TRAILS ARE CLOSING UP

Winter Has Set In on Chil-koot and White Passes.

FEW ON THE TRAILS WILL GET OVER

Dog Trains Only Practicable Means of Packing Supplies—Horses at a Discount.

VICTORIA, B. C., Sept. 22.—The steamer Queen, which arrived this morning, brought back eighty miners, who decided to wait until spring before proceeding to the Klondike. Winter has set in in earnest at White and Chilkoote passes, there being four feet of snow on the summits, and ice is forming in the small streams.

Those who get over now have to go by dog train, as horses are no longer any use, and animals for which men refused \$300 and \$400 a few weeks ago can be bought for \$5. A large number of men are going to Juneau to winter, but many will come south and make fresh starts in the spring.

A REINDEER EXPRESS.

Government May Establish One to the Klondike.

WASHINGTON, Sept. 22.—Secretary Bliss, of the department of the interior, has induced the commissioner of education to have the reindeer now at Teller station, Alaska, which have been broken to work, forwarded to St. Michaels, to be held there for use in forwarding supplies to the Klondike country in case of emergency. There are about eight of the deer, which it is believed by the administration can be utilized in this way, and the opinion prevails that they would be much more useful than dogs, because they can travel more rapidly, draw more, and can live on the little forage the country produces.

The secretary says that each reindeer will carry about 300 pounds, and will travel a hundred miles a day. They are to be sent to St. Michaels in preference to other places, because of the available stores at that point.

FOR USE IN THE KLONDIKE.

Colorado Man Invents a Device to Thaw Frozen Ground.

DENVER, Sept. 22.—A device to thaw the frozen ground of the Klondike has been invented by N. Parker Doe, of Cripple Creek. A formal trial of the machine was made yesterday and was found to work like a charm, although there was no frozen ground to try it on. Six hundred machines will be ordered at once and transported to the Klondike in the spring.

A miner recently returned from Klondike has examined the machine and says it is just what the miner in Alaska needs. The scheme is to generate gas in a tank, the gas passing to a blowpipe, where, becoming ignited, it is forced out in a flame. It can be directed in any position and cannot be blown out by the wind.

WAK CLOUD IS LOWERING.

The Country on the Verge of Conflict With Spain.

NEW YORK, Sept. 22.—"This country is on the verge of a war with Spain." These are the words of Assistant Secretary of the Navy Roosevelt. He used them at a conference of some of the naval militia, whom he had summoned to Washington to learn of the state of their commands and the number of men that can be depended upon to complete the complement of the warships and the auxiliary navy. Assistant Secretary Roosevelt urged the gentlemen who had

"Garland's Happy Thought Salve cured me in sixty days of Salt Rheum that I had for ten years. It's worth \$10 a jar to a man who has suffered as I have."

been called into the conference not to underestimate the gravity of the situation.

The navy department is preparing to use every available man of the naval militia. Commanders of the reserve who have been called to Washington during the last few days have had the importance of getting their divisions in such shape that a sudden call will find them in readiness, impressed upon them.

It is believed that at a conference at the navy department within the last few days the question was put as to how many men the commanders of the New York and Brooklyn battalion would undertake to report as available for three months' war service. Commander Slayton, of the Brooklyn battalion, is reported to have answered that he would guarantee 275 men out of his battalion. W. Butler Duncan, of the New York battalion, estimates his number at 325.

The largest battalion in the country is at San Francisco. Organizations on the Pacific exist at San Diego, Los Angeles, San Francisco, Portland and Olympia.

The navy department's estimate is that 30,000 men will be needed for the twenty-five merchant cruisers. Of this number 3000 will come from the regular warships.

The significance of Roosevelt's remark, joined with the assemblage of militia commanders at Washington and the bunching of warships and maneuvers of the torpedo flotilla is very great.

ALL ARE FOR ANNEXATION.

Hawaiian Senate Unanimously Ratified the Treaty.

SAN FRANCISCO, Sept. 22.—The steamer City of Peking, which arrived in port last evening and was at once placed in quarantine, brought advices from the Hawaiian islands up to and including the 14th inst.

The senate convened September 8th, but owing to the death of ex-Senator G. Rhodes, president of the legislature, an adjournment was taken to the following day. The session lasted less than two hours, but in that time the annexation treaty was presented and ratified without a dissenting vote.

Commenting upon the unprecedented action of the upper chamber, the Luso, the newspaper organ of the Portuguese residents, of September 13th, said:

"The senate of the republic of Hawaii has unanimously ratified the convention which concedes Hawaii to the United States, not only with all mercantile property of doubtful title, but also tying up privileges which about 5000 voters of the Portuguese colony enjoy and have enjoyed, and which can only be recovered if the congress of the United States from a sense of justice and equity shall concede to us the privileges to which we have a right. The session was closed on the 10th, and will be convened again next March in regular session."

Despite the action of the senate, the opponents of annexation are continuing the fight, and the leaders of the movement express the utmost confidence in their ability to defeat annexation. Before the Peking left a call had been issued for an immediate mass meeting to be held on the 18th, and the indications were that it would be one of the largest ever held in the islands. Some annexationists hope to be able to have Senator Morgan address the meeting, with the object of changing the sentiment of the natives, but there was little likelihood of the plan meeting with success.
