EASTERN OFFICE—230 to 234 Temple Court, N. Y. City. E. KATZ, Agent. WEDNESDAY - SEPTEMBER 8, 1907

Under the title "Of Interest to Women" the Telegram yesterday printed quite a lengthy description of Mrs. John Sherman. It describes her as being wonderfully beautiful, a born aristocrat, a gentle "grande-dame." And then it indulges in a dissertation upon the aristocratic lineage of the Sherman family, and shows how this line of blue-blood crops out in Mrs. Sherman. The writer did not take into consideration the fact that Mrs. Sherman only belongs to the Sherman family by marriage. So, as far as the Sherman blue blue showing in her aristocratic bearing is concerned, she must have caught, since she did not inherit it. But more likely than all is the theory that the silly twaddler who wrote the trash never saw Mrs. Sherman.

Hon. T. T. Geer has not yet decided upon the matter of accepting the appointment of register of the land office at Oregon City. He feels that he has not been fairly treated, but says he will act upon the advice of friends who now have the matter under consideration. It should not take Mr. Geer long to decide. The office is worth \$3000 a year, and there are plenty who will if he won't. Of course Mr. Geer recognizes the fact that an acceptance of the office returns him from politics for four years; but at the same time there are lots of people who would like to be retired under the same circumstances.

La Grande is to have a beet sugar factory with a capacity of 500 tons of beets a day. A Portland company has been organized with a capital stock of \$500,000 to put up the plant, and La Grande gives a bonus of \$100,000 and sixty acres of land. The company contracts to take for five years the beets from 3000 acres. We congratulate La Grande on her success, the legitimate result of energetic work, and hence we do not say good fortune. She deserved success, and we hope that her beet sugar factory may be but the forerunner of many other manufacturing industries.

An old lady living in Paris owned a cat. Being about to die, by her will she left the cat to the district municipality, with the sum of 10,000 francs to pay for its care, and a provision that upon its death the 10,000 francs should become the property of the district. And yet that cat lived five years after the death of its mistress, dying a short time ago at the age of 16 years. In an American city it would have died inside of a week.

Something new in the line of strikes occurred at Danville, Illinois, not long ago. The city contained forty-two licensed saloons. These petitioned the city council to reduce the license from \$800 to \$600 a year. The council refused and next day the saloon keepers struck and not a saloon opened its doors. The result of this strike is awaited by many Danvillites, but not with "baited breath."

Reports from Ireland are to the effect that crop conditions are worse than since the famine year of 1847. The potato crop is almost a total failure, and it is said that unless assistance is furnished this winter, much suffering will ensue. It remains to be seen if England will be as cold-blooded towards her Irish subjects as she has been towards those in India.

Yellow fever has broken out in the South, two cases being reported at Ocean Wave and one at New Orleans. Fortunately science has found

the cause of this disease, and is able to battle with it successfully. Twenty years ago this news would have caused the gravest alarm. Now civilization meets that scourge and conquers it.

At Pomona, California, last week a mosquito stung David Pierce back of his left ear. He paid no attention to it at the time, but the next day the tiny wound became painful, and in two days Pierce's head was swollen nearly to bursting, and for two days he was unconscious and expected to die. The mosquito was evidently one from the Klondike.

The United States may not have a very large navy, but its warships are numerous enough that one runs aground, is blown ashore or smashes some other vessel every day. The Castine was the latest to distinguish herself in this way, running aground in the bay of Montevideo.

Professor Andree has not been heard from since he started for the pole. This fact indicates that he must be visiting Grover Cleveland.

Federal offices in Oregon are like the Klondike gold fields. The ignorant are just as apt to strike it as the intelligent.

Indigestion is often taken for consumption. The word consumption means wasting away, and dyspeptics often waste away as badly as consumptives.

The reason people waste away is because either they don't get enough to eat, or they don't digest what they do eat.

If the latter is your trouble, take Shaker Digestive Cordial. This will help you to digest your food and stop your loss of flesh.

Shaker Digestive Cordial is made from herbs, barks and the juices of fruit, by the well-known Shakers at Mount Lebanon. It possesses great tonic and digestive powers.

Shaker Digestive Cordial has cured many supposed consumptives (who were really dyspeptics), by simply helping their stomachs to digest their food, thus giving them nourishment and new strength.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Co., St. Louis, Mo. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no other medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by Blakeley & Houghton.
