

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation.

Syrup of Figs is for sale in 50 cent bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N.Y.

PERSONAL MENTION

R. R. Hinton of Bakeoven is in the city.

Murdock McLeod of Kingslay is in the city.

T. H. Johnson is in the city from Dufer.

Dr. Hollister was called up to Wasco last night.

Judge Fulton is in the city from his home on the Deschutes.

E. Jacobsen returned from a business trip to Portland on last night's train.

H. M. Ogden, the genial insurance agent, arrived from Portland last night.

Geo. Dufur, left on the delayed train yesterday morning for a short stay in Portland.

S. Carlisle ex marshal of Arlington was in the city yesterday and returned home last evening.

Dr. Brosius left last night for Pendleton and La Grande, where he will examine the militia boys of those towns.

H. S. Wilson went to the Cascade Locks yesterday morning on a business trip and returned on the Spokane train last night.

Frank Merritt, business manager of the "Tim Murphy" Company, is in the city making arrangements for that show, which will be here in the near future.

Rue Grimes left on the overland train last evening for Idaho, where he goes to purchase large consignments of cattle for the Union Meat Co.

Last evening Rev. Father O'Reill, of Portland, Rev. Crawley, of San Francisco, and Rev. Yoesan, late of India, came up on the boat and remained over till the night train, when the latter left for the East. Fathers O'Reill and Crawley will return to Portland this morning.

TO IRRIGATE CROPS.

O. R. & N. Experiments to Be Made at Blalock.

A deal was completed Monday whereby the O. R. & N. Co. will have land for an agricultural experiment station this year, at Blalock, Umatilla county. President C. R. Smead, of the Smead Fruit Farm Association, was in Portland and completed arrangements with the O. R. & N. officials for the experiment work, and Industrial Agent Judson will go to select the soil and settle the working details of the transaction.

The new crops for the Inland Empire which will be tried at this experiment station are cotton, tobacco, sweet potatoes, peanuts, amber cane, sweet corn and Mercer corn. The last named is a new variety of corn that is said to yield 200 bushels to the acre, and to be ready for harvest 75 days after planting. It makes excellent meal for bread, and is also a superior food for livestock, the stalks as well as the grain being used for cattle.

As to the cotton, it is not contemplated that facilities for manufacture shall be provided at the experiment station any more than tobacco.

When should spectacles first be used, and those in use abandoned: First—When you are obliged to move small objects to a considerable distance from the eye in order to see them distinctly.

A FEW HINTS.

The Eye Is the Window of the Soul—Beware How You Use It.

Second—If you find it necessary to get more light than formerly—as for instance, to place the light between the eyes and the object.

Third—If, on looking at and attentively considering a near object, it becomes confused and appears to have a kind of mist before it.

Fourth—When the letters of a book or paper run together and appear to have doubled or trebled.

Fifth—If the eyes are fatigued by a little exercise so that you are obliged to shut them from time to time, or relieve them by looking at other objects.

Sixth—If black spots or flakes appear before the eyes or seem floating around the eyes.

Seventh—If the eyes become inflamed or heated or any other exercise.

If you observe any of the above signs or signals of distress, it should claim your immediate attention. The eye, like the rest of the body, slowly but surely reaches the acme—the meridian of its strength and perfection—then passes into a condition of weakness and decay.

When you find your old spectacles should be replaced by a new pair, it is always for a stronger pair, for our eyes never grow younger until we reach the stage of "second sight" in the somber twilight of old age.

Immediate attention to the eyes when we find they need it, means many years of sight saved and better vision. It is no more less than a duty you owe yourself, for careless delay results finally in vain regrets and useless complaints.

Daut, the optician, knows just what you need in the line of glasses. Call on him.

Sheep marking paint; ready for use. Two colors, black and red. Why you should use our sheep paint. First, because the colors are ground thoroughly in pure linseed oil by fine machinery;

second, because it is made of high grade color, with the proper amount of driers added to give it binding and lasting qualities, which prevent it from washing or rubbing off; third, it is much more economical, because it is always ready for use.

We guarantee our sheep marking paints to give satisfaction. Try it and be convinced. Clarke & Falk, agents, The Dalles, Or.

HARPER BROS., of the East End feed yard have a thoroughbred Jersey bull, which they will stand for the season at the feed yards. For terms apply to the above.

One Minute Cough Cure, cures. That is what it was made for.

DeWitt's Witch Hazel Salve Cures Piles, Scalds, Burns, DeWitt's Little Early Risers, The famous Kidney Pills.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system.

Dr. GUNN'S IMPROVED LIVER PILLS ONE FOR A DOSE. Remove Pimples, Prevent Biliousness, Purify the Blood, Cure Headache and Dyspepsia.

"IRONING MADE EASY"

This starch is prepared on scientific principles by men who have had years of practical experience in laundry chemistry. It contains no lye and does not contain any of those irritating and harmful ingredients which are found in the only starch manufactured that is perfectly harmless, containing neither arsenic, glass or any other substance injurious to man and can be used even for a baby's powder.

STRICT BOARDING SCHOOL.

Three Callers a Year at Twenty Minutes a Call for Girl Students.

The young ladies of the normal school in Winona were lately thrown into a flurry of excitement, says the St. Paul (Minn.) Dispatch. They were called into one of the recitation-rooms and put through a rigid examination about the number of callers each had and a description of each caller.

It was also considered highly improper to receive a call which was of more than 20 minutes' duration. In all over a dozen questions were required to be answered, all of which were in regard to the subject of gentlemen callers.

A number of rules were given to the young ladies, which they were told they must obey. Among them was one forbidding the same young man to call upon them more than three times a year, and then the call must be purely formal and not exceed 15 or 20 minutes.

The young ladies were also requested to furnish a list of their callers and their characters, and as to the general subjects of conversation when calling or riding, and if the landlady where they boarded approved of the young men.

Some of the young ladies are indignant, and say they will not submit to such rules, while others believe they are all right, and propose to follow them.

IN THE NATURAL GAS DISTRICT. A Very Unattractive Place Where Many Accidents Occur.

Passing through a gas-belt one will see near the roadside, in a farm lot, a mud-splattered, weather-beaten derrick, with the apparently rickety equipment of crude appliances made familiar years ago in the oil regions—a small reversing engine, a rusty locomotive boiler, usually without a stack and leaking at every seam; the ponderous wooden walking beam slowly oscillating night and day, stopping only to give place to the use of the bull wheel when the drill is raised and the sand pump is lowered, or a newly-dressed bit is put in service.

Crude as the rig and all its details may seem at first glance, every part is soon seen to have its use, and the journey of the bit from the surface to the unknown, and perhaps barren, depths, is always accompanied by interesting and ever-varying developments, says Cassier's Magazine.

At night the measured beat and clatter of the rig in the dim light of a few flickering torches of gas, piped from some neighboring well; the trembling derrick, its lofty top lost in the darkness; the driller carefully manipulating the temper screw after each stroke, controlling the bit at the end of a rope perhaps half a mile below the surface, all form a weird sight.

Accidents are frequent, and the slightest carelessness may result in dropping the tools, the recovery of which requires patience and often great ingenuity.

Through Ticket Office, 134 Third street, where through tickets to all points in the Eastern States, Canada and Europe can be obtained at lowest rates from J. B. KIRKLAND, Ticket Agent.

All above trains arrive at 8:25 p. m. and depart from Grand Central Station, 11th and Irving streets.
