**REVENUE DOING WELL.**

It is encouraging that the revenue holds up so well, says the New York Tribune, in spite of some natural restriction of imports on account of the uncertainties of war. Although imports should be much smaller than a year ago, when they were greatly swelled by anticipation of new duties, the decrease of 30 per cent in four weeks of April at this city is evidently due in part to some preparation for avoidance of war risks earlier, and to some hindrance of imports since hostilities became inevitable. If only a small part of the \$16,440,000 decrease in imports at New York alone during these four weeks of April was due to this cause, a corresponding decrease of revenue would account for much more than the decrease in customs revenue, comparing with thirty days of March. The aggregate receipts, over 33,000,000 in thirty days of April, were not all from taxation, for \$2,651,500 must be deducted for receipts from railway sales on the 9th and 19th, so that the actual revenue has been \$30,361,442, a gain slightly more than the \$1,000,000 per day which would cover all the ordinary expenses of government. The customs receipts were \$655,357 smaller than in thirty days of March, but internal receipts were much larger.

The checking of imports just at the time war breaks out in order to avoid risk at sea, does not necessarily imply any decrease whatever after conditions have become known. Under these rules, promulgated by the Spanish government, all imports in neutral vessels will be safe unless contraband of war, and imports owned by neutrals in American ships. The ordinary imports into the United States include no article of importance which is contraband. American owners of goods in distant ports can avoid risk by shipping in neutral vessels, and American vessels in distant ports will be able to take cargoes exclusively of neutral goods, without exposing such goods to seizure.

While the carrying trade by American vessels will doubtless be diminished, there is no reason to suppose that the movement of goods to this country will be in any degree reduced in consequence of hostilities, unless the general prosperity and consumption of the people of this country are unfavorably affected. Even of Spanish products, any needed quantity could be procured through English buyers and shippers, though in all the imports from that country were in value only \$3,631,000 last year.

The customs receipts have fallen slightly below those of March, but if the general prosperity is not checked, large imports and revenue may be reasonably expected as soon as the embarrassment of providing against war risk in shipment has been overcome. If the country wants and is ready to buy as largely of foreign goods as it has done in past months, there will be no difficulty whatever in arranging shipments so as to avoid the risk of war.

With Europe heavily indebted to this country on every month's mercantile transactions, and an enormous balance still due, notwithstanding gold imports of unusual magnitude, it is not to be expected that there will be any difficulty in finding foreign houses to supply this country with all that its people want; and by such carriers as to avoid risks in consequence of war.

The Shakers of Mount Lebanon, a community of simple, honest, God-fearing men and women, have prepared the Shaker Digestive Cordial for many years, and it is always the same, simple, honest, curative medicine that has helped to make the Shakers the healthy, long-lived people that they are. The Shakers never have indigestion. This is partly owing to their simple mode of life, partly to the wonderful properties of Shaker Digestive Cordial. Indigestion is caused by the stomach glands not supplying enough digestive juice. Shaker Digestive Cordial supplies what's wanting. Shaker Digestive Cordial invigorates the stomach and all its glands so that after awhile they don't need help. As evidence of the honesty of Shaker Digestive Cordial, the formula is printed on every bottle. Sold by druggists, price 10 cents to \$1.00 a bottle.

Sheep marking paint; ready for use. Two colors, black and red. Why you should use our sheep paint. First, because the colors are ground thoroughly in pure linseed oil by fine machinery; second, because it is made of high grade color, with the proper amount of dryers added to give it binding and lasting qualities, which prevent it from washing or rubbing off; third, it is much more economical, because it is always ready for use. We guarantee our sheep marking paints to give satisfaction. Try it and be convinced. Clarke & Falk, agents, The Dalles, Or.
