The weather forecast for tonight and Wednesday is fair. Tonight, killing frosts; tomorrow, warmer.

Just received cauliflower, sweet potatoes, oranges, lemons and bananas at Commission & Grocery Co.

Marriage license was issued yesterday to George R. Archer and Ethel J. Rigby. Both are residents of Hood River valley.

A full line of hand made chocolates fine confections just received at Pease & Mays. Fresh goods and only 25 cents a pound.

A scow loaded down with cordwood took advantage of the brisk in-stream breeze today and landed her load of fuel on the beach.

The experiment station at Corvallis has just received a large lot of imported sugar-beet seed for distribution to farmers who are willing to report results to the station.

This morning's bulletin states, on good authority, that a condensed report of the court of inquiry has been wired to the president, but nothing can be said yet as to when the report will be made public.

Work was begun today on a new ferry boat for the Rockland Ferry Company. It will be built after the pattern of the old craft, but some four feet longer. The old machinery is in good shape and will be transferred into the new boat. The builders hope to have it ready by May 1st.

This morning a messenger came in from Endersby for Dr. Hollister. He stated that Capt. Endersby of that place has broken his leg, but we did not learn how the accident occurred. Mr. Endersby is advanced in years and it is feared the shock will be very hard on him.

John Temple Graves, editor of the Atlanta (Ga.) Constitution, who is classed among the leading orators of the continent, has been engaged by the directors of the Willamette Valley Chautauque Association to deliver two lectures at Gladstone during the annual assembly to be held in July.

Maud Miller, who is visiting her uncle, Charles Hillborn, in Coos county, is a daughter of Joseph Miller, the poet, and at one time attracted attention on the American stage as an actress, which profession she followed for a number of

years. Miss Miller will probably make Coos county her permanent home.

Last night we had a heavy frost in this place, and fears are entertained that serious injury has been done to the early fruits, especially peaches and apricots. Nothing definite, however, can be said about this until later, as the trees are just beginning to bud and there are hopes that no serious damage has been done.

W. O. Hadley passed through the city this morning on his way to his home at Moro. He has purchased the Olympic double bowling alleys in Tacoma for the Moro Commercial Club. They will be shipped to Moro as soon as possible and put in place in the club rooms. It speaks well for the enterprise of the people of a town of Moro's size to be so liberal in putting in an expensive club room.

The Sherman county Populist, Silver Republican and Democratic convention met at Moro Saturday. A joint conference committee was appointed to arrange for a fusion, and, so far as the division of spoils was concerned, the two conventions had no trouble in agreeing. The Populists, however, insisted upon the adoption of resolutions by the three conventions in which their entire platform was embodied, and this prevented a fusion being effected.

Yesterday the Dalles Commission Co., of this city, started a carload of potatoes east. Joe Bonn, one of the partners in the firm, informs us that they are shipped by them via New Orleans to the starving Cubans, in order to show this company's liberality to those in need. We have always known Joe to be a truthful young man when speaking of anything outside of a fishing trip, and believe that the potatoes have really gone to starving concentrados.

April 8th has been set aside as Arbor day throughout the state of Oregon. It is laid down in the school law that teachers will observe the afternoon of this day by appropriate exercises—in planting trees, beautifying school grounds, and inculcating lessons of beauty and order into the minds of the children. Circulars and instructions have been mailed to every district, and it is hoped that every teacher will report the result of the day's work.

Yesterday evening about fifteen minutes before the usual time for starting up the engines in the electric light plant, the gasket in the safety valve pipe, where it connects with the boiler, blew out, and from that time until 8:30 stores and private residences in which electricity was used were left in darkness. Nearly all the business houses closed at 7 o'clock, while a few brought the old style coal oil lamps into use for the evening. Second street, indeed the whole city, had a dismal appearance, and by 8:30 o'clock, when the lights were turned on, our citizens were all wondering how we ever got along before the plant was put in.

People traveling over the road between Bakeoven and Antelope say that the same is improved in a marked de-

gree since Mr. Joe Sherar has had charge of the improvement and construction work on this road. He has picked out a route so that the hills are avoided, and has done such good work in grading and filling that not a single rock can be found on this piece of road, which heretofore was a terror to those having to drive over it. Mr. Sherar deserves more credit than he receives for his excellent judgment in building roads, and if our county had a few more men with the zeal of Mr. Sherar in this direction, we would have different highways.

