## DEATH IN DYEA PASS

Eighteen Packers Buried Under a Monster Avalanche.

ENTIRE TOWN OF SHEEP CAMP GONE

Heavy Rains Caused the Slide—Skaguay Bridges Gone—Snow in Chilkoot Pass—Many Goldseekers Return.

PORT TOWNSEND, Sept. 24.—The steamer Pioneer, which left the Sound September 12th with the bark Shirley in tow for Skaguay, returned at 1 o'clock this morning, having made the run down in ninety-six hours.

The Pioneer brings down a story of a snow or landslide between Sheep Camp and Chilkoot pass last Sunday morning, in which eighteen men are supposed to have lost their lives; only one body had been found, that of a man named Choyneki, cousin to Joe Choyneki, the prizefighter. The fifteen or eighteen men supposed to be lost were packers on the Dyea trail, and they had upwards of \$30,000 in their possession.

There are many here who do not believe the story, as it is very early in the season for snow slides. Officers of the Pioneer say the story was brought to Skaguay Sunday evening by three men who told it in such a thrilling manner as to leave no doubt of its truthfulness. They described the avalanche as consisting of rocks, ice and dirt, the mass having been loosened by the recent unprecedented hard rain which has been falling continually for the past month.

All the bridges on the Skaguay river have been washed out, and the river is a raging torrent.

W. W. Sprague, of Tacoma, who started eight weeks ago with a three-years' outfit, returned from Skaguay on the Pioneer.

The steamer Al-Ki, a week overdue from Alaska, arrived this morning at 4 o'clock. She carried a large list of men returning from Skaguay, who were unable to cross the pass. The snow is six inches deep at Lake Bennett, and three inches fell on the summit of Chilkoot pass last Saturday.

### THE STORY CORROBORATED.

Captain Neilson Says a Slide Occurred at Sheep Camp.

PORT TOWNSEND, Wash., Sept. 24.—Captain Neilson, master of the tug Pioneer, which arrived this morning from Skaguay, corroborates the story of the snowslide, or more appropriately, landslide, in the neighborhood of Sheep Camp. Captain Neilson says:

"Three men came to Skaguay beach Sunday night with a story that at Sheep Camp that morning at 3:30 o'clock a peculiar sound from the southwest side of the mountain was heard, and before the residents of the camp could fully dress they found themselves being rapidly borne down the canyon on a mass of moving debris from the mountain side. The majority of the residents of Sheep Camp escaped, although the entire town was almost wholly destroyed.

"The slide struck the town in the northern part, where nearly all the packers were quartered in tents and sleeping the sleep of hard, overworked men. The main part of the slide from the mountain missed Sheep Camp proper, although from the report very little of the town remains. Packers' camp was wholly carried away, and it is impossible to learn the full names of the unfortunate, as they were all known by surnames, such as Jack, Jim, Dick, etc.

"The cause of the slide was reported to be the action of heavy rains on the

hills where a sort of reservoir was formed, which body of water forced the land down into the basin below. Never before have such heavy rains been experienced by the Indians in the neighborhood of Chilkoot pass."

W. W. Sprague, of Tacoma, returning from Skaguay pass, verifies the above report.

Sick stomach means sick man (or woman).

Why not be well?

Sick stomach comes from poor food, poor nourishment; means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We don't feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and soon makes you feel well and strong again.

The more you take, the less you feel of your stomach.

All druggists. Trial bottle 10 cents.

Lonise Back From Wrangel.

VICTORIA, B. C., Sept. 24.—The steamer Princess Louise has returned from Wrangel. The Dominion government's survey party started from Glenora to survey the route to Teslin lake and other surveyors have started up the river. Both parties will be able to complete their work before the bad weather starts. Fifty men are at Wrangel waiting for a chance to take them on the first part of their journey to the mines.

It Saves the Croupy Children.

SEAVIEW, Va.—We have a splendid sale on Chamberlain's Cough Remedy, and our customers coming from and near, speak of it in the highest terms. ### FIREMEN TO THE RESCUE.

Attempt to Burn a New Orleans School Frustrated.

NEW ORLEANS, Sept. 24.—Efficient work by the fire department in the face of the attack of a mob, enabled the department to save the main portion of the Beaugard school building, which was fired last night by rioters who objected to having the structure converted into a yellow fever hospital. Only the annex and one end of the structure were reduced to ashes.

After the mass meeting of citizens held last night a riotous crowd gathered around the building and openly threatened at the first opportunity that they would fire it.

Throughout yesterday evening Sister Agnes and a number of other Sisters of Charity, together with help from the hospital, had been putting the building in order for the reception of yellow fever patients.

At nightfall Surgeon Bloom, of the hospital, the sisters and others had been warned that they had better leave the building. They did so, and made their way through a dense crowd of panic-stricken citizens. Then a small force of police was ordered to the scene. While the police were engaged in attempting to quell the riotous crowd in front of the building, two incendiaries with a five-gallon can of oil proceeded to the rear of the building and quickly had it in flames.

An alarm was turned in, but the first neighboring engine had scarcely arrived when the hose was cut. When other engines arrived their hose was also destroyed by the mob. Chief Gaster finally arrived with a squad of officers, which beat the mob back.

### DANGER IN GETTING SHAVED.

Barbers Ought to Wash Their Hands and Their Implements.

The proposition to make a more careful man of the tonsorial artist, in so far as relates to the transmission of disease from his infected to his well clients, is not a new one. The subject has been written upon by several earnest men before Heinrich Berger, whose "Hygiene in den Barbierstuben" recently appeared in Leipzig. No writer has, however, seemed to go so deeply into the question and lay down such strict rules for the knight of the shaving knife. We are told that he must be a person free from epilepsy and all manner of seizures, drunkenness and infectious diseases.

Being free from these affections himself, he may give professional attention to all persons, including those under the influence, or those likely to have a fit in the chair, provided they are free from skin, hair and sexual diseases of an infectious nature. Otherwise they are to be treated at home with their own implements. The author gives a number of other rules which are in themselves and so far as they go good—if barbers could be prevailed upon to follow them—but he does not sufficiently insist upon the necessity of boiling to the point of sterilization his instruments, towels, sponges and especially his own hands.

There are many things besides the so-called barber's itch which may be transmitted in uncleanly shaving and hairdressing, and of which the public knows little or nothing. Favus is decidedly on the increase in this country, and the number of children turned away from the cities' schools for this cause since the inspection innovation went into effect would greatly surprise those who think of favus as a European or foreign affection.

Attention has recently been called by a member of the New York Dermatological society to the danger of the epilating tweezers used in barber shops. Ingrowing hairs and those attended by suppurative inflammation, as in syecis, are extracted, and the next comer is operated upon without adequate and usually without any cleansing at all of the instrument. Certain rules should be adopted, if possible, by barbers in general to protect their patrons from dangers which are more real than imaginary. Above all, they should remember that scrupulous cleanliness of implements and hands is the first requisite, and the advice now being given to surgeons to "boil their hands" applies almost equally to them. At the least they could give a little wash between each "next" for the mere sake of appearance and in the interest of business, if for nothing else.—Medical Record.
