TO WAVE OVER HAWAII

An American Protectorate Is Projected.

TO FORESTALL ACTION BY JAPAN

According to Honolulu Advices the Protectorate Was to Have Been Declared Yesterday.

SAN FRANCISCO, Aug. 3.—The steamer Belgic arrived from the Orient, via Honolulu, this morning, and brought the following Hawaii advices under date of July 27th:

The arrival of the steamer Moano from San Francisco, due here July 29th, means much for Hawaii. In close official circles it is generally understood that United States Minister Sewell will carry out his instructions received in the last mail, which are said to be to the effect that if the Moano brings word that congress failed to pass the annexation treaty, then Minister Sewell is to declare a protectorate and raise the American flag. Minister Sewell has had frequent consultations with President Dole within the past week and it is believed that they have agreed upon a program.

It is said that in view of the attitude of Japan, Secretary Sherman is of the opinion that the United States' protection is the only way to prevent hostile action during the intervening months before congress reconvenes. It is expected that, allowing for the requirements of diplomatic etiquette, everything will be in readiness for the declaration of the protectorate on Monday, August 2d.

Edwin Dunn, ex-United States minister to Japan, is a through passenger on Belgic. He is en route for Washington and expects to spend several weeks in the United States before returning to Japan. Dunn believes in annexation, but is of the opinion that the present congress will never take favorable action on the treaty now before it. He does not look for any rupture that may disturb the friendly relations now existing between the United States and Japan, but he does believe the government has a just claim against the Hawaiian government in connection with the immigration trouble, although she is not likely to enforce her claims in case the Hawaiian government refuses to recognize them.

"There is no possible likelihood of trouble between Japan and the United States," said Mr. Dunn, "despite all reports to the contrary. I believe the Japanese government will act favorably upon the recent offer of arbitration made by your government. The Japanese of all classes feel very bitterly against your government, but I may venture the opinion that whatever the outcome of the present correspondence may be, Japan will never attempt to use arms in enforcing her claims."

Dated at Washington.

WASHINGTON, D. C., Aug. 3.—At the state department it is positively declared there has been no change in the instructions given Minister Sewell or Admiral Beardslee touching upon their attitude toward the Hawaiian question. The admiral's instructions were to protect American interests at all points and to establish a protectorate in the event only of a serious disturbance or the commission of some overt act. It is not understood that the execution of this order was at all dependent upon the action or nonaction of congress upon

WHY ANNEXATION IS OPPOSED.

An Interview With the Japanese Minister at Mexico.

CITY OF MEXICO, Aug. 3.—In an interview on the Hawaiian-Japanese controversy, Yoshihumi Murota, Japanese minister to Mexico, made the following statement:

"There are many Japanese in Hawaii and they have rights which might be interfered with in the event of annexation. What if the United States respected these rights? In such a case there might be no objection on the part of my government. However, Hawaii is an independent country in the Pacific, and Japan would prefer to have it kept independent.

"Even if the United States should carry out the policy of noninterference in European or Eastern affairs, in case the islands should become a part of the American union, some contingency might arise for causing them to change their policy of neutrality. For instance, Honolulu is an important settlement, and if America had any question with Great Britain, the possession of these islands in the Pacific might lead as an accident in colonial politics to an expansion of the American domain far beyond their present intentions. This is the reason we prefer to have Hawaii wholly independent."

The minister said that all talk about an alliance between Japan and Spain against the United States is erroneous.

"No such thing is contemplated," he said. "Japan owes its modern renaissance to the United States, through whose efforts the country was thrown open to the world. We consider the United States in that sense our mother country. Even if the United States were to make a present of Hawaii to Japan, it would not be accepted. The Japanese have no ambition to annex Hawaii, and as I said, would rather see the islands independent and free."

THE SOUND FLEET.

Men and Horses Still Moving North in Large Numbers.

SEATTLE, Aug. 2.—The steamship Willamette, advertised to sail from Seattle to Dyea tomorrow, will not get away until Thursday. When she does go she will carry 800 people and 300 head of horses, the largest load that ever left this city.

The steamship Al-Ki sails tomorrow with about 200 people. The Rapid Transit goes tonight with 268 horses, and the George E. Starr is billed to leave tomorrow with 100 passengers and 100 horses.

Edward Thorpe, who left Dawson City about June 20th, to come to the coast overland, with a large amount of money, should have reached here by July 27th, at the outside, but his father, who lives here, has heard nothing from him, and is worried. The father has 100 cattle waiting to take into the Clondyke, but cannot start until his son arrives. It is possible he may be on the Queen, due tonight, but there is fear that he may have been held up on the trail.

A party of six men from Saginaw, Mich., arrived here today, en route for the Clondyke. Another party of eight men has arrived from Cripple Creek, to go north. They are miners, and have been sent out by Colorado parties.

EASY ROAD TO CLONDYKE.

Salem Man Claims One Could Be Quickly Opened.

NEW YORK, Aug. 3.—A special to the Herald from Washington says:

There is a short and easy route to the rich gold fields of the Clondyke, according to a communication to the interior department, from J. M. O. Lewis, a civil engineer, of Salem, Oregon, who says he can open up at small expense a route from south of the Copper river by which the Clondyke may be reached by a journey of not much more than 300 miles from the coast.

The route which he proposes will start in from the mouth of Copper river near the 20-mile glacier, about 25 miles east of the entrance to Prince William Sound. He says Copper river is navigable for small steamers for many miles beyond the mouth of its principal eastern tributary, called on the latest maps the Chillina river, which is itself navigable for a considerable distance.

From the head of navigation on the Chillina, Mr. Lewis says either a high road or a railroad could be constructed without great difficulty or heavy grade through what the natives call "Low pass," probably Soolai pass. From this pass, the road would follow the valley of White river to the point where it empties into the Yukon on the edge of the Clondyke gold fields.

Will Not Sail on Friday.

SAN FRANCISCO, Aug. 3.—The Pitcairn, which will carry a party of gold-hunters to Dyea, will not sail on the 6th as advertised. A number of those who have engaged passage made such a strong protest against departing on Friday that they carried their point, and the Pitcairn will not cast off her lines until Saturday. Thus far 90 persons have engaged passage, including ten women from Oakland, San Leandro and Lorin. Some of these have husbands at Dawson or about to go there.

What use is there in eating when food does you no good—in fact, when it does you more harm than good, for such is the case if it is not digested?

If you have a loathing for food there is no use of forcing it down, for it will not be digested. You must restore the digestive organs to their natural strength and cause the food to be digested, when an appetite will come, and with it a relief for food.

The tired, languid feeling will give place to vigor and energy; then you will put flesh on your bones and become strong. The Shaker Digestive Cordial as made by the Mount Lebanon Shakers contains food already digested and is a digester of foods as well. Its action is prompt and its effects permanent.

Doctors prescribe LAXOL because it has all the virtues of Castor Oil and is palatable.

Remarkable Cure of Chronic Diarrhoea.

In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after that I bought and took a 50 cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write to me. Yours gratefully, Henry Steinberger, Allentown, Pa.
