THE HAWAIIAN WELCOME.

It has been urged by the opponents of the annexation of Hawaii that the inhabitants of the islands, taken as a whole, had no desire to become citizens of the United States. This cannot longer be used as an argument. Two of the expeditions to Manila stopped a few days at Honolulu and were greeted with general enthusiasm. All classes joined in the greeting with general enthusiasm. All classes joined in the greeting, bled on the wharves. The whole city was decorated with the United States flag. When the troops went ashore they were feasted and received everywhere with manifestations of the most cordial good will and generous hospitality. If the soldiers had been out on a holiday as the special guests of the little republic, no greater pains could have been taken to make the occasion enjoyable.

There cannot be the least doubt concerning the feeling toward annexation on the part of 90-100ths of the Hawaiians. They have weighed the question and taken their stand finally for a future share in the institutions of the United States, the nearest neighbor able to protect them, and the one whose form of government best suits their aspirations.

A Honolulu paper speaks of Hawaii as hitherto "a waif upon the waters of the Pacific," but soon to be a community of "free citizens of the greatest republic the world has ever seen." This destiny is now assured. The logic of events, as often happens, has outrun legislation. Hawaii has most willingly given our armed ships a friendly haven, coal facilities and all supplies that were wanted. Its welcome to the troops was thrown in for good measure. By taking this course it incurs the enmity of Spain, and a responsibility to other powers for any damage to their property on the islands that Spain may inflict. In accepting such important and comprehensive favors from an independent state, the United States is morally bound to protect it from resulting danger and injury. Hawaii, in a military sense, has become as much our ward as if it had been annexed. The sensible course, now that the vote has passed the senate, is to face our duty with a perfect understanding of its nature.

"Not a man flinched," says Col. Roosevelt in speaking of the fight at La Quasina. Yet two months ago these heroic soldiers were private citizens. The history of the American volunteer is that he always rises to the occasion.

Inventor Holland states that his submarine boat is ready, and that he is anxious for a practical test at Santiago or Havana. The government should not turn him away on a mere supposition that he is a visionary.

The exports of American manufactured articles in June amounted to \$27,000,000, or \$9,000,000 more than the imports. A manufacturers' balance in our favor is becoming an established feature of business.

A submarine cable to Hawaii is one of the necessities of the day. The Pacific ocean is belated in the matter of telegraphic communication. The Atlantic cable represent a capital of \$85,000,000.

France has had thirty-six ministers in less than twenty-eight years, and so many cabinet crisis that the count has been lost. The chief qualification for keeping up with French politics is activity.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.
