage on the Queen.

The fact that the Canadian government has sent customs officers to levy tribute on goods taken to the Clondyke is causing much worry to many who invested their last dollar in tickets and provisions. On an average, an outfit costs from \$200 to \$250. Customs will be from \$80 to \$75.

The British vice-consul of this place gives it as his opinion that where the miner is only supplied for personal use and not for sale, no duty will be charged. He thinks duty will only be collected on goods taken in for speculative purposes.

SECRETARY-SHERMAN TALKS.

Discusses the Canadian Alien Law and the Behring Sea Matter.

NEW YORK, July 24.—Secretary of State John Sherman is at the Fifth Avenue hotel. He will leave at once for Amagansett, Long Island, where he will rest for several weeks. The secretary was asked what he thought of the report that the Canadian government proposed to enforce the alien law against Americans flocking to the Clondyke.

"I do not know," said the secretary. "We have an alien law of our own. We have never enforced it against goldmin-

ers. Canadian citizens have been free to mine for gold in the United States on the same terms as our citizens. There has never been any friction over the matter, and I do not anticipate any serious trouble with our Canadian neighbors on that score.

"Where a man has taken up a land claim for the purpose of residence and cultivation we have always insisted that he be a citizen. The same has been done under the Canadian government. Where a man has simply prospected for gold with the intention of digging in the ground a little way and taking what he could find, he has never been interfered with on our side of the border. I do not think the Canadian government will change that course of procedure. If they do it may lead to fully as much embarrassment to them as to our miners.

"From the meagre reports already received it looks as if there might be as much gold on our side of the Alaskan line as on theirs."

Asked about the Behring sea incident he laughed and said:

"The letters published in the English papers, together with their headlines, are being too readily received as the sentiment of the nation. The English government has made no response to the letter received by Minister Hay in regard to the Behring sea matter, and its foreign office has said nothing of a beligerent nature. England has fully as much, if not more, at stake in the seal trade as we have. London is the center of the fur trade of the world, not only in the buying and selling of furs, but in their dressing and preparation for the market. These matters will be fairly adjusted and that without trouble. America has contended and believes she is right in her contention that something must be done and done at once or the seal race will soon be extinct in Alaskan waters."

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Blakeley & Houghton's Drug Store.

Large Offer for a Shadowy Claim.

INDIAN MINERAL SPRINGS, Ind., via Attica, Ind., July 24.—A. B. Shanz, secretary of the Sterling Remedy Company, who is interested in W. J. Arkell's claims in the Clondyke gold fields in Alaska, was today offered \$50,000 for his interest in the claims by Harry P. Clark, of Pittsburg. Mr. Clark is a brother-in-law of the Arkells and will accompany Bartlett-Arkells to the gold fields to claim the Glave and Shanz locations of 1890 and 1891. It seems that Mr. Clark wants to acquire a share in the claims for himself so as to push them in his own interest. At the Attica offices of the Sterling Remedy Company, it is stated that Mr. Shanz will not accept Clark's offer, believing there is a great deal more money in it if the Arkell claims are substantiated.

THE WESTERN MINERS.

Reported That They Will Follow the Lead and Strike.

LITTLE ROCK, Ark., July 24.—The Gazette today prints the following: "Everything indicates, that Western miners will go out in sympathy with their Eastern brethren. Their local meetings, their conference held a few days ago at Pittsburg, Kan., and the presence of a number of Eastern delegations on the ground are sufficient proof that the step is contemplated, and that it may occur August 1. The action of the Western railroads also shows that they are expecting it. They are storing all the coal they can get. Should such a step be taken, it will seriously interfere with the business of the country, and especially with the marketing of principal products of the West now ready for market—wheat and cattle. It may be averted, but it does not seem possible, unless the demands of the Western miners are complied with."

Kansas Will Not Strike.

PITTSBURG, Kan., July 24.—Kansas coalminers in convention here today by a decided majority decided not to strike in sympathy with their Eastern brethren.

Besides taking the above action, the meeting decided to demand the enforcement of the semimonthly pay, a proper and final adjustment of the quality and price of powder, and the placing of a check-weight man at all the mines in the district.

General Strike Called.

COLUMBUS, O., July 24.—Fred Blicher, of the national executive board, wires from Thurmond, W. Va., to national headquarters, that at a mass meeting at Somonell, last night, the miners adopted a resolution calling for a general strike July 26. They ask for a 50-cent-rate per ton, and no settlement until it is made national.

NURSING SENTIMENT.

The French Cultivate the Love of Valorous Deeds.

Sentiment is a thing of the heart, an instinct rather than judgment. The French nurse it by that which excites the affections and imagination. During one of the wars between France and England a French officer blew up his ship to prevent its being taken. He and the crew all perished.

The French government recognized the officer's heroism by entering the name of his sister, his only surviving relative, in the place in the navy list which his name had occupied, and here it remained till her death, says Youth's Companion.

Napoleon Bonaparte conferred upon La Tour d'Auvergne the title of "First Grenadier of the French Army." He had declined promotion to the colonelcy of a regiment, because it would separate him from his brave grenadiers, but he was not insensible to the distinction which the epithet made apparent. When he was killed in battle the emperor ordered that his name should be called at every roll call of the grenadiers, and that the sergeant should answer: "Died on the field of honor!"

A Mixed Metaphor.

At one of the British university unions an orator declared that the British lion, whether it is roaming the deserts of India or climbing the forests of Canada, will not draw in its horns or retire into its shell.

With the close of the Presidential Campaign THE TRIBUNE recognizes the fact that the American people are now anxious to give their attention to home and business interests. To meet this condition, politics will have far less space and prominence, until another State or National occasion demands a renewal of the fight for the principles for which THE TRIBUNE has labored from its inception to the present day, and won its greatest victories.

Every possible effort will be put forth, and money freely spent, to make THE WEEKLY TRIBUNE pre-eminently a National Family Newspaper, interesting, instructive, entertaining and indispensable to each member of the family.
