GOLD HUNTERS OFF

Steamer Rosalie Sailed Thursday for Skaguay.

SHE CARRIES 150 PROSPECTORS

All Go Fully Determined to Conquer the Pass—Wreck of the Mexico.

SEATTLE, Wash., Aug. 12.—The steamer Rosalie leaves this afternoon for Dyea and Skaguay bay with 150 miners, hailing from all parts of the East, who intend going to the Klondike over the pass, thence down the Yukon river. It is estimated now that fully 4000 men are encamped along the beach this side of the pass unable to get over. Many of them have lost heart and will come back. Some of the more courageous will get through to the diggings and come back rich.

T. B. Corey, well known in Washington, Illinois and Iowa as a coal mine superintendent, left Seattle July 18th for the Northwest with four others, carrying along provisions for one year. At Dyea they employed a band of 31 Indians to carry their outfits and thus made Lake Linderman on the opposite of the pass in one trip. They paid the Indians \$25. At the lake their boats were secured and they started. In a letter received from Corey, written at Linderman, he says they were on the eve of departure and if everything has gone well with them should reach Dawson City today. Corey is a cautious, determined, strong-will man and it is believed his party will not only reach the diggings but will have the honor of making the fastest trip to the interior on record.

Some miners at Dyea and Skaguay are selling \$500 and \$600 outfits for from \$30 to \$50. The rush to the mines will demonstrate for all time which are thoroughbred, for none but thoroughbreds can expect to get along and keep up heart.

The wreck of the steamer Mexico is still being talked of in Seattle. It now develops that the officers disobeyed the orders of Captain Thomas in a manner that might have resulted disastrously. When the passengers took to the boats the captain gave orders to the officers as follows: "Row away 100 feet and then tie all the boats together so that we can all keep together." This was not done. Two boats started to row towards the fog bank the men thinking they saw land, and it was only good luck that made them turn back and keep with the other six boats. For a time the boats were scattered in all directions and it is luck pure and simple that some of the boats loaded with men, women and children are not at this moment drifting around on the open sea with a perishing crew.

The rush northward has not abated and steamers leaving during the next ten days will be crowded with miners. Many, however, are preparing to winter in Seattle and go North in the spring.

Eighty Thousand Oregon Sheep.

KANSAS CITY, Mo., Aug. 11.—J. A. Knollin, a livestock commission merchant of this city, has bought in Oregon 80,000 sheep, which are now being driven overland to Kansas, where they will be fed next winter and marketed the following winter and spring. This immense herd has been divided into 12 bands, each of which is driven by eight men. Knollin expects to reach Kansas with the sheep by October.

No Aid for Stranded Miners. SAN FRANCISCO, Aug. 12.—Rumors have recently been spread in this city

that the Alaska Commercial Company has sent messages to their agents and commanders of vessels at St. Michaels instructing them to bring stranded miners and prospectors who they may find at St. Michaels or at the mouth of the Yukon back to civilization as an act of charity. The Alaska Commercial people deny the truth of these rumors, and say that they have no intention of wasting any philanthropy upon foolhardy adventurers.

It is reported from Juneau that the blockade at Dyea and Skaguay is daily growing worse. At the two points there are now not less than 1000 men unable to go over the summit.

SERIOUS BLOW AT CANADIAN ROAD Discriminating Duty Will Destroy Their Oriental Trade.

MONTREAL, Aug. 12.—The decision of Attorney-General McKenna as to the interpretation of the clause of the new United States tariff which deals with the imposition of a 10 per cent differential to the duty on foreign goods entering the United States through a contiguous country, will be watched with the greatest interest in Canada.

"If the clause is put into force," said G. M. Bosworth, freight traffic manager of the Canadian Pacific railroad, "its effect will be most serious. It will kill all our China and Japan business in exports intended for the United States, and will also kill entirely importation into the United States through Canadian ports. Montreal, in summer, and St. John's in winter, will suffer from the adverse legislation."

