MINTS NOT TO REOPEN

England's Coming Reply to the Silver Envoys.

THE END IS ALREADY IN SIGHT

London Financiers Say That No Concessions Will Be Made—The Sealing Controversy.

New York, Oct. 8.—A dispatch from London to the Tribune says:

The British government's answer to the proposal of the United States and France for bimetalism by international agreement will probably be ready within a fortnight. Possibly it will be delivered earlier, as there is evidence that the ministry is disturbed by the prolongation of the controversy over the monetary question in the press and wishes to put an end to it.

Two months ago they were strongly disposed to make such concessions to the United States and France as would have enabled these powers to convolve a monetary conference. Sir Michael Hicks-Beach obtained from the governor of the Bank of England a qualified assent to the conversion into silver of one-fifth of the reserve for the redemption of note issues.

The Indian government was also consulted respecting the expediency of opening the mints to the free coinage of silver. If the answer to that proposition had been as favorable as the reply of the governor of the Bank of England on the minor point of a large use of silver in the reserve, Senator Wolcott's mission would have been completely successful in opening the way for a new session of the conference. That answer has not yet been officially revealed, but it has been received in London, and is believed in diplomatic circles to be unfavorable to the reopening of the Indian mints.

Not one word of this has yet appeared in print, and no official confirmation of it can be obtained, but it is currently reported among the best informed financiers that the Indian government has advised against reopening the mints. If this be true, and there are strong reasons for believing that it is, the ministers will not have the courage to act against the advice of the Indian, but will summon the French and American ambassadors and bimetallic envoys without delay and return a courteous but firm answer to the proposal for an international agreement for the maintenance of the par value of gold and silver.

Canada and Great Britain have refused definitely to take part in a sealing conference, if representatives of Russia and Japan are allowed to participate in it. This matter was settled yesterday and cannot be reopened. When the diplomatic correspondence is published it will be evident that the state department has done everything in its power to enable Canada and Great Britain to attend the conference which was declared to be purely consultative and which would have had no binding force on any maritime power taking part in it. Canada has interposed her veto, and Great Britain on this subject has no will of her own and has sanctioned it.

Lord Salisbury having revised the original invitation of last July at the instance of Canada, now following the lead of Ottawa in declining to meet Russia, Japan and the United States in a friendly conference for determining whether anything can be done for the protection of the fur seals.

No reasonable objection could be offered to the presence of the Russian and

"I was troubled with an Eczema or eruption on the hands for two years. I spent quite a sum of money without getting a cure. Then I commenced using Garland's Happy Thought Salve. I have used six or eight jars, and am cured. It is a great medicine, and I can fully recommend it to anyone troubled with skin disease." J. M. E. ATKINSON, City Treasurer, Seattle, Wn.

Japanese representatives, but Canada has adopted a deferential tariff in favor of the British traders, and her caprices suffice to control the diplomacy of the foreign office on American question.

The American ambassador is still sent to London in deference to the old time usage. He might more properly be accredited to Ottawa, where the English diplomatic policy on American questions really has its origin.

Doubtless the American state department can have no option except to persevere in a conference to which Russia and Japan are invited. It can subsequently hold if it likes, a second or supplementary conference with Great Britain and Canada, and open the way for a revision of the existing regulations next year. The holding of a second conference is a question which will depend upon the scientific information produced before the first conference.

If it be true, as the best experts in the fur trade in London admit, that 89 per cent of the valves now coming into this market show gun shot holes and that the bulk of them are the furs of female seals, the speedy extinction of the herd cannot long be deferred. If it be true that there are now only 100,000 seals breeding on the sea islands or other grounds where there were once several millions of them, the herd has already lost its commercial value, and nothing short of absolute prohibition of pelagic fishing for a decade or longer will restore it. A second conference certainly will be superfluous if Canada be unwilling to allow the suspension of pelagic sealing.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. "I have never had a day's sickness in my life," said a middle-aged man the other day. "What a comfort it would be," sighs some poor invalid, "to be in his place for a year or two." Yet half of the invalids we see might be just as healthy as he, if they would only take poorer care of themselves, eat proper food—and digest it.

It's so strange that such simple things are overlooked by those who want health. Food makes health. It makes strength—and strength wards off sickness. The man who had never been sick was strong because he always digested his food, and you could become the same by helping your stomach to

RECENT EVENTS AT HONOLULU.

Steamship China Has Secured Hawaii Registry—Murder on Island of Kiua—Brother of Atty. Gen. Smith the Victim.

SAN FRANCISCO, Oct. 8.—The Steamship China arrived this morning from Hong Kong via Honolulu, with the following Hawaiian advices:

Honolulu, Oct. 3.—The supreme court has affirmed the decision of the lower court in the case of the steamship China, and yesterday G. W. MacFarlane secured Hawaiian register for the vessel. Now that the China case has been disposed of, the Pacific Mail Company will send over the Baracouta, now plying between Central American ports, and will make application for Hawaiian register for her. The Baracouta is now under a conditional register exactly the same as the China had, having been issued at London on the same date and exactly the same circumstances. There is no doubt that the Baracouta will get her register. Charlane, who is her flag-owner says she will come here next month.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. A Fine School.

St. Mary's academy for ladies, located in this city and under the direction of the Sisters, is one of the best educational institutions on the coast. The building is of brick, large and well ventilated. Besides the regular studies, special effort is made to instill into the minds of the pupils a desire to form their hearts to virtue, and to fit them to be true and noble women. Gratuitous lessons are given in all kinds of plain and fancy needle work, knitting, embroidery, etc. Pupils will receive the same watchful care that would be given them by conscientious parents. It is in fact an ideal school and a pleasant home. Those who have girls to send to school should write to St. Mary's academy for terms. If.

The True Remedy.

W. M. Repine, editor Tieskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Blakeley & Houghton's Drug Store. (4)
