THE STORM BREAKS

Long Threatened Rebellion
Breaks in Guatemala.

ATTEMPT ON THE LIFE OF DIAZ

England Wants to Aid Silver by Having
Other Countries go to a
Silver Basis.

NEW YORK, Sept. 16.—A special to the Herald from Panama, Columbia, says:

Guatemala now faces an uprising for more serious than the one of a few months ago, telegraphs the Herald correspondent in the city of Guatemala. The present rebellion is led by men of great wealth and influence, and is slightly gaining in strength each day.

Advices just received from Guatemala are to the effect that 3000 rebels attacked the city of Quezaltenango on the morning of September 13. The garrison there consisted of less than 1000 soldiers, but they fought valiantly. The attack continued far into the night, when the rebels, despite their superior numbers, were repulsed. They vigorously renewed the attack at half past 9 o'clock on the morning of the 14th, and the advices state that the latest report is that the fighting still continues.

The garrison still holds the city against the rebels, but the fall of the city is inevitable, unless the reinforcements now hurrying forward arrive within a few hours.

The present revolution is headed by General Pospero Morales, who, until a few months ago was a minister of war in the cabinet, General Fues Barrios, a brother-in-law of President Barrios, and Feliciano Gutiera.

These three men are candidates for president to succeed Barrios for the constitutional time from 1898 to 1901. Their antagonism of the president dates from the time he declared himself dictator of Guatemala and announced his intention of having a law passed in defiance of the constitution, permitting a president's election for a second term. This meant another term for Barrios, and met with solid opposition from the upper classes of Guatemala.

In view of this growing discontent, the three presidential candidates decided to meet Barrios with bullets instead of ballots. The first movement in the plot was to get possession of the barracks at San Marcos, where a large quantity of arms and ammunition was stored. This was done by bribery, nearly all the soldiers at San Marcos at that time joining the rebel movement.

The rebel force is now 5000, and is growing. This is made possible by the wealth and standing of General Morales and his chiefs and the great discontent in the financial circles of the country, growing out of the business depression there.

CONDITIONS MADE KNOWN.

How England Proposes to Do Something for Silver.

LONDON, Sept. 16.—At the semi-annual meeting of the Bank of England today the governor said:

"You are probably aware of the proposals laid before the government in the summer by the United States and France whereby this country should increase its use of silver as a contribution to the international agreement, which, while not affecting our gold standard, might enable the mints of France and America to resume free coinage. Among the proposals was one asking that the Bank of England hold the silver permissible under the act of 1844 as against its notes."

The governor then read a letter dated July 29, addressed to the chancellor of

exchequer, Sir Michael Hicks-Beach. It was as follows:

"Referring to our conversation we beg to say the bank is prepared to carry out what is laid down as permissible in the bank charter, viz.: to hold one-fifth of its note issue in silver, provided always that the French mint is again open to the free coinage of silver and that the price of which silver is procurable and salable are satisfactory."

Replying to questions, the governor said the bank had had no negotiations with the United States monetary commission, adding:

"We have bought no silver. All we have done is to agree under certain circumstances to carry out what is permissible under the act of 1844."

ATTEMPT ON THE LIFE OF DIAZ

An Italian Tries to Stab the Mexican President.

ST. LOUIS, Sept. 16.—A special to the Post-Dispatch from the City of Mexico says:

An attempt was made this morning to assassinate President Diaz by a supposed Italian named Arrayo. There was a general review of troops in the city today. Just before the review President Diaz, in company with the minister of war, was passing through a public park, when suddenly a foreigner sprang from behind a bush with a poniard and made a lunge at the president. The minister of war instantly seized the assailant, threw him to the ground and held him. The police came to the scene and placed the would-be assassin under arrest.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at Blakeley & Houghton's Drug Store. (2)

AS IT LOOKS IN GERMANY.

Europe Not Disposed to Aid American Silver-Mine Owners.

BERLIN, Sept. 16.—The National Zeitung, referring to the information in the Times of September 10, that the Bank of England was prepared to hold against its notes, says:

"The unfavorable reception the announcement has met with from the organs of British trade leaves no room for doubt as to the opinion of British commercial bodies, and as to the ultimate fate of the latest American attempt to secure for the silver-mine owners with the aid of Europe, a rise in silver as a reward for their support of the McKinley tariff policy and to keep the silverites in a good humor."

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Co., St. Louis, Mo. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no other medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by Blakeley & Houghton.

TWENTY VICTIMS OF TYPHOID.

This Number Have Already Died at Dawson.

SAN FRANCISCO, Sept. 16.—John Sidney Webb, attorney at Washington, D. C., for the Alaska Commercial Company has made a visit to Dawson and Klondike mining districts for the sole purpose of informing himself of the condition of living there and in Alaska generally, in order that he may speak and act understandingly when matters affecting Alaska arrangements, schools, etc., are on the tapis.

"I have been all around the coast route, as it is called, and up to Dawson," he said. "Dawson is low and flat, and even in the height of summer the ground is frozen half a foot below the surface and ice is encountered beneath the muck. The development of the creeks was followed by washing down into the river Klondike and thence into the Yukon above Dawson, of large quantities of filth and refuse by the very doors of the inhabitants of Dawson, and it is no wonder there should be sickness and death. In the little cemetery there, there lay no less than twenty victims of typhoid fever, and now the number no doubt has been increased considerably. The drinking water at Dawson is very bad, and this adds to the sickness."

YELLOW JACK SLOWLY SPREADS

Nineteen Cases Have Now Been Reported at New Orleans.

NEW ORLEANS, Sept. 16.—At 11 o'clock today the board of health officially declared the suspicious case of fever on St. Andrew's street to be yellow fever. This makes a total of 19 cases to date.

A telegram from Biloxi says an Italian has died in the heart of that city, apparently from yellow fever.

Taxpayers' Attention.

This is my last and final call to you, as the county court has issued an imperative order.

By virtue of a warrant to me directed, issued by the clerk of the county court of the state of Oregon for the county of Wasco, commanding me to collect the delinquent county, state and other taxes, I will, on the 1st day of October, 1897, without further notice, levy upon and sell all property upon which taxes remain unpaid.

T. J. DRIVER,
Sheriff.

Argentine Wheat Little Damaged.

NEW YORK, Sept. 16.—A dispatch to the Herald from Buenos Ayres says:

Despite the invasion of locusts, which have come to Argentina by the million, reports received as to the wheat crop are of a most encouraging character. In the provinces of Santa Cordova and Buenos Ayres every indication is now that the wheat crop, with good luck, will be so great that they will be able to export about 2,000,000 tons. With a fair degree of success there will be at least 1,500,000 tons for export. The prospect for a big crop is splendid.

There was sown this year a greater quantity of wheat than last year. The planters have to contend with the locusts to some extent in every province, but corn has suffered more than wheat.

To Work the Reserve Claims.

OTTAWA, Sept. 16.—A proposition has been laid before the minister of the interior by an influential delegation to send a body of volunteers into the Yukon, some 100 in all, nominally to preserve law and order, and to develop the alternate claims left in the hands of the government, giving a certain percentage to the government and retaining the balance to the company, which is to be called the Yukon-Klondike Co-Operative Mining & Trading Company of Toronto. Some leading politicians of the country are said to be interested in the project.

Precautions at St. Louis.

ST. LOUIS, Sept. 16.—The health department has already taken what precautions it can against the invasion of the city by yellow fever. Measures are being taken to prevent from remaining in the city visitors who have or may have come in contact with the disease. The co-operation of the Southern railroads has been secured and the officials are aiding the best they can the department in its endeavor to keep St. Louis free from the pestilence.
