CAST LIGHT VOTE

Bad Weather in Ohio Keeps Many Voters at Home.

THE RESULT IS HARD TO FORETELL

Intense Interest in the Contest in Kentucky—The Election in Other States.

CLEVELAND, Nov. 2.—Indications throughout the western reserve are that if the proportion of losses continues throughout the state the vote will fall off by 200,000 over that of last year. The roads are in bad condition and the farmers are reluctant to come out and vote. This, added to the general apathy, will make the vote remarkably light. It is impossible to foretell the effect of this condition, but usually in Ohio a light vote is favorable to the democratic cause.

RAIN AT MANY POINTS.

Heavy Vote Being Cast All Over the State.

COLUMBUS, O., Nov. 2.—The polls opened with a heavy rain falling and the vote almost at the rate of one per minute. Dispatches from all over the state indicate that a heavy rain is falling and that a fairly large vote is being cast.

At Cincinnati.

CINCINNATI, O., Nov. 2.—At 12:30 this afternoon reports from all parts of the city show that an unexpectedly large vote is being polled. Close observers say the result will be decisive one way or the other.

IN OLD KENTUCKY.

The A. P. A. Is Strongly in Evidence in Louisville.

LOUISVILLE, Ky., Nov. 2.—From indications a big vote will be polled in the municipal race today, notwithstanding it is raining steadily. Feeling is at fever heat and never, perhaps, in the history of the city have the party lines been drawn so closely. The contest is made all the more bitter from the fact that the A. P. A. it is said, is solidly aligned for the republican ticket, and the Catholic vote is equally solid for the democracy.

Trouble Likely at Lexington.

LEXINGTON, Ky., Nov. 2.—The election in this city and county today is a most bitter contest. Every hardware store yesterday sold out its stock of firearms.

SILVER MEN STILL HOPE.

Bartine Says the Cause Is Not Waning in the West.

WASHINGTON, Nov. 2.—Great confidence prevails among the leading democrats and their silver allies here as to successes in the state and local elections. The importance of these elections to the cause of silver is everywhere conceded. Hon. Horace F. Bartine, of Nevada, secretary of the American Bimetallic Union and editor of the National Bimetalist, who has been actively engaged in correspondence with silver men in all the states, said today:

"There is certainly no waning of interest in the bimetallic cause west of the Missouri. In some of the mountain states so-called nonpartisan movements have been inaugurated, the precise significance of which I do not know. But they cannot possibly be productive of any good to the silver cause if they succeed.

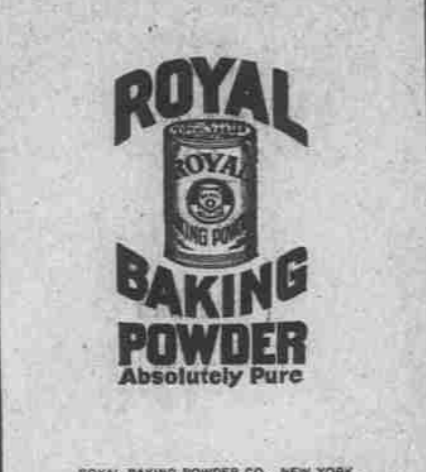

"The intermountain states have been regarded as the Gibraltar of bimetalism in the United States. The triumph of the ticket of any faction or party there not known to be emphatically and unequivocally for the true bimetallic

For Cuts, simply apply two or three times a day, using enough of the Salve to cover the wound well. No injury can come from the direct application of the Salve to the open wound, as there is not an ounce of poison in a thousand pounds of Garland's Happy Thought Salve.

"I cut my hand on a piece of tin. Garland's Happy Thought Salve cured it up in a short time. I think it is the best Salve I ever used."

doctrine will be hailed all over the United States, and in Europe as well, as a weakening of the silver cause. It would do infinitely more harm than a similar success in any other part of the country."

In Bryan's State.

