These Remnants are not damaged in any way and represent the best Goods in our stock.

ALL GOODS MARKED IN PLAIN FIGURES.

### PEASE MAYS

### The Dalles Daily Chronicle.

FRIDAY OCTOBER 15, 1897

#### WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

Cole's hot blast, air tight heaters, the best on earth, at Maier & Benton's.

For rent—A good barn on Tenth and Union streets. Apply at this office. 11-6

Found—Last night, near the Skibbe hotel, a pocket-book. Owner can have the same by describing it and paying for this notice.

U. P. Sam has struck town again and greatly relieves the monotony between races at the fair grounds by his witty rhymes.

Henry Eastman, engineer on the O. R. & N., was called to Oregon City last night on account of the illness of his 13-year-old son. We could not learn how serious the boy's illness was.

A more beautiful day could not be desired for a fair, and if a large crowd is not present at the grounds this afternoon we will be led to believe that the people of The Dalles are going wrong.

When the Dalles City left her dock for Portland this morning, she was loaded to the guards, and the managers fear that they will have to run Sunday in order to clear the freight which is accumulating.

The large sliding doors for the Club Room parlors arrived this morning and are very fine pieces of workmanship, and in this respect are in accordance with everything else about the new Club rooms.

Do not overlook the fact that Ward & Robertson have the fastest team, the safest and most comfortable wagon and the best and most accommodating driver of any conveyance running to the fair grounds.

George Young yesterday sold to J. B. Kerr of Kansas City, 5000 head of sheep, over 4000 head of which were Shropshire lambs of this year. The price received was \$2.20 per head, which is an unusually good price.

There was some mistake about the notice which was put in concerning the admission of school children to the pavilion. It should have read that they have to pay 10 cents admission to the pavilion, but go in free to the grounds.

It may be necessary to offer an apology to the patrons of THE CHRONICLE for the hasty form in which it appears today, as it was necessary to get it out by noon in order to allow the force to attend the races during the afternoon. Should it on this occasion not contain all the news, be kind enough not to blame the editor, but attribute any shortcomings to the limited time in which it was printed.

On the 11th of this month the federal supreme court took up the Durrant case. On its decision hang three other California appeals, and several Washington

cases will virtually be settled by it. The appeals have no inherent merit. The only real question to be decided is whether the states need delay the execution of the judgments of their courts pending such vexatious and purely dilatory appeals.

Ernest Knight, who has been mining near Baker City for several weeks, met with an accident yesterday that resulted in a broken leg. A large boulder, dislodged from near the mouth of the tunnel, rolled upon Mr. Knight and crushed his leg. Mr. Goodwell, brother-in-law of Mr. Knight, received a telegram apprising him of the accident, and he and Dr. Cropp met the injured man at the train yesterday morning. Mr. Knight's many friends sympathize with him in his hard luck.

#### Yesterday's Races.

Yesterday's first race which was not decided at the time of going to press, was won by Meteor. This was a pretty race from the turnout and all the horses traveled perfectly except Leland W, who is a young horse not fully trained, and very excitable, for which reason he gets off his feet very readily.

The second contest was a 1/2-mile running race for a purse of \$100. The entries were Black Alder, Sally Goodwin, Lou Kendall and Raindrop. The horses were all frisky at the post, but got off after fifteen minutes with Raindrop considerably in the rear. At the quarter pole they were lunched up and made a pretty race, coming in with Black Alder, first; Sally Goodwin, second; Raindrop, third. Time one minute flat.

The last race was between Gus L. Alliecia, Imported Indymion, and Latah. The distance was 3/4-mile for a purse of \$125. The start was even, but they had scarcely started when Latah and Alliecia took the lead. However on the home stretch the brown stallion took the lead and come in his own length ahead of Alliecia with Imported Indymion, third.

#### Program at the Pavilion.

Following will be the program at the pavilion tonight:

- PART I.
- March—"Heptaphore"
- Selection—"Tobacco"
- Waltz—"Rolling Waves"
- Illustrated song, "Take Back Your Gold," by Chas. H. Whiting
- Illustrated poem, "Jane Conquest," by Helen Lemar.

#### Regulator Line Notice.

The steamers of the Regulator line will leave The Dalles at 7 a. m., commencing Monday October 11th.

W. C. ALLAWAY, Gen. Agent.

Nitrogene cures all female troubles.

#### THE HUMAN FISH.

The Strange Amphibian From the Southern Coast Reaches Town.

