## SUBSTITUTION MADE

Appointment of Blanco as Governor Confirmed.

WEYLERS LETTER TO SAGSSTA

Provincial Government of Cuba Resign Attempt May Be Made to Buy off The Insurgent Leaders.

MADRID, Oct. 9.—The cabinet today held a four-hours session, during which the decision previously arrived at regarding the recall from Cuba of General Weyler was confirmed.

El Heraldo makes an announcement that the captain-general of Porto Rico will be appointed acting governor of Cuba, pending the arrival of Marshal Blanco.

In reply to an inquiry by Premier Sagasta, Captain-General Weyler has cabled the following statement to the government:

"The principles which constitute my character, as well as my well-known military history, are a strong guaranty that I have never created, nor will I ever create, any difficulties for the constituted government, be that whatever it may. I have always been and in every case shall be, the first man to accept, respect, obey and enforce the government's orders. I would not allow any demonstration to go beyond the expression of personal affection and approval of my policy. Weyler."

In reply to a number of Cuban senators who had offered their support to the government, Premier Sagasta said that the government would devote itself first to the pacification of Cuba and would then introduce in the island a model administration. The government, the premier added, considered that the pacification of Cuba would facilitate the restoration of peace in the Philippines, where the situation is now serious.

The Imparcial says the Spanish government will take rapid measures on account of the spread of the rebellion in the Philippines. It is said that General Riveria, former captain-general of Madrid, who succeeded General Porevija, as governor of the Philippines, has resigned.

Advices just received from Manila say that earthquake shocks were felt at Mindano during the last days of September. Great damage was done to property, and there was considerable loss of life.

### CAUGHT ON THE TRAILS.

Winter Overtakes Prospectors at the Lakes.

SEATTLE, Oct. 9.—The special correspondent of the Post-Intelligencer, at Skagway, writes under date of September 20th, as follows:

"An Indian packer who has just arrived from Lake Lindmann reports that two feet of snow fell at lakes Lindmann and Bennett, and the distress and suffering there is intense. Most of the people at the lakes live in tents, and many of them have made no preparation for getting away this season. They have not built cabins for themselves, and the Indians say that with so much snow on the ground, which will in all probability remain, there will be intense suffering before the people are housed in shacks or cabins. The winter snows have begun to fall on the pass, and there are yet hundreds of men strung along the trail between Sheep Camp and the lake. As is well known, traveling over the pass in one of these snow storms, which

## Cured by "Happy Thought" Salve.

"I was troubled with an Eczema or eruption on the hands for two years. I spent quite a sum of money without getting a cure. Then I commenced using Garland's Happy Thought Salve. I have used six or eight jars, and am cured. It is a great medicine, and I can fully recommend it to anyone troubled with skin disease." J. M. E. ATKINSON, City Treasurer, Seattle, Wn.

frequently lasts one or two weeks, is impossible, and when the fact is considered it is easy to imagine the awful conditions that confront the gold-seekers. There are grave fetters that many will perish on the trail before they can reach Lake Lindmann.

"Late reports from the lake are that ice is rapidly forming, and all indications point to an unusually early and severe winter.

### LONG TRIP FOR GOLD.

Prospectors From Australia and New Zealand for the Klondike.

VICTORIA, B. C., Oct. 9.—The steamer Miowara arrived this morning from Australia and New Zealand. She brought 120 miners, bound for the Klondike.

All obstacles in the way of a direct steamer service between Victoria and Dawson have been removed, the Canadian Pacific Navigation Company having obtained permission from the United States, to build a steamer at St. Michaels of Canadian material. It has already been sent up, and when the boat is completed it will be placed on the Yukon river to connect with the steamer from Victoria. There will be no difficulty in the way of transferring freight from one steamer to the other, there being a United States officer at St. Michaels.

### FEVER REACHES GALVESTON.

Eight Cases Reported in That City Last Week.

GALVESTON, Oct. 9.—Dr. West, a member of the Galveston board of health, and nominal head of the board during the sickness of City Health Physician Fisher, tonight made the following announcement:

"Dr. Giteras has reported that there are eight cases of yellow fever in Galveston."

Dr. West says he has two well-defined cases of yellow fever under treatment. Despite the assurance of Dr. Giteras, a perfect hegira has set in, and every regular train leaving the city is packed with people fleeing from the disease, and special trains are in demand.

AUSTIN, Tex., Oct. 9.—Governor Culbertson tonight received a telegram from State Health Officer Swearingen, who is at Houston, stating that he has a telegram from Acting Mayor Skinner, of Galveston, stating that United States Expert Giteras has diagnosed a case of yellow fever there. Dr. Swearingen wired that he was going to Galveston at once.

A grocer writes us:

"My wife tells me that she has always had good fortune with Schilling's Best baking powder. She likes it better than either \_\_\_\_\_ or \_\_\_\_\_. Whenever I have myself pushed the article over the counter, it has met entirely the expectations of the consumer."

A. Schilling & Company San Francisco

"I have never had a day's sickness in life," said a middle-aged man the other day.

"What a comfort it would be," sighs some poor invalid, "to be in his place for a year or two." Yet half of the invalids we see might be just as healthy as he, if they would only take poorer care of themselves, eat proper food—and digest it.

It's so strange that such simple things are overlooked by those who want health. Food makes health.

It makes strength—and strength wards off sickness. The man who had never been sick was strong because he always digested his food, and you could become the same by helping your stomach to work as well as his. Shaker Digestive Cordial will help your stomach and will make you strong and healthy by making the food you eat make you fat.

Druggists sell it. Trial bottle 10 cents.

### Situation at New Orleans.

NEW ORLEANS, Oct. 9.—The fever situation is practically unchanged. New cases are more numerous, coming from all parts of the city, the foci being widely distributed.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by Blakeley & Houghton.

### THE DOOR SPRING.

Its Later Development and Its Widely Extended Use.

"In no one single thing," said the middle-aged man, according to the New York Sun, "has there been a greater advance since I was a boy than in the introduction of the door spring into comparatively common use. I suppose there must be now hundreds of patents on door springs. Some of the springs are well-nigh perfect. It is difficult to see in what respect they could be improved. But the main fact is the door spring itself and its common use in buildings of a more or less public character, and many others as well.

"We don't shut doors now nearly as much as we used to; we don't stop to shut them. We are spared that trouble and we save time. We open the door and push on through and leave the door take care of itself. In the time that it would have taken us to close it we are six, eight or ten feet off; but the door is not neglected; it shuts itself, calmly, quietly and with certainty, as the man marches away. There is less slamming of doors now than ever, and fewer doors are left open; and the saving of time effected by the use of the self-closing door is in the aggregate tremendous.

"Truly in no minor feature is the progress of civilization more apparent than in the present common use of the door spring."
