Prahl, who shot Dan Maloney, came
in from Camas Prairie Saturday after-
noon, and surrendered to the sheriff.
He is now in the county jail.

At Lyle last night about dark, there
was quite a shower, and at the Locks
there was a heavy sprinkle. Here there
was a sprinkle, but that was all.

C. D. Nickelsen, of Hood River, was
admitted to the Methodist conference at
Pendleton, Friday, having passed a fine
examination, and was ordained Sunday.

A dispatch received last night at 5:15, from Weather Observer Payne by Local
Observer S. L. Brooks, says: Heavy
rains expected in Columbia river valley,
Monday and Tuesday.

At the residence of Mrs. Schenck there
will be meeting of St. Paul's guild, on
Wednesday afternoon at 2:30 o'clock.
It is hoped every member on the roll
will be present, as important business is
to be transacted.

The private school conducted by the
Misses Taylor, will open Monday the
13th, in the lecture room of the Baptist
church. Children from 4 to 10 years of
age will be taught. Pupils will also be
received in special studies.

Mays & Crowe received a telegram
from Tacoma this morning, saying that
the Pickaninnies missed the train at
Seattle yesterday and consequently can-
not reach The Dalles until 1 o'clock to-
night. The proceedings are thus post-
poned for one day.

Much complaint is being made of that
piece of road between the top of the
brewery hill and the winehouse. The
road is sidling, the bed rock coming to
the surface. With a little work done on
that part of the road, the farmers say the
balance of the road would cause no trou-
ble.

Jack Prahl was taken before Justice
Filloon this morning for his preliminary
examination for the killing of Dan
Maloney. Judge Bennett appeared for him.
The examination was waived and
bonds were fixed at \$3,000. These were
furnished, it being understood that his
brother deposited the money to secure

his bondsmen, who are H. M. Beall,
Geo. A. Liebe, Louis Rorden and H. C.
Nielsen.

A quarter of a block of wooden build-
ings in Seattle, on Jackson street, burned
last Friday. In the block was a barn
used by the Mason & Pallen Transfer
Company. Five horses were burned to
death.

The hobo nuisance has become so great in
Palouse and Garfield that those cities
have employed additional police force.
The harvest fields in that locality
are badly in need of men at good wages.

P. O. Pulsifer, who lives on the mid-
dle fork of the Newkum, in Lewis
county, lost his house and all its con-
tents Tuesday morning by fire. There was
no insurance, and all is total loss to him.
It is supposed the fire originated from
sparks from the stove.

Frank Heater, in fit of despondency,
attempted to commit suicide yesterday
in the Salvation Army barracks by
stabbing himself in the breast. The
knife struck a rib and glanced down-
ward. We understand the reason given
by Heater is that Dan Maloney was his
best friend, and now that he is dead he
does not care to live.

Mr. G. W. Phelps will leave tonight
for Heppner, where he will engage in the
practice of the law. We understand
that there is now only one attorney
there, and that consequently the opening
is a remarkably good one. Mr. Phelps
will occupy Congressman Ellis' office
and will have the use of his library.

His brother Elks here have arranged for
a farewell party in their hall tonight,
and he will take with him to his new
home the best wishes of everyone in The
Dalles.

At New York Saturday, wheat took a
tumble to about 10 cents below the top
price of a few days ago, and the market
was dull with prices ranging from 94 to
95. It is said that favorable crop re-
ports from the Northwest had something
to do with the drop. If so, the price
will soon go up again. With the best
of weather conditions the yield will
hardly be up to the estimates, and the
best of these leave the world with more
than 300,000,000 bushels shortage.

The University Clef Club, which
gives one of its concerts Wednesday
evening in the M. E. church, comes
very highly recommended. Miss Caugh-
ran has few equals as a reader. Mr.
Claypool says: "The music rendered
by the Clef Club is without flaw in
harmony: is artistic in expression, and
the voices blend perfectly." The
concert is given under the auspices of
the Epworth League, and will, no
doubt, attract and delight a large audi-
ence.

A TWO-MINUTE HORSE.
Star Pointer Paced a Mile in One Min-
ute and Fifty-Nine and One-
fourth Seconds.

At Readville, Mass., Saturday, August
28th, the long expected two-minute
horse came to the front and placed the
record three-quarters of a second below
that long attempted mark. The dis-
patches give the following account of the
making of the record:

Accompanied by a runner, the big bay
Tennessee-bred stallion wiped out the
mark and had three-quarters of a second
to spare when he went under the wire.

This wonderful performance was wit-
nessed by about 8000 persons. It was

the more wonderful for on Friday Joe
Patchen, with Geers behind him, had
made a try at the mark made by John
R. Gentry last October, and had failed

by a second and a half. Because of this,

it was not thought that his greatest
rival in the race line would get down be-
low the even time-mark.

