GOLF.

The New York Herald is enthusiastic over the new game of golf, which it thinks is proving the salvation of the "delicate American girl." Of all the rot the great papers of the effete East are indulging in, the crazy indorsement of every foolish fad that gives outdoor exercise is the "rottiest." Eve never swung a "caddy" or had a dozen tired little urchins carrying her "sunny sticks." Cleopatra was so healthy that she had to be snaked out of the world, but she never chased a golf ball over a thousand acres of ground.

Undoubtedly golf is beneficial to the be-corseted, gimlet-waisted, eye-glassed and bone beshanked representatives of the New York and Boston upper-tendons, but for the American girl who finds her exercise in household duties, well performed; who puts on a gingham apron and finds health and color in work, golf is not needed. A good saddle horse is worth as a health-giver a whole shipload of shabby balls; a broad-soled pair of shoes, backed by a desire to climb the hills and become acquainted with nature, is more valuable than armloads of crook-necked sticks, with the accompanying inanities, the eye-glassed dudes.

Why seek golf when drills are to be pounded, dishes to be washed, rooms to be swept, shovels and planes, hammers and saws and forges, and the thousands of utilitarian things are demanding attention. The proper thing when a bifurcated dude and a wasp-waisted dudess go glomouring over the links, is for some able-bodied man to take their clubs from them, and out of regard for the balance of humanity, knock the measly combination in the head.

ALASKAN CLIMATE.

A few years ago the United States coast and geodetic survey made a series of six months observations on the Yukon river, not far from the Klondike. As these observations extended from October to April, their records afford a reliable test of the winter climate which may be expected by persons going into that country. The average temperature for October was 33 above zero; for November, 8 above zero; December, 11 below zero; January, 17 below zero; February, 15 below zero; March, 6 above zero, and April, 20 above zero. For 168 days the temperature remained below the freezing point.

The lowest temperatures registered during the winter were: November, 32 below zero; December, 47 below zero; January, 59 below zero; February, 55 below zero; March, 45 below zero; and April, 26 below zero. The greatest continuous cold occurred in February, when the average for five days was 47 below zero.

In the Klondike region in mid-winter the sun rises from 9:30 to 10 a. m., and sets from 2 to 3 p. m. In June the sun rises about 1:30 in the morning, and sets about 9 p. m., giving about twenty hours of daylight and four hours of twilight.

Writing with reference to these records, Professor Willis L. Moore, chief of the weather bureau, says: "Alaska is a land of striking contrasts, both in climate and topography. When the sun shines, the atmosphere is remarkably clear, the scenic effects are magnificent, all nature seems to be in holiday attire. But the scene may change very quickly; the sky become overcast, the winds increase in force, rains begin to fall, the evergreens sigh ominously, and utter desolation and loneliness prevails."

The country grows. In the election held yesterday in Greater New York a mayor was elected. The title is somehow not a suggestive one, and yet the man elected mayor has more offices under his control and a vastly larger amount of patronage than the first president. He has also nearly as many people to rule over. It is a suggestive commentary on the growth of the United States when one city can show a population at the end of 127 years equal to that of the entire thirteen colonies that threw off the rule of Britain.

The three-year-old boy of J. A. Johnson, of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is sure that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved his boy's life. He is in the drug business, a member of the firm of Johnson Bros., of that place, and they handle a great many patent medicines for throat and lung diseases. He had all these to select from, and skilled physicians to answer to his call, but selected this remedy for use in his own home at a time when his boy's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of the croup. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by Blakeley & Houghton.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs, and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Blakeley & Houghton's drug store.
