THE DALLES, OREGON, FRIDAY, AUGUST 6, 1897

NO 177

IS OFF FOR ALASKA

The Cleveland Sails Thursday Morning.

TWO HUNDRED GOLD-SEEKERS

Life Insurance Companies Refuse to issue Policies to Persons Going to the Alaska Mines.

SEATTLE, Aug. 5.—The steamship Cleveland, under charter on the North American Transportation & Trading Company, sailed for St. Michaels today with 200 gold-crazy prospectors bound for the Clondyke diggings, and carrying 1000 tons of freight. The passengers and freight will be transferred to river steamers at St. Michaels, and the long journey up the Yukon river to Dawson City, a distance of 1800 miles, and from Seattle a total distance of 4200 miles, begun.

The Cleveland is the last steamer this year to connect with Yukon boats from St. Michaels. Twelve or fifteen more steamers are yet to leave for Alaska this month with prospectors for the Yukon, but all will go to Dyea and take the land route over White pass via pack train and canoes down the river.

Among the passengers on the Cleveland were W. I. Hutchinson, of Chicago, son of "Old Hutch," the grain speculator, Captain P. M. Ray and Lieutenant Richardson, U. S. A., who will be followed next spring by sixty soldiers from Fort Russell.

At present there are but two steamers on the Yukon, but in the spring there will be ten, two owned by private people from Puget sound.

CLONDYKE SCHEMES SPOILED.
Insurance Companies' Ultimatum Worries Co-operative Companies.

INDIANAPOLIS, Aug. 5.—The determination of the leading life insurance companies to carry no risks on Clondyke explorers has fallen with dampening effect on the co-operative companies which were forming in this city, and upon a number of men who are preparing to start for Alaska during the coming winter.

One of these companies intended sending ten representatives, each insured for \$10,000, giving each man \$1000 besides money for contingent expenses, all of them to co-operate in the search for gold, dividing equally with the company, and in case of death the insurance money was to be paid to the company. By each death the company stood to win \$8500, on the basis that no more than \$1500 would be spent on each representative.

RIVER BOAT ON THE YUKON.
Thomas Dwyer Will Be Taken Off the Sacramento and Sent North.

SAN FRANCISCO, Aug. 4.—The river steamer Thomas Dwyer is to be sent to Alaska to ply between St. Michaels and Dawson City. She has been purchased by the Yukon Exploration Company, of which Burnette G. Haskell, the attorney, is the head. The vessel has been engaged in the river trade on the Sacramento for some years, and is well fitted for the purpose for which she is intended. She draws but eighteen inches of water when loaded, and can carry a good quantity of freight. The Dwyer was brought down from the river today, and will be taken to Anderson's way, where she will be fitted with staterooms and a new deck placed on her.

The steamer will then be taken apart,

and she will be carried to St. Michaels on the deck of a steam schooner, which will leave here about August 15th.

Atkinson is Diplomatic.

WASHINGTON, Aug. 5.—Governor Atkinson of West Virginia has written a reply to the labor leaders who recently conferred with him regarding the miners' strike, in which he says he has given the matter his most earnest consideration, and that in the controversy the rights of property as well as the rights of citizens must be considered.

Referring to the injunction issued by the circuit court of Marion county, he says the Marion county court belongs to the judicial department of the state, which is independent from the executive department, and it would be improper for him to express an opinion as to whether the injunction is too sweeping in character. He has requested the attorney-general to assist in having an early adjudication by the supreme court of the state of this proceeding, because it presents somewhat novel questions.

Sails Under a New Flag.

SAN FRANCISCO, Aug. 5.—The Pacific Mail Steamship Company's ship China will sail out of the port today flying the Hawaiian flag. It was ordered by the officials of the company to place the big vessel, which is the crack ship of the Pacific Mail fleet, under the Hawaiian flag without loss of time, and it is said in maritime circles that this action on the part of the company indicates a belief among the officers of the company that the annexation of the islands is likely to be accomplished in the very near future.

The Hudson River Tunnel.

New York, Aug. 5.—The Hudson river tunnel project to connect New York and New Jersey has been revived. Plans are now being perfected to resume construction where it was dropped five years ago. Engineers say that an expenditure of \$1,500,000 will complete the work. Four million dollars had already been spent before the work was abandoned, at which time there were 3916 feet of completed tunnel going east from the shaft in Jersey City. One thousand feet of this distance extends east of the middle of the Hudson river.

An Extra Dividend.

NEW YORK, Aug. 5.—The Standard Oil trust has declared another dividend of 2 per cent in addition to its regular quarterly dividend of 3 per cent.

The trust's capitalization is over \$100,000,000, and the dividend will amount to \$5,000,000. The trust's profits to date amount to nearly \$150,000,000, on an average \$10,000,000 a year. The last dividend shows that the trust's profits amount now to over \$20,000,000 a year. Standard Oil stock rose 7 points on the announcement of the dividend.

What use is there in eating when food does you no good—in fact, when it does you more harm than good, for such is the case if it is not digested?

If you have a loathing for food there is no use of forcing it down, for it will not be digested. You must restore the digestive organs to their natural strength and cause the food to be digested, when an appetite will come, and with it a relish for food.

The tired, languid feeling will give place to vigor and energy; then you will put flesh on your bones and become strong. The Shaker Digestive Cordial as made by the Mount Lebanon Shakers contains food already digested and is a digester of foods as well. Its action is prompt and its effects permanent.

Doctors prescribe Laxol because it has all the virtues of Castor Oil and is palatable.

Coaldealers Apprehensive.

CLEVELAND, Aug. 5.—Cleveland coal men viewing the coal strike situation with much apprehension. They are deeply interested in a mass meeting to be held in Clearfield district in Pennsylvania, which the strike has not reached.

Advices in Cleveland are to the effect that De Armit's mines are paralyzed, and the feeling here is that there may be an absolute tie-up.

Over Seventy-Seven Millions.

WASHINGTON, Aug. 5.—The latest official estimate of the population of the United States is 77,000,068. This is made by the actuary of the treasury, an officer whose duty it is at fixed intervals to report on the per capita circulation of money in the United States. He estimates that the present holdings of money are \$22.53 for every man, woman and child in the United States.

Miners in Convention.

SPRINGFIELD, Ill., Aug. 5.—About 300 miners were in attendance today at the opening of the state convention. The object of the convention is to decide upon a uniform wage scale for machine and hand labor. There will be a mass meeting this evening.

A Foolhardy Feat.

CLINTON, Ind., Aug. 5.—Hugh White, a colored miner, on a banter, made the perilous jump from a railroad bridge to the water, 100 feet below. After the leap he swam 150 feet in his heavy clothing, climbed to the top of the bridge again and repeated his feat.

Flour Is on the Rise.

CHICAGO, Aug. 5.—Flour is rising in price, and has reached \$5 a barrel. Last April it cost \$4.10, the low price of the year. The advance has been steady since, and some of those in the trade think it will continue until the wartime prices prevail.