The remarkable amphibian so fully described in recent press dispatches has reached town. Captain Robert Beasley, its custodian, is en route to the east with his strange charge, which is attracting the curious wherever exhibited. It strikingly resembles a female human form in the upper half of its anatomy. From the waist downward the extremity is that of an ordinary fish, showing the scales, dorsal and caudal fin. It was captured alive in the Gulf of California by Mexican fishermen and is now being exhibited at 112 Second street attracting crowds of visitors.

#### PERSONAL MENTION.

Henry Menefee, of Dufur, is at the Umatilla House.

Chas. Rilly, of Antelope, is at the Umatilla House.

Mrs. E. O. McCoy went up to Rufus on the Local last night.

Miss Myrtle Markhaw, of Dufur is in the city attending the fair.

Mr. Frank Fulton went up to Biggs last evening on the local.

Mrs. E. Haggart, wife of Grants post master, was in the city yesterday.

Mr. Richard Sigman, one of Dufur's most prosperous farmers, is in the city today.

John Endicott and wife, of Pendleton, are among the guests at the Umatilla House.

Mr. Chas. Tom, who has been attending the fair, returned to his home at Grants last night.

Mr. Edward Pentland, brother of Mrs. S. L. Brooks, is in the city visiting relations and friends.

Mrs. Geo. Brown returned from a trip to Portland yesterday where she had been visiting relations.

Mrs. T. T. Nicholas and son and little daughter returned from Portland last night, where they have been visiting for the past week.

Charles Nickell, editor of the Jacksonville Times, and Mr. Tony Noltner and daughter of the Portland Dispatch, went through to Baker City last night.

#### BORN.

In this city, Thursday, Oct. 14th, to the wife of George Ross, a daughter.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by Blakeley & Houghton.

Cole's Air Tight and Hot Blast

## HEATERS

ARE THE BEST

They heat a room in five minutes.

They save enough fuel the first year to pay for the stove.

4 cents a day is the average cost of heating a large room with our stoves.

They burn anything and everything combustible.

A cord of wood equals a ton of hard coal in any of our wood heaters.

It is only necessary to remove ashes once in six weeks from our wood stoves.

They are safe and have a catch to hold the cover while putting in fuel.

You have a fire every morning.

Our hot blast draft furnishes a hot air feed, not cold air, and saves fuel.

They are easily moved and set up. Our wood stoves are made with either sheet iron or cast iron tops in all sizes, for all purposes.

They are jointless the connections being so made that the greater expansion of the lining don't affect the body.

There are no bolts exposed to the fire to burn off or draw or open up a joint.

Our coal stove will burn slack and makes a ton of soft coal equal to a ton of hard coal.

BEWARE of infringers and inferior imitations, they never equal the original and cost as much.

MAIER & BENTON.

#### HIS SACRIFICE.

But Selfish Motives May Have Been at the Bottom.

"Darling," he said, looking down tenderly into the eyes of his bride, according to the New York World, "I have often heard you say that there is no true love without self-sacrifice. You have taught me this great truth, and now I am going to prove my love by giving up something that has been very dear to me for years. You know how fond I am of smoking. Well, dearest, I am going to abandon the practice, even though it be like tearing out my—my—"

At this point his emotion apparently overcame him, and he looked down at the sweet face, expecting to see there appreciation of his noble resolve, but he saw only a look of blank disappointment.

"What is the matter? Are you not glad that I am following your teaching?" he asked.

"It is not that," she answered, almost sobbing. "Never mind what it is," and she rushed from the room."

The self-sacrificing hero smiled. He needed no explanation. He had learned from his wife's nearest friend that she had set her heart on buying him a half dozen boxes of cigars covered with lovely silver paper wrappers, with pictures in the middle.

And this is what gave birth to his noble resolution.

#### But Little Blood Shed.

No more striking illustration of the relatively bloodless character of the recent Turko-Grecian war can be given than that afforded by the official returns recently issued, according to which the number of prisoners taken by the rival armies amounted to 200 men each, while in the Greek hospitals there has throughout the campaign not been a single Greek soldier treated for a saber, bayonet or lance wound, the only injuries being those inflicted by rifle bullets or by the explosion of shells. This is equivalent to a demonstration that there was no hand-to-hand fighting, and that the troops never really came to close quarters throughout the struggle.

#### Human Perspiration Poisonous.

Human perspiration, if injected into dogs or rabbits, acts like a deadly poison, according to Mr. Arloing's experiments. Perspiration secreted during hard muscular work has more toxic power than the ordinary kind, while that obtained from subjects whose secretion has been checked by cold is very poisonous.

#### Cash in Your Checks.

All county warrants registered prior to May 6, 1893, will be paid at my office. Interest ceases after Sept. 30, 1897.

C. L. PHILLIPS, County Treasurer.

#### For Sale.