The day was perfect for record-break-
ing. Not a breath of air was stirring
when at 4 o'clock the horse came out

with a running horse to make the trial
for a world's record. The first two

scores were not satisfactory to McCleary
and he worked the horse way down be-
low the turn. The second score was

even worse than the first, for while at
scarcely a two-minute clip he went to a
break right under the wire. This made

the friends of the horse more than a
trifle nervous. The horse was acting as

if a little sore and not up to the task.

But the third time down there was no
hesitation. McCleary nodded for the
wire, and off the pacer went.

The first quarter was at a two-minute

gait, thirty seconds, and then, as Mc-
Cleary called on his pacer to move, there

was a great cheer, for he was beating

two minutes and got to the half in

0:59 1/4, with the second quarter in

0:29 1/4. The third quarter was the fast-
est of the mile, the distance being cov-
ered in 0:29 1/4 seconds, a 1:57 gait.

Around the turn Pointer seemed to
waver the smallest fraction of a second,
but McCleary had him right almost be-
fore one could think, and he straightened

out into the stretch, the runner

moving up closer. Both pacer and run-
ner were asked to step along. McCarthy

laid the whip on the runner, but Mc-
Cleary only spoke a word of encourage-

ment to his horse.

At the drawgate Pointer was reefed a
little, and, coming stronger from the

distance, the great pacing stallion ap-
peared to freshen in the last few strides,

gathering fresh courage as he neared the

wire, and finished like a lion in the rec-
ord-breaking time of 1:59 1/4.

A mighty shout went up. Men yelled

as though possessed. In the grandstand

the owner of the horse had his hand

wrong until it ached. Over the fences

jumped men who knew the horse and

driver, or who were carried away with

the enthusiasm of the moment.

Hardly had McCleary brought the

horse to a standstill before they had

him on their shoulders, and he was

borne along the stretch to the judges'

stand and there, as the band played
"Hail to the Chief," he was introduced
to the throng, and then renewed ap-
plause for horse, owner and trainer
rang out.

A fairer mile was never timed. There
was not a watch in the stand but what
agreed with the time announced, while
on the other side of the stretch, the
watches in the grandstand caught it
fairly fast or better, not one slower.

C. W. Marks, also of Chicago, the
owner of the greatest rival of Pointer,
looked at his watch earnestly and then
remarked:

"If anything, the mile was faster
rather than slower. It was a 1:59 per-
formance."

The summaries:

0:30, 0:59 1/4, 1:29, 1:59 1/4.

Congressional Visitors.

The Dalles City arrived from Portland
yesterday afternoon, making a special
trip for the congressional party, consist-
ing of Congressmen Hooker of New
York and Ellis and Tongue of Oregon.
Congressman Sherman, also of New
York, was to have been of the party,
but sickness prevented. The Commer-
cial Club had arranged for the recogni-
tion of the visitors here, among other
things an engine and car being provided
for carrying the party as far as Celilo,
that all might see the character of the
obstructions to navigation, but in some
manner this part of the program mis-
carried, though Mr. Hooker was taken
up on an engine. He being the chair-
man of the committee on rivers and
harbors, was very anxious to have a per-
sonal knowledge of the conditions here.
Quite a number of friends accompanied
the delegation on their trip up, and sev-
eral went down as far as the Cascades to
meet it.

The Dalles City left about 2:30 for
Portland, taking Ellis and Tongue and
several Dallesites, and the balance of
the party left on the Spokane flyer for
the East.

Did Fitzsimmons foul Corbett?

Thursday night, September 2, we will
all have a chance to see for ourselves
whether Wm. Brady, Corbett's manager,
was correct in claiming a foul against
Jim. The New York Herald explains it
as "a trick of perspective." As the gen-
uine Veriscope reproduction of the great
Carson contest will be here, this mooted
question will soon be settled in the
minds of all. There is already a big de-
mand for seats and the house will un-
doubtedly be crowded.

To Butter Makers.

I have one of the new improved Elec-
tric Churns and can do the churning in
one to two minutes. I can recommend
it to any one. The first day I got mine
I sold three: next day six; one day
eleven. Every churn sold sells another.
I cleared \$182 in 36 days. To show it, is
to make a sale. I advise any one wish-
ing a churn or a good paying business of
their own to write to the U. S. Novelty
Mfg. Co., 1517 Olive Street, St. Louis,
Mo.

In the United States now enjoying food cooked in the MAJESTIC affirm that the half has not been said in its praise. The manufacturers of this Range pledge themselves that all parts of the MAJESTIC except the firebox and the new series Nos. 201 to 212, are made of steel and malleable iron, and purchasers are assured that it is as good and as honest as skilled labor and money can produce. If the parts now in malleable iron were (as in other so-called steel ranges) made of cast iron, the price could be greatly reduced; but the MAJESTIC is not made with a view to furnishing extra parts for repairs.
