FREIGHT AT DYEA

Tons of Supplies Wait Transportation to the Clondyke.

INDIANS UNABLE TO HANDLE IT

An Alaska-Bound Vessel Wrecked in Northern Waters—Other Alaska News.

PORT TOWNSEND, Wash., July 26.—The steamer City of Topeka arrived last night from Alaska. She brings news that the Clondyke fever is on the increase at Juneau. Nearly every able-bodied man there has gone or is preparing to go to the rich fields.

Authentic reports direct from Dyea are that there is now as much freight piled up at the head of the inlet as the Indians can pack over the divide in the next 18 months. This amount of freight will be more than doubled when the steamers Queen and Mexico now en route, arrive. This condition of affairs practically precludes all possibility of hundreds of the rushers reaching the mining region this year.

Frank F. Meyer, the Juneau pioneer newspaper man, will leave there in two weeks for Dawson City, by a different route than by Dyea and over the divide. He will go by the route followed by Lieutenant Schwaka, who conducted an exploring party into the Yukon valley in 1880. This route starts from Taku inlet, 30 miles south of Juneau. From Taku to Lake Telsin the distance is 130 miles, over level prairies, and the country from Lake Telsin is open valley through to the Yukon river by way of the Hootingua river. With the aid of pack horses the Taku route is by far the most preferable. It is probable that a stage line will soon be operated on this route. Parties who have been over both routes say the walk of 130 miles over level country is more easily accomplished than that of 15 miles over Chilcat summit.

John G. Brady has taken the oath of office and is now Alaska's governor.

Charles Lind, a notorious character known as "Russian Charley," is no longer a resident of Kitchikan, Alaska. He was detected in the act of laying a dynamite bomb under the residence of Rev. A. J. Campbell, who is engaged in founding an Episcopal church at Kitchikan. When captured Lind would have been lynched but for the interceding of Rev. Campbell, whom he tried to kill. After the minister pleaded for two hours for the villain's life the miners turned Lind loose with a warning to leave the locality within two hours. Lind has a hard name in southern Alaska, where he has served numerous terms in jail for violating the liquor laws.

SHIPWRECK IN NORTHERN WATER.
A Steamer Bound for Alaska Said to Have Been Lost.

PORT TOWNSEND, Wash., July 26.—A letter which came down on the steamer Topeka and was received here today by British Vice-Consul Clocker, being vague information of a shipwreck some place in northern waters. The writer says provisions will be very scarce in the mining camps the coming winter, owing to the loss of a steamer with a large cargo of freight. No particulars or even the name of the steamer were given, and much speculation is indulged in here as to the name of the steamer. All steamers running north from the Sound can be traced up to a week ago, and as the letter was written in Sitka six days ago, the wrecked craft cannot belong to the Sound and Alaska fleet. The ship referred to has evidently hailed

from San Francisco. The writer of the Sitka letter is known to be a responsible and truthful man.

Another private letter from Juneau brings information that several persons who started from Juneau for Dawson City by way of Dyea and Chilcat pass, after reaching Dyea gave up the trip and returned to Juneau. Either of the new route by way of Taku will be taken or the parties will not attempt to make the trip until spring.

OIL ON WARSHIPS.
Plan of an Indiana Man For Substituting It.

ANDERSON, Ind., July 26.—Judge W. A. Chipman has gone to Washington to file patent applications and interest proper government officials in inventions of Frank M. Reed, of this city, which have been completed, tested practically and found to be capable of revolutionizing the handling of war vessels at sea. The inventions carry out to perfection the idea originated by Russia in using oil instead of coal as a fuel for war vessels. Reed's invention covers a system of oil burning which would make it possible for a vessel like the Indiana to carry enough fuel to last a trip around the world.

The system is gas generation from oil. The gas is generated by an atomizing plant, is smokeless and is capable of a tenth more heat than the Russians get, or 33 per cent more heat than the government is now getting from coal, making it possible to work up to greater speed. Where 30 stokers are now necessary on a great war vessel, one man could handle all the valves.

Another of the inventions covers a storage tank that is absolutely bullet and shell-proof. The cost of the equipment is very small, and would be paid in a month or so in the saving of fuel.

