MONDAY - MARCH 7, 1898

WAYSIDE GLEANINGS.

Monday night. At the opera house. George's Colored Minstrels. We have cigars to burn at Foutz'. Wanted—a girl to do general housework. Inquire at this office. The weather forecast for tonight and tomorrow is fair and cooler. Plain, mixed and dill pickles, olives and pigs' feet in bulk, at The Dalles Commission & Grocery Co.'s. This morning the Columbia Packing Co. shipped a large consignment of splendid porkers to Portland on the Regulator. A lady's gold locket was found yesterday. The owner can have the same by describing property and paying for this notice. Just received—New lot of oranges, lemons, pineapples, bananas and cauliflower, at The Dalles Commission and Grocery Co.'s. It is not often that such an excellent troupe comes to our city as George's Minstrels, and we sincerely hope they will receive the patronage due such a performance. Pa Plata Sheep Dip, proven by every test to be the best non-poisonous fluid in the world; guaranteed to cure scab, itch, sore throat, lice and hoof-rot. Clarke & Falk, agents, The Dalles. Gordie Graham, the boy who was accidentally shot in the eye at Mosier Saturday, was taken to the hospital in Portland for treatment. While his condition is not considered dangerous, he will, in all probability, lose his eye. William Rolfe, who was the main factor in a shooting affair which occurred at Antelope several weeks ago, had his preliminary hearing before Recorder Paine, and was placed under \$750 bonds to appear before the next grand jury. The high daily scores at the Umatilla House alleys for last week were: Monday, Maetz 55; Tuesday, Wilder 54; Wednesday, C. Dell 58; Thursday, Maetz 63; Friday, J. Unger 62; Saturday, Maetz 64; Sunday, C. Schmidt 63. Freighters are beginning to haul earlier this season than usual. Seven heavy teams loaded at the Wasco ware house today for Mitchell, Prinsville and Antelope, and owing to the early spring the wool teams will soon be coming in by the dozens, as shearing will begin about next week. In the oratorical contest which took place at the Goldendale Academy Friday and Saturday evenings, the gold medal was won by Miss Ethel Masters, while the alternate first prize was won by Roy Shoemaker. Quite a number of contestants took part, and a splendid showing was made throughout. In a telegram received today by Mrs. Cooper from her daughter, Ruth, who is at present teaching in Carson City,

Nevada, she states that she will be transferred to Uintah, Utah, on a salary of \$750 per annum. Miss Cooper has many Dalles friends, who will be delighted to hear of her good luck in securing this promotion.

The annual school meeting was held at the Court street school this afternoon, all the members of the board being present. No business of importance was transacted outside of the reading of the different reports, which will be published as soon as they can be got in proper shape for publication.

The club bowlers made an unusually good showing for the week ending yesterday. All the scores were above fifty, while one reached the seventy mark. They were as follows: Monday, Bradshaw 60; Tuesday, Hendley 57; Wednesday, Ogden 57; Thursday, Bradshaw 57; Friday, Houghton 62; Saturday, N. J. Sinnott 70; Sunday, Ballard 66.

Owners of fish wheels and canneries are making extensive preparations for the fishing season which opens April 10th, and as many of the fishermen from the lower river have gone to the Alaska gold fields, it is expected that the fish will have a better chance to get up the river this year than last, as they will not have to dodge so many traps and nets in so doing.

Latest rumors concerning the trouble between the United States and Spain state that Spain has withdrawn her demand concerning the removal of Consul General Lee, but state further that the situation is graver at present than it has been since the commencement of the trouble, and the Tribune's prediction that hostilities will commence inside of a week, promises to be verified.

The parade of George's Minstrels, which was held at noon today, impressed everyone very favorably and caused somewhat of a rush at the box office. The musicians who are traveling with this show are artists, and the juggler is immense. On the whole we can recommend this performance to the general public from our own observation, as well as from the favorable comment of the papers from the various towns through which it has passed, as one of the first order.

The steamship Oregon left Portland for Alaska points at 7 o'clock last evening. There was probably more freight taken this trip than the Elder carried away on the 2d inst. It was ascertained yesterday that 650 tons had been placed on board. The whole amount did not exceed this very much, but a considerable amount of belated outfits and goods will doubtless be added. A large list of passengers also went, and it appears the sickness and hardships are not scaring people in the least.

