## HAWAII WILL BE OURS

Annexation Is Already Practically Accomplished.

SO DECLARES SENATOR LODGE

Ratification of the Treaty by the Senate at the Next Session of Congress Assured.

NEW YORK, Oct. 5.—A dispatch to the Herald from Boston says:

"I look upon the annexation of the Hawaiian islands as practically accomplished," said Senator Lodge. "The treaty will be taken up at once when congress assembles in December, and I think that there is an easy majority in the senate in favor of ratification. If it should appear probable that opposition is developing sufficient to defeat ratification, the remedy will be very simple. There is a joint resolution of annexation of the islands on the calendar which does not require a two-thirds majority, as is the case on the vote of a ratification of a treaty. A single majority in both houses will accomplish the same result, and that majority we have easily. If it appears that the ratification may fall we shall simply slip in the resolution and act on that in place of the treaty."

"What are your views as to a form of government for the islands after annexation?"

"It is settled that we do not care to admit Hawaii as a state into the Union. Some form of territorial government must be adopted, but just what it shall be is not fully determined. I am inclined to think we should give Hawaii a form of government rather broader than the ordinary territorial government. For example, I should give the islanders power to continue their legislative body in two branches, whereas I believe a territory has a single house. A legislature in two houses will give them a government similar to our states, but they will not have the power to elect senators in congress. The system of federal courts must, of course, be extended to the islands with district and circuit judges. The local courts may be retained as the people themselves desire."

"You would have the governor appointed by the president?"

"Certainly; as the governors of territories are appointed. I should prefer, if I were to express a preference, that the governor be appointed from the islands. The question of suffrage should be left to the government of the islands to adjust as seems to it best, within the limits of the constitution of the United States beyond which no state or territory can go. Before Christmas I certainly expect that Hawaii will be American territory."

### SUNK OFF THE RIVER.

Collision Occurred Fifteen Miles Off the Columbia in Clear Weather.

ASTORIA, Oct. 4.—Shortly after 4 o'clock this afternoon, just as she was completing one of the fastest trans-Pacific sailing trips on record, the big four-masted German ship Peru crashed into the little coasting schooner Orion, cutting her in two, and sending her to the bottom immediately.

When the little vessel was struck by the big steel ship, the captain was thrown across the deck, badly bruised, and every one of his four men were knocked about and more or less seriously injured. They succeeded in grasping ropes of the German bark and climbed aboard, and thus made their escape. Captain Nelson was loath to say who he

## Cured by "Happy Thought" Salve.

"I was troubled with an Eczema or eruption on the hands for two years. I spent quite a sum of money without getting a cure. Then I commenced using Garland's Happy Thought Salve. I have used six or eight jars, and am cured. It is a great medicine, and I can fully recommend it to anyone troubled with skin disease." J. M. E. ATKINSON, City Treasurer, Seattle, Wn.

thought was to blame for the collision. He avers that his schooner was on her course for Shoalwater bay. The weather was perfectly clear and the sea smooth. The accident occurred north of the lights, some twelve or fifteen miles off the mouth of the river.

The Orion was en route from San Francisco for Willapa harbor in ballast, and at the time of the accident was on the starboard tack, steering by the wind. While the reticence of the men in charge of the vessels makes it difficult to get at the exact cause of the disaster, it is apparent from what little information they volunteer that there was a miscalculation as to the speed of the vessels, which prevented their having sea room until it was too late to avoid a collision. The Peru being a heavy steel ship could not be much damaged by the encounter with the smaller wooden vessel, but she came out of the collision with her jibboom and bowsprit cap missing. The Peru was on her way to Portland, having left Hakodate, Japan, twenty-four days ago. She is under charter to load wheat for G. W. McNear & Co.

### A HOT WAVE IN ILLINOIS.

October Records of Many Years Past Go to Smash.

CHICAGO, Oct. 5.—Extremely hot weather for October is prevailing in this

section. During the past twenty-four hours the thermometer went up to eighty-six degrees, and according to the signal service records this is the highest point that has been registered for the month of October in twenty-seven years. Dense smoke aggravated the conditions. On account of the drouth the last two months everything is as dry as tinder and forest and prairie fires are numerous.

Lake Michigan has been made almost unnavigable on account of the smoke and fog. Captains of vessels have reported a most alarming state of affairs. Many have not slept for forty-eight hours on account of the watchfulness that was necessary. Boats picking their way through the Straits of Mackinaw were practically hampered. Landmarks were utterly obliterated, and the light indistinct at a distance of a length of the vessel.

Marine underwriters are apprehensive of numerous standings on account of the smoke, and bulletins from the lower end of the lake are watched with anxiety.

Chicago's southern wards and suburbs are surrounded by prairie fires, and dense smoke overhangs a large part of the territory lying south of Seventy-fifth street. Hundreds of acres of prairie have been burned over, and thousands of feet of sidewalks and fencing have been consumed.

With fire on every side great anxiety is being felt for the safety of towns without fire protection. Nothing short of a drenching rain can possibly check the progress of the fire.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland.