Reception to Mr. and Mrs. Bunker. Last night at Fraternity hall Dalles Lodge, I. O. G. T., gave a reception in honor of Mr. and Mrs. C. O. Bunker, both of whom are energetic workers in that order. Nearly every member was present and a number of invited guests, who seemed to appreciate the short, but excellent, program rendered. At the close of the program, Mr. and Mrs. Bunker were presented with a very handsome berry spoon as a gift from the lodge, when Mr. Bunker responded in a neat and very appropriate manner, assuring their friends of the pleasure it afforded them to feel that they had been so kindly remembered. He also said that the occasion must not be considered a farewell, but a reception, as it was not their intention to desert the work of the order, but to remain staunch workers in the cause of temperance.

After a song by the quartet club, ice cream and cake were served, and later all took occasion to extend congratulations and best wishes to the young couple, who are starting on the journey of life with such fair prospects for success.

### Death of Geo. Heitz.

This morning James Rees received a message stating that his uncle, Gregor Heitz, died at his home in Centerville, Klickitat county, at 2 o'clock this morning. Mr. Heitz was 70 years old, and has made his home in Klickitat county for a number of years.

He leaves a wife and three children—two boys and three girls—they being Mrs. W. E. Walther, of this city; Mrs. M. Spicinger, of Mill creek, this county; Mrs. B. Tapp of the Willamette valley, and Gregor, Jr., and George Heitz.

Mr. Heitz has been ailing for about two months and his death was not unexpected.

He was a kind, fatherly old gentleman and was respected by all his acquaintances.

The funeral will take place from the family residence in Centerville tomorrow (Wednesday) at 2 p. m. Mr. Walther and Mr. Heitz' nephew, James Rees, will leave in the morning to be present at the ceremonies.

### A TERRIBLE TRAGEDY.

Louis Gebhardt Kills His Wife, and Then Shoots Himself.

News was received here today of a shocking tragedy which occurred at Cascade Locks last night. Louis Gebhardt, of that place, murdered his aged wife and then blew out his own brains.

Gebhardt had the reputation of being a man of a bad disposition and violent temper, and at various times he is said to have uttered threats against his wife. Of late he has not been feeling well, and it is thought that he became mentally unbalanced. A bad scar was found on Mrs. Gebhardt's head, which might have been made with a club, and the supposition is that he struck her on the head and stunned her, and then, fearing that her injuries might prove fatal, he ended the terrible deed by shooting her through the breast, and then, placing the gun in his mouth, ended his miserable existence by blowing out his brains. In both cases death seemed to have been almost instantaneous.

Gebhardt was about 72 years of age, while his wife was several years younger. At times he acted as if he were jealous of his wife and showed in many ways that he was not of sound mind.

Mrs. Gebhardt was known to all to be a woman of good character and was highly respected by all who knew her.

Coroner Butts left for the scene of the tragedy today, and will, in all probability, return this evening, when a more accurate account can be got.

### Big Strike at the Golden Eagle

The Baker City Democrat says: "A big strike has been encountered in the main tunnel of the Golden Eagle, about 200 yards from the Don Juan, and owned by Messrs. Hill and Cradlebaugh, the latter a veteran newspaper man and recently editor of The Dalles Daily Chronicle. The Golden Eagle has a very neat and complete three-stamp mill and concentrator, combined, making an efficient outfit of the size as there is in this section. Active operations will begin in the mine and mill this week."

THE CHRONICLE, as well as Mr. Cradlebaugh's many friends in this city, sincerely hopes that the report of the rich strike is true, and that he will remember this office with an occasional nugget.

### An Enthusiast.

Is a person who believes about four times as much as he can prove, and who can prove about four times as much as anyone else believes. We're not enthusiasts; not a bit of it. We believe we sell as good clothing as the best, and on as close, if not a closer, margin than any other dealer. That partly accounts for our great success. Look to us for the new things in Clothing and Furnishings. A. M. WILLIAMS & Co.

### To Cure a Cold in One Day.

### Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at Blakeley & Houghton's drug store. Regular size 50 cents and \$1.00. Guaranteed to cure or price refunded. 2

### STOCKHOLDERS' MEETING.

Notice is hereby given that there will be an annual meeting of the stockholders of The Dalles, Portland & Astoria Navigation Co. at their office Saturday, April 2, 1898, at 2 p. m., for the purpose of electing seven directors, and transacting such other business as may properly come before said meeting. By order of the president.

## Smoke Cigars.

Why do we retail more Cigars than others?

Why do smokers go out of their way and pass cigars of the same grade?

Not because we have better cigars or better brands, or any greater variety; no, not that.

Why, because we have the finest cigar case in the state and keep our cigars in better condition.

Snipes-Kinersly Drug Co.
