The Fourth is near at hand. Buy your oranges, lemons, nuts, etc., of The Dalles Commission Co.

Owing to the fact that the third falls on Sunday and the Fourth will be on Monday, collection day will be postponed until Tuesday the 5th.

A telegram dated at Ogden from Rev. Mr. Butcher states that a freight wreck near that place would delay his train so that he could not be in the city before Monday.

On Sunday, the third, Andrew Kellar will give a bunch of fire crackers to each boy purchasing 10c worth of his fine roasted peanuts. This is a rare bargain. Do not miss it, boys.

Rev. A. Tenny who is the organizer of the Congregational church in this city, will arrive on the Regulator this evening and conduct services in the Congregational church tomorrow.

The farmers west of The Dalles are busily harvesting their hay crop. The yield is up to the average. A few have cut their wheat for hay, believing that there is more money in hay than in grain.

C. J. Stubling has just received a large shipment of genuine orange wine, which he will retail either by the pint, quart, gallon or bottle. This wine is superior to the grape product, having a very mellow flavor.

The county roads leading into The Dalles from the Chenoweth neighborhood are in better condition than ever

known. The traveling public can enjoy a pleasant ride by either road and with very little dust.

This morning Roe Grimes will ship three carloads of beef cattle to the Union Meat Co., at Portland.

A meeting of Mt. Hood Hose Co. was held at the hose house last evening. The members of the company decided to turn out in full force on July 4th, which will help swell the magnitude of the parade.

All former members of the Oregon National Guard and any others who would care to join in the procession on the Fourth are cordially invited to do so. Caps and muskets will be given to all who take part.

The rains of the last month have improved crops to such an extent that farmers who were feeling blue are now beaming over with joy, and are satisfied that a failure in Wasco county is an "unknown quantity."

Married, at the residence of the bride's parents, Mr. and Mrs. J. C. Johnson, near Liberty, Wasco county, June 30, 1898, Myron D. Farrington, of Fairfield, and Miss Lydia Johnson, Rev. W. C. Smith officiating.

An official program for the Fourth of July celebration in this city has been arranged by Joe Heroux. It is neatly arranged and contains the order of parade, names of the officers of the day, the order of exercises and the program of the fireworks. They will be very convenient on the Fourth, especially for strangers in our city who are not familiar with the plans of the celebration and the places in which it will be held.

venient on the Fourth, especially for strangers in our city who are not familiar with the plans of the celebration and the places in which it will be held. On the front is a beautiful American flag in three colors, while the program is printed in red, white and blue.

During the last week the run of salmon on the upper river has been very encouraging. Traps and operators of nets have been making good catches, and the canneries are kept busy disposing of the fish. Along with what is being canned, a considerable amount is sent to the eastern markets.

There will be a meeting of the Fourth of July executive committee at 9 o'clock this evening (Saturday) at the club rooms of the D. C. & A. C. Also at the same time chief marshal and chief of division, together with the following members of special committee on program: Crandall, Gavin, Lewis, Douthitt and Riddell.

You and I and our neighbors are quick to judge a man by his appearance. If he looks the vagabond we want nothing to do with him. We should expect, then, to be judged by the same standard, and remember that there is no excuse for unsightly dress, now that Pease & Mays are selling the famous \$10 H. S. & M. suits for \$7.85.

The splendid new flag which will be donated by the contractors, architects and workmen as well as the firms who furnished the material for the new school building, is on exhibition in Nickelson's window. It is a beautiful article, its dimensions being 10x20 feet and when raised in place on the 4th can be viewed from all parts of the city.

Last night someone entered the residence of Henry Rodman, on Front street, near the Umatilla House, and stole \$8.00 in silver, a coat, a pair of blankets and some other articles of clothing. The entrance was made through the rear by ascending a ladder to the back door. Diligent search was made for the thief, but he was not located.

T. T. Nicholas is sinking the shaft on the Crate farm to strike the immense deposit of coal imbedded under the mass of volcanic lavas along the banks of Chenoweth creek. With the two enterprising companies working at the unearthing of this great commercial commodity there is no doubt but The Dalles will soon have a large list of miners flocking in to assist in getting the coal to market. The coal is down there.

Some 600 laboring men, who have been at work on the O. R. & N. track on the Upper Columbia, will soon be laid off. Superintendent James O'Brien has been doing a good deal of repairing between The Dalles and Wailula since early spring, and the works are now nearly completed. Construction trains have been side-tracked at various points, while the men were raising track, putting in sleepers and rails and ballasting the road with gravel from the adjacent gravel beds. Most of the men will remain in Eastern Oregon for the harvest, but many will work their way to Portland during the next few weeks.

Early yesterday morning someone who has since adopted the name of John Doe, was enjoying himself near the Commercial Club and testing his lung power by an occasional war whoop between times. The exertions of his friends and that of the Chronicle force which were at work in the office near by, to quiet him were to no avail. He said he would not be caught and wanted to run. He soon had the opportunity of his life, for about that time Night-watcherman Wiley was sighted in the dim moonlight coming through the alley. He ran and ran fast, but the nightwatchman kept his lamps on him and located him in the rear of the Midway saloon. Yesterday morning John was brought before the recorder and charged \$5 for the space he occupied.

The sheep shearers at Hanna's have completed their labors and the wool has been hauled to town. The sheep are being driven to the mountains where grazing is in good condition.

A. M. Kelsay has the coal boring machine on his farm and intends to commence boring for coal in a few days. Owing to the amount of "boring" he was compelled to do before election in town, is one reason for the delay in commencing sooner. If he is as successful in getting coal as he was getting the clerkship he will have coal to burn.

Look out for the Chenoweth creek delegation of tun-makers who will visit The Dalles on the Fourth to assist in celebrating the day of independence and the battle of Manila bay. Hip! hurrah! for the glorious Stars and Stripes!

FOOTBALL.

There have been six games of football between the State University of California and Stanford; Stanford has won three games and the other three games have resulted in ties. In all other intercollegiate contests Berkeley takes the lead—especially in musical matters. Stanford has tried year after year to get a glee club that would compare favorably with the one from Berkeley—but she has never succeeded. The concerts given by the Berkeley boys are on a par with the concerts given by eastern university musical clubs, and no one should fail to hear the concert given by the Berkeley students on next Wednesday night.
