Caffery Speaks Against the Immigration Bill—Pension Appropriation Bill Reported On.

WASHINGTON, Jan. 13.—Senator Cannon of Utah, today presented the following resolution to the senate, and it was adopted:

"Resolved, That the president is requested, if in his opinion it is not incompatible with the public interest, to transmit to the senate at his earliest convenience a statement showing what measures are in force by this government in the island of Cuba and in the waters contiguous thereto, to protect the lives, liberty and property of American citizens now dwelling there."

Among the other measures reported to the senate today was a pension appropriation bill. It was placed on the calendar.

At the close of the morning business, the immigration bill, the unfinished business, was taken up, and Caffery, of Louisiana, was recognized for a speech in opposition to the measure. Caffery said:

"The pending bill is as mild a form of antagonism to immigration as conditions will permit. The educational test is of no very stringent character so far as the tests are concerned. It is, however, the beginning of a new departure. From the foundation of the government we have invited the hardy, venturesome people of the Caucasian race to our hospitable shores. The grand transformation of this continent from the wigwam of the savage and the lair of the wild beast to the myriads of homes of a happy, industrious people, has been the work of white immigrants; yet we are about to smite the hand that has upbuilt us; to give a sting to gratitude.

"Many whose ancestors are foreign born are now clamoring for restricted immigration. It is just and proper to hold this continent against the Mongolians. The exclusion of Chinese is justified by a wise policy and by a principle of retaliation. Their doors have been closed to the world, but their arrogance and selfishness are not the role for wise nations to play in the world's grand theater.

"Not to admit to this country Irishmen, Swedes or Italians who cannot read or write is Chinese, not American. No danger to our institutions has ever arisen from admitting immigrants who cannot read or write. This government is the outgrowth of the labor of countless immigrants, who will be disqualified by the pending bill. He who is vigorous in body, strong in mind, honest and industrious is a good citizen. No immigrant, not a pauper or insane, diseased or criminal, should be turned away from our shores."

At the conclusion of Senator Caffery's speech the senate at 12:20 p. m., on motion of Chairman Davis, of the foreign relations committee, went into executive session.

Senator Frye made a most spirited speech in support of the Hawaiian treaty, urging upon the senate the importance of accepting the islands while opportunity offered, and denouncing as folly any refusal to embrace the opportunity.

Every Housewife Should Understand and Cultivate Their Use.

Herbs used in cookery, while they may be purchased in the markets of the larger cities of the United States, are rarely procurable in those of smaller towns. To the average ruralist they are unknown, or, if known, their use is not understood. In first rate cookery, which is one of delicate combinations and flavors, they are absolutely indispensable, and their absence therefrom is quickly detected by cultivated palates. Chives, tarragon, chervil, savory, sorrel, etc., may be grown with little trouble either out of doors or in boxes in the house. Pulverized dried herbs that are sold in bottles or tin are of little value. For flavoring purposes they are hardly more effective than so much dried dust. Sorrel soup, on account of its pleasantly acid flavor, is much in vogue in Europe. Here it is almost entirely unknown, and is rarely or ever served except in families of foreign origin or at restaurants that encourage a special clientele. Of all the herbs only sage and mint are in universal use with us. For this boon we are indebted to the favor accorded sausages, and the popularity of the "mint julep."

Not long ago, when a clothing house advertised a special reduction sale, Jacob Shaw, manager of the electric light works in Ellicott City, Md., bought an outfit for his little boy. The jacket included in the purchase was worn with the suit until, in the course of a month or so, the garment became unfit for wear and had to be put away. About it there was a most unnatural odor. There was no living in the same room with the boy and that coat. The other day Mrs. Shaw ventured to make an investigation, the offensiveness of the garment having somewhat subsided, when in the coat's lining, securely sewed in, were found the remains of a viper snake fifteen inches long. How the snake got there is a mystery of some sweat shop.