The same view was expressed by G. B. Reeve, general traffic manager of the Grand Trunk Railway.

The Sick Man of Europe.

CONSTANTINOPLE, Aug. 13.—Placards in Arabic characters have been found posted upon the walls of all the ministries demanding a change in the system of government in the Turkish empire. Placards declare that otherwise blood will flow as during the Armenian massacres.

The minister for war, Riza Pasha, has sent a circular to all the Turkish commanders directing them to watch the officers strictly. This step is attributed to the increasing discontent visible in Turkey against the present government.

THERE ARE OTHERS.

A Rich Gold Discovery Reported From Nicaragua.

NEW ORLEANS, Aug. 12.—A new gold field has been discovered, but this one is in the tropics. Reports have come to this city lately that big finds of gold have been made in Nicaragua, and steamers from that section have been bringing in gold dust in proof of it.

E. S. Spence, a well-known citizen of Houston, Tex., arrived here on the Fulton, plying between New Orleans and Nicaraguan ports, and confirmed the stories about the discoveries in Nicaragua. He says he has been all over the gold fields, and that gold is there in large quantities. He has acquired valuable claims and will return as soon as he can make arrangements to work them. He says the whole gold region down there is very rich and the climate splendid. He says unemployed miners of the United States will do much better there than in attempting to go to Alaska. Food in Nicaragua is cheap, and other expenses are reasonable.

Gold in California.

REDDING, Cal., Aug. 12.—News was received here from Coffee Creek to the effect that \$40,000 more of gold dust and nuggets were taken out yesterday afternoon from the pocket out of which the Graves brothers took their \$42,000 last Saturday.

Another exceedingly rich discovery of gold is reported on Morrison gulch, about two miles from the scene of the Graves brothers discovery. It is said \$18,000 was taken out Wednesday afternoon and that two miners are taking out gold on an average of \$40 to the pan. The strike is on the same vein of the Graves claim, and is supposed to be an extension of the same.

Another Mine Discovered.

REDDING, Cal., Aug. 12.—Mr. Blackburn, owner of the Deep Gravel mine near Trinity Center, Trinity county, brings in news of another rich strike on Morrison gulch, seven miles above the claim of the Graves Bros. He stated that Burgess and Murphy discovered a seam in their diggings 300 feet long, and upon prospecting the same same got as high as \$10 and \$20 to the pan in several places. The formation is black iron and ochre and porphyry walls. Miners and prospectors are leaving their claims to locate ground on Morrison gulch, and the whole bed of the gulch will soon be located.

NEW CONVERTS TO OPTIMISM.

Senators Stewart and Jones Admit Prosperity is Here.

NEW YORK, Aug. 12.—The Times today publishes the following:

Senator Stewart is one of the latest converts to commercial optimism. He is engaged in a vigorous campaign in Wall street, and he said yesterday that he had heard so much about better times that he had determined to gather in a part of the prosperity which is now not only rampant in the street, but outside. When asked what had brought about the change in his views, he said:

"There is no room for pessimism in this country, no one can be a bear in the face of the wheat famine in Argentine, Russia, Hungary and India. In view of these conditions abroad I should not be surprised to see silver sell for 25 cents and wheat as high as a dollar.

"There is nothing in talking silver at the present time, and my advice to my friends in the West is to fall in line with the forces of prosperity and progress and receive their due share of the reward."

"Are the people in the West alive to this new situation?"

"The people in the West," he replied, "are wide awake. They know a good thing when they see it. Most of them are hanging on to their cereals with confidence born of hope and actual knowledge of what is going on around them. With their immense crops they will be able not only to liquidate their indebtedness to the money sharks of the East, but will inaugurate a buying movement that will surprise the people in this part of the country. I think that by the late fall the truth of what I said and reiterated during the campaign will be generally recognized, and this is that there can be no general prosperity in a country that is not born and sustained in the West."

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Blakeley & Houghton's Drug Store. (4)
