CARLISTS WILL STRIKE A BLOW

Preparing for a New Insurrection of Spain.

DON CALOS IS ON THE FRONTIER

He is Waiting for the Signal to Cross and Place Himself at the Head of His Followers—The Situation at the Spanish Capital.

New York, April 19.—The reality of the Carlist movement is, says the London correspondent of the World, now too patent to be any longer ignored. Don Carlos is reported by some of his English sympathizers—among whom is the Earl of Ashburnham, an ultramontaine peer and leading figure—to have left Venice and to be now waiting at some convenient place to cross the Spanish frontier at the proper moment and place himself at the head of his followers as in former Carlist insurrections.

It is expected that a considerable body of Catholic young men, including some officers serving in the British army, will volunteer for service with the Carlists, although they will have to proceed very circumspectly in order to evade being made amenable to the foreign enlistment act, under which Jameson was convicted.

The local Carlists are convinced that the present Spanish dynasty is doomed, and that Spain will be forced to choose between republicanism and Don Carlos. They add that the only chance of the present dynasty is a successful war against the United States, the possibility of which is scouted.

THE PASSING OF A FAMOUS GEOLOGIST.

Professor Jules Marcou is Dead at Cambridge.

New York, April 19.—Professor Jules Marcou, famous throughout the world as a geologist, is dead at his home in Cambridge, Mass.

Born in Salins, Jura, France, April 20, 1824, he was educated at the college of Besancon, and afterward at the St. Louis college in Paris. As a traveling geologist of the Jardin des Plantes he visited this country and Canada in 1848. A fine collection of minerals which he had made he forwarded to Paris on the following year. Later he directed his attention to the geology of New Jersey, Pennsylvania, Virginia and the Mammoth cave.

After a short visit to Europe in 1859, he returned to this country and published his geological map of this country and the British North American possessions. Entering the geological service of the United States, he was the first geologist to cross the country, and made a section map of the 35th parallel, from the Mississippi river to the Pacific ocean. Impaired health compelled a return to Europe in 1855, and from that year to 1857 he held a professorship in the polytechnic school in Zurich.

In 1861 he returned to the United States, and with Professor Agassiz founded the museum of comparative zoology, in which he held the chair of paleontological divisions. From 1864 to 1876 he devoted himself to scientific research and became a strong supporter of the Taconic system, of New York, published many papers on the subject. In 1871 he again entered the national serv-

ice, with which he was connected until a few years ago.

Professor Marcou was decorated with the cross of the Legion of Honor in 1867, and was a member of many scientific societies here and abroad. He had published many works on scientific, geological and geographical subjects, both in this country and France.

Left For Fort Sheridan.

CHICAGO, April 19.—The first section of the train containing troops composing the Fourth regiment of infantry left Fort Sheridan this afternoon. Other sections leave tonight and tomorrow. J. G. Brooke, who will command the forces at Chickamauga, will leave tonight and will be accompanied by his staff.

General Wade, formerly in command of the department of Dakota, accompanied by his staff, arrived in Chicago today en route for Tampa, where he will take command of the light artillery and cavalry.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Price 75c. per bottle. Sold by Druggists.

Von Holsben Gives It Up.

BERLIN, April 19.—The German foreign office declares that Dr. Von Holsben, ambassador of Germany at Washington, instead of joining in renewed representation to the United States, is urging the ambassadors to stop their attempts at mediation, as they are considered worse than useless.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. Stroud, Popponoke City, Md. For sale by Blakeley & Houghton.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at Blakeley & Houghton's drug store. Regular size 50 cents and \$1.00. Guaranteed to cure or price refunded.

E. O. Chamberlain Dead.

New York, April 19.—Earnest O. Chamberlain, managing editor of the Evening World, died last night of pneumonia, aged 38 years.

A FEW HINTS.

The Eye Is the Window of the Soul—Beware How You Use It.

When should spectacles first be used, and those in use abandoned:

First—When you are obliged to move small objects to a considerable distance from the eye in order to see them distinctly.

Second—If you find it necessary to get more light than formerly—as for instance, to place the light between the eyes and the object.

Third—If, on looking at and attentively considering a near object, it becomes confused and appears to have a kind of mist before it.

Fourth—When the letters of a book or paper run together and appear to have doubled or trebled.

Fifth—If the eyes are fatigued by a little exercise so that you are obliged to shut them from time to time, or relieve them by looking at other objects.

Sixth—If black spots or flakes appear before the eyes or seem floating around the eyes.

Seventh—If the eyes become inflamed or heated or any other exercise.

If you observe any of the above signs or signals of distress, it should claim your immediate attention. The eye, like the rest of the body, slowly but surely reaches the acme—the meridian of its strength and perfection—then passes into a condition of weakness and decay. When this stage arrives, we should avail ourselves of the aids that science and patient research has thrown in our way at so small an expense. When you find your old spectacles should be replaced by a new pair, it is always for a stronger pair, for our eyes never grow younger until we reach the stage of "second sight" in the somber twilight of old age. Immediate attention to the eyes when we find they need it, means many years of sight saved and better vision. It is no more nor less than a duty you owe yourself, for careless delay results finally in vain regrets and useless complaints.

Sheep marking paint; ready for use. Two colors, black and red. Why you should use our sheep paint. First, because the colors are ground thoroughly in pure linseed oil by fine machinery; second, because it is made of high grade color, with the proper amount of dryers added to give it binding and lasting qualities, which prevent it from washing or rubbing off; third, it is much more economical, because it is always ready for use. We guarantee our sheep marking paints to give satisfaction. Try it and be convinced. Clarke & Falk, agents, The Dalles, Or.

Another Peace Movement.

LONDON, April 19.—It is reported that a triple alliance, composed of Germany, Austria and Italy, acting upon the suggestion of Italy, has proposed to the powers a plebiscite, under which the population of Cuba should be allowed to vote on the form of government under which they shall live.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These Pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by Blakeley & Houghton Druggists. (2)

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by Blakeley & Houghton.

Rheumatism Cured.

My wife has used Chamberlain's Pain Balm for rheumatism with great relief, and I can recommend it as a splendid liniment for rheumatism and other household use for which we have found it valuable.—W. J. Cuyler, Red Creek, N. Y.

"He Don't Know What He Wants;"

had to give it up," is the way they refer in most clothing stores to a man who walks out without buying. They are wrong; he *does* know what he wants; that's the trouble. Men who are hard to please in a clothing store are generally good judges of clothing. They have a gift of "spotting" bad fabrics, poor patterns and skimpy tailoring. They know how a garment should fit. We never complain of such men. Why should we? They are our best and most appreciative customers.
