FOR INDIANA MINERS

A Large Relief Fund Subscribed at Lebanon.

AID WILL COME NONE TOO SOON

Thirty Thousand Men, Women and Children Are Reported Starving in the State.

DENVER, Aug. 30.—A special to the News from Lebanon, Ind., says:

An immense meeting was held last night at the opera house in behalf of the starving coal miners in Indiana. Thomas J. Terhune made a statement of the condition of the miners as he found it while making his investigation as Governor Mount's special commissioner. He said:

"There are 8000 families in this state in destitution. Thirty thousand people who are literally starving. A few years ago they received \$1.25 per ton; now the average price paid is about 35 cents per ton. A good miner can make \$1 a day and is allowed to work two or three days each week. They are compelled to trade at company stores and the prices they pay are left entirely to the mine operators. The miners admit that they cannot live upon the present scale of wages."

A large subscription to the relief fund was raised.

E. V. Debs left Terra Haute for St. Louis last night to attend the conference called by the national executive board of United Mineworkers. He says there has been a remarkable change in public sentiment on the injunction question; that whereas three years ago there was hardly any dissent from the course of judges who were issuing restraining orders against the strikers, the preponderance of sentiment now is in opposition.

No Marching This Morning.

PITTSBURG, Aug. 30.—Marching by the striking miners was practically abandoned this morning on account of heavy rain. Captain Bellingham, with a squad of strikers, went to the Peterman mine this morning, and claims to have had some success among the miners employed there.

ATTACKED BY MOONSHINERS.

Deputy Marshals Ambushed and Shot in Arkansas.

LITTLE ROCK, Ark., Aug. 30.—Two deputy United States marshals are dead, two seriously wounded and two more missing as a result of an attack upon a posse of officers by a gang of desperate moonshiners in Searcy county. The dead are: B. F. Taylor, of Searcy county and Joe Dodson, of Stone county. The wounded men are the Renfrow brothers. The names of the missing men are not given, but they are supposed to be deputy sheriffs of Searcy county.

Taylor, one of the murdered men, was 60 years of age and was the wealthiest man in Searcy county. Dodson was a well-known deputy and has been a terror to moonshiners. He was leading a raid when the terrible affair occurred.

The officers had approached to within 30 yards of an illicit distillery, when they were fired upon from ambush. Taylor and Dodson fell at the first volley, dead in their tracks. The shooting occurred 35 miles from Russellville, at a point ten miles south of Witt Springs. The locality is in the mountains, and has for many years been a favorite rendezvous for moonshiners and counterfeiters. News of the tragedy was

Mrs. Potts, Tacoma, Wash. "One jar of Garland's Happy Thought Salve cured me entirely of the severest case of sunburn I ever had. I have recommended it to my friends, who have all been benefited by it."

brought to Russellville this morning by Dr. Pack, who came after the coroner.

The men who did the shooting are supposed to be a gang of moonshiners led by Horace Bruce and John Church, two of the most desperate characters in that part of the state.

BONES OF EXTINCT ANIMALS.

Central Park Museum Secures Some Rare Specimens.

NEW YORK, Aug. 30.—One hundred huge cases that have just arrived at the Museum of Natural History in Central Park are regarded with more than usual satisfaction by the directors of the museum. They are the bones of remarkable specimens of extinct animals, dug out of the earth many feet below the surface of Wyoming, Nebraska, Colorado and Texas. They are the first consignment of the results of the summer's work of the numerous expeditions sent out by the museum.

In these 100 cases there is one perfect specimen of the flying lizard, that was twelve feet long. Professor Mathews said there were numerous other sections of lizards, but only one complete specimen, which was taken from Kansas soil. It belonged to a period of ages before man was dreamed of, and flew like a bat in the night and fed on fishes.

Professor Mathews, who had charge of an expedition to Kansas, has just returned. On his way back he got into Wyoming with Professor Wortman's expedition. When that section returns to New York in October there will be brought along a monster lizard over 50 feet long. It is being dug out of Wyoming rock now. When he left 35 feet of the creature was in sight, and it was estimated 20 feet more remained to be excavated.

LEUTGERT'S TRIAL BEGUN.

Work of Securing a Jury Has Been Completed.

CHICAGO, Aug. 30.—The trial of Adolph Luetgart for the murder of his wife, began in earnest today, the preliminary work of securing the jury having been completed.

Contrary to the expectations of the state, the jury will be asked by the defense to witness an experiment in the vat in the basement of the sausage factory. This is to be the result of an experiment conducted by Luetgart's attorneys Saturday and yesterday. The body of a man, of about Mrs. Luetgart's age and weight, who met death by violence Thursday, was taken to the factory on Diversey avenue and immersed in a solution of caustic potash. Experts reported that after boiling the body in a fifteen per cent solution of potash for the same length of time as the state alleges Luetgart disintegrated the body of his wife, the complete

skeleton of the cadaver remained intact and the solution had but little effect upon the clothing.

As a result of the test, the defendant will, it is said, ask Judge Tutbill to remove his court and jury to the basement of the big sausage factory for a few hours and witness another experiment which the defense claims will completely disprove the state's theory of disintegration.

WANTS THE GOLD STANDARD.

Legislation Looking to Its Adoption Is Pending.

NEW YORK, Aug. 30.—A dispatch to the Herald from Lima, Peru, says:

El Comercio says editorially that the financial measures recently submitted to and now pending in the Peruvian congress, will, without doubt, tend to the adoption of the gold standard in Peru. The result El Comercio further says, will not be brought about without a monetary crisis more or less intense.

The gold standard, in the opinion of the paper, was the only remedy for Peru's present financial straits, and such a change would be productive of permanent good. In the meantime, business in Peru is practically at a standstill, the markets are almost in a state of panic.

A dispatch from Buenos Ayres says the wheat crop in the province of Santa Fe is calculated at about 10,000 tons, scarcely more than enough to supply the province for the year. What is true in Santa Fe province is said to be true in the other provinces, that is, none will furnish more than enough for home use.

Advices from Rio de Janeiro state that the fanatics attacked several convoys of provisions and ammunition in the interior a few days ago and a bloody battle followed. The fanatics were forced to retire after severe losses. The Brazilian troops had 28 officers wounded. The fanatics are now reorganizing their forces and another attack on convoys is expected, as the fanatics are in need of ammunition.

Wants the Girard Millions.

KANSAS CITY, Aug. 30.—Mrs. Edith Singles, wife of Frank Singles, of this city, a traveling salesman, today made the following sensational declaration:

"I am a descendant of Stephen Girard, the multi-millionaire of Philadelphia, founder of Girard college. My great grandfather was a brother of Stephen Girard's father. When Stephen Girard died, in 1831, he left a fortune which has increased until it is now about \$20,000,000. He had no descendants and the collateral descendants could not be found, so he left his estate to charity. I am going to try to wreck Girard college and get my money."

A Campaign Against the Weak.

CHICAGO, Aug. 30.—Maude Maynard Noel, a young Chicago woman, herself beautiful and in perfect health, has begun a campaign which has for its aim the slaughter of all the weak, whether physically or mentally incapable. She would relentlessly kill them by a painless death if possible, and holds that the end would justify the means, for it would benefit the human race.

Thinks Andree Will Return.

NEW YORK, Aug. 30.—Evelin B. Baldwin, an Arctic explorer of some note, when seen by a reporter in Brooklyn last night, declared his belief that Andree will come back safely from his journey in search of the north pole. Mr. Baldwin has just returned from Europe, where he talked with leading scientists, all of whom shared his belief.
