

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Street Co. only, and we wish to impress upon all the aportance of purchasing the true and original remedy. As the genuit 'yrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other posties. The high standing of the CALI-PORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives. as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company -

STATE SURGOL BOOKS.

Continued from third page.

same profit to the retail dealer. The law of Oregon imposes conditions on the publisher which are not required by the law of any other state. It requires the contracting publisher to maintain a general depository or place of business in this state, and to maintain subdepositories at such points throughout the state now more than 250) as may be from time to time designated by the state board of education. We are theredore required to keep on sale and on of these places are remote from railroads, the freight in many cases costing as much as 15 per cent. The contract requires that the books shall be said state, and in order to do this and to place all sections of the state and all tion, supply large stocks of books for which there may be no demand, and which are titimately returned at our prices specified in the contract are the muximum prices allowed to be charged by the retail dealers for the books. man) praces in the states and at Portland tire books are sold at catalogue prices. We also mail the books, portage

catalogue prices. Our oppenents are rival publishing houses, or their agents or their partiin all fairness why a change should be made. A change in publishing houses prices of all standard text-books are alike. It would not benefit the schools, because our publications must be conceded to equal in educational merit those uniform series of books adopted for definite periods. In no other way can favorable prices be secured or the peopie he protected from frequent and expensive changes. Our books are in use in the schools of the state. Large numbers of them, amounting to many thousands of dollars, are the property of the echool patrons. These would become valueless if a change were made. It is manifest folly to suggest a change on For example, 30 per cent, or 30,000, pupils in Oregon are in the grade that use a Fi st Reader. If a change were made, the people would necessarily have dates elected. to purchase 30,000 of the new First Readers. No standard First Reader is sold at less than 20 cents, most of them up in the morning as fast as you can," at 25 cents. In other words, it would cost not less than \$6000 to buy a supply of new First Readers alone. Our sales books for 1896 and 1897 show that we have sold annually out 6000 First Read- little pills for constipation, sick headers in Oregon, which at a retail price of ache, liver and stomach troubles. 25 cents would be but \$1500. In fact, a large percentage of these books were sold at a catalogue price of 20 cents. First Readers, therefore, cost the people of Oregon less than \$1500 per year, while it would cost at least \$6000 to buy a supply of a new kind. An annual sale of 6000 as against 30,000 First Readers in use, means practically a renewal of these books but once in five years, the same readers serving five successive classes at a nominal cost to the pupil after first purchase. Again, 40 per cent of the pupils in the public schools study reography. There are two books in use.

There would, therefore, be 40,000 pupils in these classes, one-half in the elementary and one-half in the advanced book. Twenty thousand pupils purchasing an elementary geography, if a new book were introduced displacing the one now in use, at 60 cents per copy, which is the price of all standard geographies, regardless of the publisher, would cost the state \$12,000. Yet the annual sales of Monteith's Elementary Geography, the book now used in our schools throughout the state, is but 4421

nee and show exactly what the expense of a change of text books would be. The total would be not less than \$250,000. That is the sum the people of Oregon would have to pay out for books the first year if the text books were changed. Under the present system the annual cost of books is less than \$48,000. The sales of text books in this state are nor-The books have been in use for a number of years, the people are well supplied, and the sales each year are only to fill in and renew books actually worn out in the school room.

These figures prove the saving to the people by continuing in use the books they have on hand. The conditions throat, chest and lungs. Call at the now are similar to those xisting four years ago when the present books were readopted. The public then almost unanimously opposed a change. They \$1. Guaranteed to cure or price redid not then, nor do they now, wish to funded, incur the expense which a change of text books would involve.
