

THE WEEK'S CAMPAIGN IN EASTERN CUBA

Principal Results Attained Was the Demolition of Santiago's Outer Forts and Occupation of Guantanamo Harbor.

OFF SANTIAGO, June 17, via Kingston, June 18.—The week's campaign in Eastern Cuba resulted in the practical demolition of the outer fortifications of Santiago in anticipation of the arrival of troops and occupation of the fine harbor of Guantanamo, in which today are anchored such magnificent ships as the Oregon and St. Paul, together with the Marblehead, Dolphin, Suwanee and eleven other auxiliary gunboats, colliers and press dispatch boats in an average of seventeen fathoms of water.

Military residence to definite occupation practically ceased since the bombardment of Wednesday.

An intercepted official report of the Spanish military commander indicates that his military resources are exhausted. His soldiers are now on half rations. There are supplies only for the remainder of June. The commandant has already seized all private drug supplies, in order that they may be bestowed on the soldiers.

The insurgent forces armed and equipped by Captain McCalla not only proved daring scouts, but turn out to be brave fighters and good shots with Lee-Metford rifles. Our own men are warm in their praise and look for unexpected strong co-operation on the part of the Cuban army.

GOMEZ AWAITING A SIGNAL

Forty Thousand Troops Ready to Cooperate With the Americans.

New York, June 18.—Captain Rafael Conte, of the Cuban army, has arrived at the Cuban junta here with dispatches from General Gomez. He was accompanied by a lieutenant of the army of liberation. Captain Conte and his companion left Gomez in Las Villas. The general then had with him a body guard of only sixty men—a cavalry escort. There was but little food in the region where Gomez was making his headquarters, so he did not mass any large body of men there, but had them spread over a large territory and directed their movements from headquarters. He has all arrangements made for the concentration of the troops when the proper time comes, but keeps them scattered and employed in a guerilla warfare in the meantime, so that they may find food.

The captain claims that Gomez can concentrate 40,000 armed men in a short time at any desired point. There are several thousand men who are attached to Gomez' army, and are only waiting for arms to be available for offensive or defensive operations.

In a skirmish with guerillas about three weeks ago, Gomez was wounded in the left arm by a Mauser bullet. The wound healed quickly, however, in spite of the general's advanced age, and when the captain left headquarters the old chief was able to use his arm as well as before he was hit.

It is understood that a definite plan for the co-operation of the troops under Gomez with the United States troops when the time for co-operation arrives, has been arranged between the general and the war department at Washington. Meantime Gomez will keep his forces scattered.

Captain Conte says that from information received from Gomez' spies, it

is known that in all the garrisoned towns held by the Spaniards, sickness is making great havoc among the troops. The hospitals in Havana are so overcrowded with sick that proper medical attention cannot be given.

The coal supply of Havana is nearly exhausted, and has been taken in charge by Blanco, who has his officers supervise its consumption. The electric light company recently received an order to shut off their dynamos at 9 o'clock so that coal might be husbanded. After the hour at which the light works shut down, Havana is in darkness.

From time to time as it becomes necessary one or more coaches will return with sick or wounded soldiers, sailors or marines, who will be taken to Fort Myer, Va.; Fort McPherson, Ga., and other points where there are army hospitals. Those whose condition demands a high altitude will be removed to Asheville, N. C. The coaches which remain at Tampa will be used as a receiving hospital.

PRESIDENT DOLE HOLDS A GRAND RECEPTION

Officers and Men Highly Entertained by the Hawaiian Executive and the Ladies of Honolulu Fed Them Most Lavishly—Expedition Again Under Way for the Philippines.

VICTORIA, B. C., June 18.—Advices today per steamer Miowera from Honolulu, June 10, say the United States transports City of Peking, City of Sydney and Australia arrived there together June 1. As soon as the three vessels were sighted, all Honolulu turned out to welcome the soldiers. The docks were lined with people, and as the vessels entered the harbor the spectators yelled themselves hoarse. Such a scene of enthusiasm has never been witnessed in Honolulu.

When the vessels docked it was late, so the order was given to allow no one ashore, but the next morning about half of the troops were allowed to land. During the day they were given the freedom of the city. The men visited Waikiki and other points of interest, and had a pleasant time generally.

At noon President Dole and his cabinet received the officers of the expedition. During the reception the steamers and grounds of the executive building were thronged with people.

On June 3d the soldiers were entertained on the grounds of the executive building. President Dole was on hand to welcome them. The utmost freedom prevailed, the affair being very informal. To each man the chief executive gave a word of welcome to Honolulu. An outdoor luncheon was served by the ladies of this city.

The transports left for Manila June 4. The Charleston steamed outside and waited for the fleet, consisting of the Peking, Australia and Sydney, which got away about 10 o'clock with the Charleston in the rear. While the vessels were in port they took in the neighborhood of 1800 tons of coal.

Of the 2500 men among the various vessels, but two desertions were recorded, and they were from an Oregon regiment. Two men were left behind, one was discharged for disability and the other is in a local hospital.

The voyage down was pleasant and the vessels traveled abreast most of the way, although it was necessary for the Peking and Australia to slow up and wait for the City of Sydney.

Eight cases of measles broke out on the Australia. The sick men were separated from the other passengers on the ship by being quartered on the hurricane deck, and the surgeons had the cases well in hand when the vessels arrived.

RASH ACT OF A LOVESICK SOLDIER

Three Times Shoots the Woman Who Has Jilted Him—The Assailant Taken to Jail.

MINNEAPOLIS, June 18.—Emma Auckland, a woman barber, was shot and seriously wounded by John Knott, a private in company D, Seventh Illinois infantry. Knott fired three times at the

woman, and each shot struck her in the hip. The murderous assault will not prove fatal, although Knott admits that he shot at her heart. The woman is at the hospital, while Knott is in jail.

The shooting had been planned, and Knott traveled 1500 miles to accomplish his purpose.

Miss Auckland is employed at a barber shop in this city. Knott arrived today from Camp Alger, where his regiment is located. Calling at the barber shop, he stepped up to Miss Auckland, addressed her by name, and asked her to shave him. She refused. They talked for a few minutes, when suddenly Knott drew a revolver, and before anyone could interfere he fired three times at the woman. Knott gave himself up to the police.

Knott says he became engaged to the girl in Chicago, but after he went to Camp Alger she wrote him a cruel letter breaking the engagement. He said if she died he would soon follow her.

A dispatch received from Camp Alger says that Private John Knott, company D, had overstayed brief leave three days. A description of the missing man, naming him as a deserter, has been sent to the police in all near-by cities.

NEGRO MINERS TO BE IMPORTED

Colorado Coal Operators Determined to Open the Mines.

DENVER, June 18.—The owners of the coal mines in Northern Colorado, which have been closed for the past two weeks on account of a strike of miners, have decided to pay off the men today.

A last appeal will be made to the men to accept the wages offered, and, if the proposition is refused it is said negroes will be imported to take the places of the strikers. It is understood that negroes are favored because the miners' union does not admit colored men to its membership. It is thought that this fact will prevent the strikers from inducing the new men to come out.

It is predicted that if the mineowners bring negroes to take the places of the striking miners, serious trouble will result. The sheriff of Boulder county, where most of the Fortner coal mines are located, has assured the mineowners that he will use every effort to protect their property in any event, but should he fail a call on the governor would be unavailing, as there are now no troops in the state.
