A. S. ROBERTS,

Stock Inspector for Wasco Co., Box 507, The Dalles. NOTICE.

I have a stray horse, a roan, 9 years hand. old, branded with a figure 2 on the right hip, at my place on three mile. The owner can have the same by paying the last, a roan cow: brand indistinct. The Dalles.

HINTS ON FRUIT CANNING.

A Few Things That the Housewite Should Remember.

In canning fruit, remember that it is hard and disagreeable work at best, and unless you can come within sight of its highest possibilities, "the game is not worth the candle." Whether it is good, bad or indifferent depends upon your own knowledge and skill. Excluding the air to prevent fermentation is only the A B C of success. Fruit must look as well as taste delicious, and, in order to do this, it must retain its natural flavor and appearance, and be sweetened with granulated sugar. Fruit for canning must be freshly picked, and a little under rather than over ripe.

All berries except strawberries should be large and firm. With these the smaller the better. Blackberries, no matter how fine or of what kind, are never satisfactory and palutable. Cherry pits add much to the flavor, and when removed from the fruit a handful should be tied in a piece of net loss of the common Council of Dalles City, which passed the Common Council of Dalles City April 10th, 1897, entitled, "An ordinance to provide for the sale of certain lots belonging to Dalles City," I will, on Saturday, the 15th day of May, 1897, etcl at public action, to the highest bidder, all the following lots and parts of lots in Gates addition to Dalles City, wasco county. Oregon, to-wit:

Lots 9 and 10, jointly in block 14; lots 7, 8, 9 and 10, jointly in block 21, known as butte; lots 10, 11 and 12, in block 37; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12, in block 38; lots 1, 2, 3, 7, 10, 11 and 12, in block 42; lots 1, 2, 3, 4, 5, 6, in block 40.

The reasonable value of sate lots, for less than which they will no. its sold, has been fixed and determines by the Common Council of Dalles City at the following lots and parts of lots in Gates addition to Dalles City. Wasco county. Oregon, to-wit:

Lots 9 and 10, jointly in block 14; lots 7, 8, 9 and 10, jointly in block 21, known as butte; lots 10, 11 and 12, in block 37; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12, in block 38; lots 1, 2, 3, 7, 10, 1

handful should be tied in a piece of net and put in the center of each jar. Pear

mersed in boiling water to loosen the skins, only a few should be treated at once, and those should first be put in a wire basket or sieve. After remain- lots ing two minutes or so dip in cold water and gently rub off the skins.

A silver knife should be used to shred Peaches should be put in sirup as soon as pared, and pears and quinces into cold water, to prevent discoloration. Peaches are firmer and richer if allowed to remain over night in the sirup before they are cooked. Five or six pits should be distributed theresh. pineapple and pare pears and quinces. six pits should be distributed through

each quart jar. The most delicate and natural fla vor is obtained by cooking the fruit in the jars. This method also does away with the breakage from handling, and adds greatly to its appearance. Pears and quinces are no exception to and three years from the date of said this rule, but, as both are more quick- sale, with interest on such deferred pay-

All old jars should be thoroughly cleansed with soda and boiling water, and the air-tightness of every jar should be tested with water before they are filled with fruit, which should be placed in the jar as fast as it is prepared, and the jar filled to the neck

with sirup. A flat-bottomed kettle or an ordinary clothes boiler are convenient for cooking, and a board fitted to the bottom loosely and closely filled with inch augerholes obviates all danger of break-Put the rubber and cover in position, leaving the latter loose; fill the boiler in warm water to the neck of the jars and boll gently until the fruit can be easily pierced with a fork. No definite rule for cooking can be given. Ten minutes is usually long enough for berries, while the time required for larger and more solid fruits depends upon their ripeness. Experience soon makes one expert. Take each jar out onto a hot plate, fill to overflowing The Dalles corps for the past six months, the top. Tighten as it cooks, and in-

vert to be sure that it is air-tight. good-bye to the friends, soldiers and to exclude the light, which is more in skirt the lovely park of Gluzch, and then jurious than one is apt to think, and run straightway for five miles down the kept/in a cool, dry place. The flavor of fruit is more improved if the oxygen is restored by removing the cover an hour or two before it is needed.

will be satisfactory, but as sugar is not priest as a dark room to change his the "keeping power," much less, or even none, may be used: Strawberries, seven ounces; raspberries, four ounces; whortleberries, four ounces; cherries. six ounces; peaches, five ounces; Bartlett pears, six ounces; sour pears, eight ounces; plums, eight ounces; quinces, pose she meant by that?" eight ounces.—N. Y. Times. "Keep moving," was the

It was in a negligence case recently, and a good-humored Irishman was a witness.

The judge, lawyers and everybody else were trying their best to extract from the Irishman something about the speed of a train.

'Was it going fast?" asked the judge. "Aw, yis, it were," answered the wit-

"How fast?"

"Oh, purty fasht, yer honor." "Well, how fast?"

"Aw, purty fasht." "Was it as fast as a man can run?"
"Aw, yis," said the Irishman, glad that the basis for an analogy was sup-

plied. "As fasht as two min kin run."

Bicycles in Egypt. The bicycle has become wonderfully popular in Cairo during the last two years, and there are many more machines ridden by the members of both sexes to be seen in the city and in the suburbs than anyone is apt to suppose. This is not surprising, all things considered. What is called the Ismailiya quarter is all new and pretty, with wide, smooth streets for practice, and there is rain only just often enough to prevent one from saying that it never rains. The climate lets one wheel every day in the year.

It is a delightful spin to the pyramids. Leaving the busy streets of the city, you cross the great Nile bridge. perfectly level tree-shaded avenue to the things to eat and drink. The distance is eight miles, and before one starts back he has plenty of time to If rich fruit is desired, the following climb the big pyramid, shake hands quantities of sugar for each pint jar with the sphinx, and use the tomb of the camera plates.-London Cyclist.

> What She Meant. "She gave me a beautiful nickelplated cyclometer the last time I called," he said, joyfully. "What do you sup-