OMAHA, Nov. 2.—Election day is bright and clear in Nebraska and the voting is going ahead steadily. It is not likely a large vote will be cast, as the registration was light. Telegrams up to noon indicate the entire absence of excitement and interest.

At 2 o'clock fully two-thirds of the vote has been cast. Chairman Dahlgren, of the democratic committee, claims the state by 5000 for the fusion ticket.

LIGHT VOTE IN VIRGINIA.

Sudden Death of a Republican Senatorial Candidate in Richmond.

RICHMOND, Va., Nov. 2.—The weather is cloudy all over the state, with rain on the coast. A dramatic incident of the campaign was the death this morning at Staunton of Colonel James Cockran, the republican senatorial candidate for the ninth district. He expired suddenly after a vigorous campaign. Returns from all parts of Virginia indicate that the vote is very light.

Heavy Vote in Maryland.

BALTIMORE, Md., Nov. 2.—The polls opened this morning during a perfect deluge of rain. At 8 o'clock the skies cleared up a bit, and the indications pointed to the polling of a very heavy vote; with the result in doubt.

SLOW VOTE IN MASSACHUSETTS.

General Opinion Is that Wolcott Will Be Re-elected.

BOSTON, Nov. 2.—Rain prevails all over Massachusetts today, and voting during the early hours is slow. The general opinion is that Governor Wolcott is sure of re-election.

First Massachusetts Returns.

BOSTON, Nov. 2.—Braintree was the first town to report its vote for governor today. The vote is: Wolcott, 311; Williams, 121; Everett, national democrat, 28.

Too Much Mud in Colorado.

DENVER, Nov. 2.—The weather is clear and cool, but the roads are so muddy on account of the heavy snow storm of a week ago, that not many voters will take the trouble to vote.

Fair Vote in Iowa.

DES MOINES, Ia., Nov. 2.—Indications at noon point to the polling of about 80 per cent of the vote in the state. The weather throughout the state is perfect.

In the Sunflower State.

KANSAS CITY, Nov. 2.—Bright, clear

weather prevailed throughout Kansas today. The registration has been light.

In South Dakota.

SIoux FALLS, S. D., Nov. 2.—A light vote is being polled in the state, in spite of beautiful weather.

A BATTLE ON AT NEW YORK.

Balloting Progresses Rapidly in Every Borough.

NEW YORK, Nov. 2.—Rain, which fell more or less persistently throughout the forenoon, had little effect to restrain the voters of Greater New York from giving expression to their preferences for city and borough officials. The polls opened at 6 o'clock and within two hours a good third of the voters had been polled in the residential sections of New York and Brooklyn. From that time forward the polling proceeded little less rapidly. At noon but a small fraction of the registered vote remained uncast.

The ante-election claims of the chairmen of the four leading campaign committees are as follows:

Democratic estimates give Van Wyck a majority over all other candidates combined of 20,000 and a plurality over Low, the next highest, of 130,000. The republican estimate give Tracy a plurality of 75,000. The citizens' union estimate gives Low a plurality of 15,000. The George estimate gives George a plurality of 65,000. There are 6522 election districts in Greater New York.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at Blakeley & Houghton's drug store.

DAWSON FAMINE TO BE RELIEVED

Supplies Are to Be Sent in by Reindeer Express.

CHICAGO, Nov. 2.—The threatening famine in the Yukon valley will be relieved. Dr. Sheldon Jackson, en route from the Klondike to Washington, said that the recent order of Secretary Alger to Colonel Randall, in command of the military reservation at St. Michaels, directing him to use reindeer for hauling food to the miners will relieve much suffering.

Dr. Jackson has in the herd 200 head of reindeer trained to harness. He also has two Laps and several Eskimauz experts in driving deer, whom he can turn over to Colonel Randall. He further states that the present exigency emphasizes the urgent need of procuring trained reindeer in large numbers, that the mines of Alaska are so peculiarly situated that they cannot be supplied with a continuous adequate food supply until reindeer transportation is systematically organized on a larger scale.
