James Smith, a shepherd for Adams & Wells, whose ranch is 35 miles from Pendleton, had a lively fight with a cinnamon bear recently. Two shots from Smith's rifle made the bear mad, and he charged and handled Smith roughly. Smith's dogs came to the rescue and drove the bear off. Smith was badly scratched and clawed, but escaped serious injury.
Dispatches received from Michigan yesterday in connection with the O. D. Taylor case, state that the case which was appealed to the supreme court had been decided in his favor. Several months ago after the long trial in Saginaw, Mr. Taylor was found guilty of obtaining money under false pretenses and appealed to the supreme court with the above result. This will be quite a

pleasant surprise to Taylor's friends as they had little hopes that such a decision would be given by the supreme court of Michigan.
The funeral of the late George P. Morgan will take place from Fraternity hall at 6 p. m. today. All friends of the departed are invited to be present.
Monday a runaway couple was arrested at Arlington. The woman was the wife of John Welsh, a baker of Portland, and had ekipped out with a fellow who had the appearance of a hobo. When arrested Mrs. Welsh tried to take her life with an overdose of laudanum, but was saved by the doctors. She was taken back to Portland by her husband.
Letters received from the eighteen recruits who left several days ago for Frisco state that their trip was uneventful and that they all arrived safely and in good health. When they reached there they were met by the ladies of the Red Cross society who entertained them and furnished them with a splendid lunch as well as necessary articles to make them comfortable during their stay.
The wheat crop of Umatilla county is ripening very rapidly, and within ten days harvesting machines will be seen in operation in every part. Various reports are coming in and estimates being made as to the probable yield of fall and spring wheat, but even the lowest figures place the crop equal to and above that of last year, and much better than in many preceding years, says the Pendleton Tribune.
From arrivals from Antelope we learn that Mrs. Thos. Condon, daughter of W. N. Wiley, of this city, and her little daughter were severely burned in the recent fire at that place. It seems that they were rooming in the Masonic building and met with the accident while attempting to escape. Mr. Condon lost something like \$100 in coin, which they had in their room. Outside of this, no serious accidents are reported.
The fifth annual assembly of the Willamette Valley Chautauqua Association began Tuesday morning with the largest first day's attendance in the history of the association. At 11 o'clock the assembly was opened with the invocation by Rev. M. L. Rugg, of the First Baptist church, of Oregon City. An address of welcome by President Miller followed. Governor-elect T. T. Geer responded to the address of welcome. The numbers on the program were enthusiastically applauded, and responses to encores were the rule. Headquarters and campers' tents are more numerous than ever before, and more are going up. It is already evident that this will be the greatest Chautauqua assembly ever held at Gladstone Park.

RICH RESOURCES OF THE PACIFIC NORTHWEST

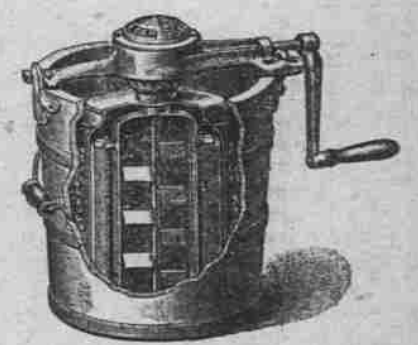

Its Products Will all Be Shown at the Oregon Industrial Exposition in Portland, September 22.
That Oregon, Washington and Idaho are entitled to be rated as among the most productive and resourceful states in the union, will be abundantly proven by this season's magnified crop.
The world wants evidence of all this, and it will do the world good and do good to the whole Northwest and all its people. These people are the ones to furnish this evidence, and they can do this by taking an active interest in the Oregon Industrial Exposition, to be held in Portland, September 22 to October 22, 1898.
The success of the exposition is already assured; enterprising men of affairs are at its head, and the various committees are working in a way that insures the best exposition ever held in the Northwest.
Gold, silver and bronze medals and diplomas will be awarded for the best exhibits, and the farmers and producers who send exhibits will be doing good work for themselves and the whole north Pacific coast—work that will result in bringing here, people and wealth and development.
It is intended to have on exhibition a sample of every variety of grain and grass that grows in the Northwest, and full particulars as to its growth, yield, etc., which information will be interesting and instructive to all.
The exposition management will take to Portland free of charge all exhibits; shipping tags and full particulars will be sent upon request to Secretary Industrial Exposition, Portland, Or.
The exposition is going to be a great attraction, and one of its many excellent features will be a first-class band, rendering better music than has been heard in Portland since Liberator's engagement seven or eight years ago.

THE DALLES STEAM LAUNDRY

An Industry Which is Proving a Success—Number of Hands Employed—Work Done.
A few months ago when the steam laundry opened under the present management, many of our people thought that it was a venture that would prove anything but a success. In this, however, they were mistaken, since the laundry has proven by the amount of work secured, as well as the splendid manner in which it is done, that it will be successful in every regard and continue to gain the patronage not only of the people of this city, but also of the smaller towns in Eastern Oregon and Washington.
At present ten hands are employed in the laundry, and at times additional labor must be put on in order to do the work.
People who have patronized Portland laundries for years have changed and given their work to the home plant and say that it is satisfactory in every regard. It could scarcely be otherwise, however, as their machinery is as good as can be found anywhere, and the head lady has had years of experience in the business, understanding it thoroughly.
The people of this city are anxious for home industries, so that many who are at present out of work can gain employment and that the monthly pay rolls will increase. Unless this industry is patronized, there will be little inducement to start others, and the proper stimulus is the undivided patronage of our people.
Salvation Army.
Brigadier Marshall, commander of the Northern Pacific division of the Salvation Army, accompanied by Staff Capt. Willis, Ensigns Park and Wilson, will visit The Dalles on Saturday, Sunday and Monday, July 16th, 17th and 18th. The two ensigns are very sweet singers. On Saturday night the principal feature will be an international march, each different nation being represented. All day Sunday will be great spiritual feasts. You can't afford to miss them. Monday evening will be the fourth anniversary of the Salvation Army in The Dalles. A big time is expected. Some local officers will be commissioned. All meetings will be held in the army hall, on Washington street, led by the brigadier.
A collection will be taken at the door Saturday and Sunday evenings to help with the expenses. Everybody come.
Yesterday Drs. Belle C. Reinhart, Logan and Sutherland held an autopsy over the remains of the late Geo. Morgan, in accordance with a request made by Mr. Morgan a short time before his death. In the course of examination it was found death had resulted from blood poisoning caused by the failure of one kidney and the intestines to perform their functions. The right kidney was almost gone while the intestines in the lower part showed much adhesion and an accumulation of pus. The whole trouble was caused by an attack of appendicitis several years ago.
Those who came up from the scene of the Regulator wreck yesterday state that the damage to the boat is not as serious as was at first feared and it can be repaired without any great amount of expense or trouble. The D. S. Baker has been leased and will be used for the time being and will be up tonight if it can make the rapids.
