## A Serious Hitch Has Occurred In the Negotiations With Toral

### Spaniards Want to Retain Their Arms--Shafter Has Been Cabled By the President to Make No Further Concessions.

WASHINGTON, July 15.—A serious hitch has occurred in the negotiations for the surrender of General Toral and his forces at Santiago. Shafter cabled the war department that Toral, who surrendered with the sole stipulation that his troops should be transported to Spain, now demands that they be permitted to retain their arms. The president, after a conference with several of the cabinet officers, sent instructions to Shafter to make no concessions further than those agreed to. If Toral persist in his demand hostilities will be resumed. Despite the fact that everything pointed to a settlement of the strife, three more transports loaded with troops, signalmen, supplies and ammunition, left Tampa late this afternoon for Santiago.

### THE CAROLINES WILL BE ANNEXED

Such Are the Indications at Present--Third Expedition Delayed by Trouble on Board the Indiana.

HONOLULU, July 8.—Since the arrival of the Monterey it has been rumored among Honolulu officials that the Stars and Stripes would be floating over the Caroline Islands before the Monitor reached Manila. Captain Lenz borrowed charts of the island and harbors from the captain of the missionary steamer, Morning Star, and other preparations that were made here point to what is generally believed to be the intention of the United States to seize these Spanish possessions.

The third expedition was delayed here some time by the Indiana, which had to return to Porto Rico after the fleet had sailed because of a bad leakage in her boilers. Three of the other transports came with her; but the Newport, which is conveying General Merritt the Philippines, was so far ahead of the rest of the fleet when the accident occurred that she could not be signaled. The fleet was delayed over twelve hours.

### Many Prisoners Ill.

PORTSMOUTH, N. H., July 15.—The auxiliary cruiser Harvard, having on board 1008 Spanish prisoners, arrived this morning. An investigation disclosed the fact that nearly half the men on board are ill. Six Spaniards died on the passage, another death occurred this afternoon, and three patients are

not expected to live. There are eighty serious cases in various portions of the ship. All the patients are said to be victims of malarial fever. The physicians will make a further inspection of the vessel and determine whether or not she shall be sent to quarantine.

### Robbed the Grave.

A startling incident of which Mr. John Oliver of Philadelphia, was the subject is narrated by him as follows: I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fail to try them.

### THE BENNINGTON SAILS FOR ALASKA

Reported That Her Mission in Northern Waters Will be to Act as Consort to Treasure Ships.

SAN FRANCISCO, July 15.—Referring to the mission of the gunboat Bennington, which sailed yesterday, the Examiner says:

"She will next be heard from at some port on Puget sound, possibly Port Townsend. It is rumored that definite knowledge has been received regarding the whereabouts of the Spanish privateer of which considerable mention has been made. Several vessels laden with gold are expected from St. Michaels. "The gunboat Wheeling was sent to that port some time since to guard American interests there. Just how the warships may act in conjunction is not given out, but it is believed that the Bennington will divide the work of patrol duty with the Wheeling. The latter might accompany the treasure ships part of the way down, and the Bennington continue the voyage to this or the sound ports."

### PLANS MADE TO SEIZE PORTO RICO

General Miles Will Leave Shortly With That End in View—Wilson's Division Will Assist.

WASHINGTON, July 16.—It is announced that General Miles will start for Porto Rico within a week. With the president's approval he perfected all arrangements for his expedition to seize that island some time before he left Washington, and the plan will now be promptly carried into effect.

Orders have already been sent to Admiral Sampson to render General Miles the hearty assistance of the navy in effecting a landing in Porto Rico, and a number of vessels of the fleet will start for the island at once to institute an effective blockade and reduce such fortifications as might interfere with the debarkation of the military forces.

It is almost certain that most of the artillery of the Fifth corps will of necessity accompany the Porto Rican expedition, as well as a good part of the regular infantry, while nearly all the volunteers and the dismounted cavalry will return home. It is also determined that Major Wilson's division will embark for Porto Rico from Atlantic ports within the next four or five days. This division, including the commands of Brigadier-Generals Ernst and Haines, consists of the following volunteer regiments:

The Third and Fifth Illinois, Fifth and Sixteenth Pennsylvania, Second and Third Wisconsin, First and Third Kentucky and Fourth Ohio.

Several of the so-called immune regiments have received preliminary orders to hold themselves in readiness to go to Porto Rico, while the two regiments at New Orleans and Galveston, recruited from actual immunes, are to be sent at once to Santiago to garrison the country surrendered to the United States.

### A Panic at Porto Rico.

ST. THOMAS, D. W. I., July 15.—Advises received from San Juan de Porto Rico show that the inhabitants of that place are greatly alarmed. They expect the port will be attacked by the Americans today. The terrified inhabitants are fleeing into the interior.

### AN AUSTRALIAN LINER PURCHASED

The Australian Ship Culgoa Is Being Fitted Out for a Cruiser.

VANCOUVER, B. C., July 15.—Australian mail advices by the Warrimoo contain a report that the magnificent Lund line steamer Culgoa has been sold to the United States. The report also states that she is being fitted out for a cruiser.

It is said that Japanese Consul-General Parsons has notified the colonial governments of Australia that Japanese capitalists contemplate buying large tracts of land in Australia with the intention of settling Japanese immigrants on them. The reports received are said to have indicated in rather plain terms that Japanese immigration was not desired. The stoppage of immigration from India is also contemplated.

Although the Australian colliers are being operated to their fullest capacity, the supply of coal is not equal to the demand. The exports to San Francisco have been doubled to meet the requirements of war vessels.

Persons troubled with diarrhoea will be interested in the experience of W. M. Bush, clerk of the hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duty at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by Blakeley & Houghton.