ORGANIZERS ARE ELATED.

Five Thousand Fairmont, W. Va., Miners Join the Strike.

COLUMBUS, O., July 26.—Mr. Mahon wires President Ratchford that between 5000 and 6000 miners are out at Fairmont and the victory is won. Ratchford predicts good results from the Wheeling meeting.

A Crisis Is Imminent.

PITTSBURG, July 26.—Lively times are promised in the coalmining situation this week. A crisis is pending. This is conceded on all sides. The arbitration commissioners, on one side, feel hopeful that they will bring about an initiative for a settlement at the meeting Tuesday morning. The miners' officials on the other hand, claim to have adopted measures that will make a complete tie-up.

It has developed that many of the Virginia miners are waiting for word from the Pittsburg district, especially from the New York & Cleveland mines. They want to hear of the miners in these mines having joined the general suspension. This, it is claimed by officials, will bring all the faltering ones in West Virginia into line, thus making the strike effective in that it will shut off the supply of coal.

Arrangements have been made for Eugene V. Debs and other prominent officials to come to this city and hold a meeting for the benefit of the New York & Cleveland miners Thursday morning. Among others expected to be present are Samuel Gompers, A. D. Ratchford, M. M. Garland and W. D. Mahon. At this meeting it is intended to strike the final decisive blow, and, if possible, make the tie-up complete. The reputation of Debs, it is expected, will draw 12,000 miners to the meeting.

No Walk-out at Fairmont.

FAIRMONT, W. Va., July 26.—Today the great break among the miners failed to take place. Debs and Mahon have gone to Wheeling, not expecting to return. All depends on the action of the executive boards of the labor organizations at Wheeling tomorrow.

Report Was a Canard.

PITTSBURG, July 26.—The report that a raid on the mines of the New York & Cleveland Gas Coal Company was contemplated this morning was without foundation. The mines were running as usual and everything was quiet.

Colonel W. P. Read, the Chicago operator, arrived in the city today. While he favors arbitration, he says the true uniformity movement is a humbug. If the meeting tomorrow is not for the purpose of settling the strike by arbitration, he will not attend, as he will not lend his support to a plan to bring about a settlement when uniformity is established.

Debs et al. Enjoined.

FAIRMONT, W. Va., July 26.—Today the Monongah Coal Company (Senator Camden's plant), and the West Fairmont Coal Company, ex-Governor Fleming's plant, got out an injunction before the circuit court, restraining Eugene V. Debs et al. interfering with their men.

Life in the Polar Region.

Some curious details of life in the polar region have been obtained from members of the Nansen expedition. They all dwell on the feelings of delight which they experienced in once more meeting other human beings. So tired did they become of seeing the same faces and hearing the same voices day after day in the course of the slow drift northward that in the end a feeling of irritation was produced. At times this irritability became well-nigh insupportable. Finding it almost impossible to endure the sight of another day, they would set off on long walks over the ice, each man by himself. It was an astounding thing, one man said, to see his comrades striding away over the ice from the ship, each in a different direction, and carefully avoiding his fellows.

King Humbert and His Soldiers.

King Humbert, in the name of himself, of Queen Margherita, and of the princes of the royal family of Italy, has given to the government for the families of the dead and wounded soldiers in Africa the sum of 4,000,000 francs. This sum is to be distributed without distinction between the Italian and the native soldiers, who fought side by side against the Abyssinians. King Humbert has also expressed his intention of furnishing, if necessary, another sum of 1,000,000 francs, in his name and that of the queen, to be divided among the wounded.

With the close of the Presidential Campaign THE TRIBUNE recognizes the fact that the American people are now anxious to give their attention to home and business interests. To meet this condition, politics will have far less space and prominence, until another State or National occasion demands a renewal of the fight for the principles for which THE TRIBUNE has labored from its inception to the present day, and won its greatest victories.

Every possible effort will be put forth, and money freely spent, to make THE WEEKLY TRIBUNE pre-eminently a National Family Newspaper, interesting, instructive, entertaining and indispensable to each member of the family.