An Enthusiastic Meeting.

A most enjoyable evening was had at G. A. R. hall last Saturday evening. The prominent feature of the meeting of the W. R. C. was the installation of Mrs. Mamie Briggs as president of the W. R. C., connected with J. W. Nesmith Post, G. A. R.

After this and kindred ceremonies, the hall was opened to the Veterans and the Sons of Veterans. The interest of the meeting was made greater by the presence of Col. Skinner, asst. quartermaster-general, Capt. Morse, asst. adjutant-general, Dept. of Oregon, G. A. R., and Mrs. Gwilt, president W. R. C. of Oregon, who were here in the interests of the G. A. R., and especially in the success of the state encampment of the G. A. R., W. R. C., and Sons of Veterans, to be held here on the 17th, 18th and 19th of May next.

Speeches were made by Col. Skinner, Capt. Morse and others, but the talk of the evening was made by Mrs. Gwilt. The prospects for the most successful encampment of the G. A. R. ever yet held in the state are of the brightest, and the executive committee feel that with the enthusiasm evinced on this occasion, backed, as it is, by the pride of The Dalles, our D. C. & A. C., and by the citizens generally, their labors must meet with triumphant success. We propose to have the largest, most enthusiastic and successful encampment ever held in this state.

Institute Closed at Hood River.

The Farmers' Institute at Hood River closed Saturday night. With it was brought to an end the most successful series of institutes ever held under the auspices of the Oregon Agricultural College. The representatives of the college were much pleased with the large attendance at the institute and the interest and enthusiasm shown in the work. The Hood River schoolhouse in which the institute was held was filled to overflowing, and at some of the sessions in larger towns audiences of over 800 people were present. Every day parents signified their intention to send their boys and girls to the college, having gained an appreciation of the scientific and practical methods to be learned there.

At the sessions Saturday there were thorough discussions on forage plants, poultry-raising, and every branch of the horticultural business. An excellent musical program was rendered at the evening session, and Prof. A. B. Cordley delivered a lecture on "Fruit Pests," illustrating with the stereopticon views showed in this city the last night of the convention.

NEWS NOTES.

Consul-General Lee will not be recalled and the United States will send food to starving Cubans in war vessels.

Late reports state that 10,000 Klondikers are on the war-path, on account of the Canadian government stationing custom house officials at the head of the passes.

The Portland Tribune says that if the government carries out the policy agreed upon by the president and his cabinet, in less than a week we will be involved in war with Spain. The Spanish atrocities in Cuba and their failure to end the war by pacific means, together with the Maine disaster, will be the leading causes for action.

Opening.

Prof. P. G. Doot will open up an optician parlor on Second street, two doors west of Keller's bakery. The professor has been employed by Harry Liebe, the jeweler, for several months and leaves him with the best of recommendations. His work speaks for itself, and he has many home testimonials, which he will be glad to show to anyone desiring to see them. His patients are his friends and his friends are his patients, for he is an expert in fitting the eye perfectly in all cases.

Anyone wishing their eyes examined and properly fitted will do well to give him a trial. He states that he will be ready to open up by Tuesday, the 8th, and will, for a beginner, make a special reduction for ten days only. He will also do all kinds of complicated watch work, jewelry repairing and diamond setting.

He comes here with the best of recommendations as an eye specialist, and can, undoubtedly, do as he agrees. We are pleased that he has decided to remain in our city, and recommend him to the patronage of our readers.

A Hot Time in the Old Town.

There's been a hot time in the old town while the wool-growers have been with us; but, gentle people, the hot time is not over yet, for there's going to be a hot time in real estate and insurance in the old town in the future. When you hear old Dad Butts go by, don't forget he's got business in his eye, a sample of which might be briefly mentioned in this way: A corner lot; good house; well improved; city water; streets all graded; within ten minutes' walk from the postoffice—for \$300. And this isn't all he has. See him and be convinced.

STOCKHOLDERS' MEETING.

Notice is hereby given that there will be an annual meeting of the stockholders of The Dalles, Portland & Astoria Navigation Co. at their office Saturday, April 2, 1898, at 2 p. m., for the purpose of electing seven directors, and transacting such other business as may properly come before said meeting. By order of the president. The Dalles March 1, 1898. C. L. PHILLIPS, Secy.
