## German Gunboat Irene Is Reported Sunk

### A Rumor States That the German Warship Has Been Sunk.

NEW YORK, July 19.—A well defined rumor was afloat at midnight to the effect that the German Gunboat Irene had been sunk by Admiral Dewey, while attempting to run the blockade in Manila bay. She had been previously warned, as this was not her first interference.

## GERMANY REPORTED TO BE QUIETING DOWN

### Manila Has Been Completely Blockaded—Insurgents are Anxious to Begin the Attack—Second American Expedition Has Not Yet Arrived.

HONG KONG, July 18.—Reports brought from Manila by steamer state that as a result of a correspondence between Dewey and the admiral of the German squadron, growing out of the incident in Subig bay, the actions of the Germans are now such as to greatly lessen the tension which their conduct created among the American fleet.

General Anderson has had several companies out traversing the country in the vicinity of Augusti's garrisons, familiarizing the men with the character of the country and getting them accustomed to the conditions under which the insurgents are fighting.

A complete blockade is in force, and supplies in the besieged city are growing alarmingly scarce. Aguinaldo sent one of his aides to Augusti Friday with the proposition that the captain-general surrender or he would bombard the city.

Augusti was told that it was only by the exercise of the severest discipline that the insurgents were held in restraint, and if a general attack were commenced Aguinaldo would not be responsible for any acts committed by his followers.

A proposition was made to submit the question of the independence of the Philippines to the powers, after surrender, under republican form of government. Augusti's reply is alleged to have been the statement that he would have to fight, no matter what the consequences.

The insurgents are bringing all their artillery from various parts of the island and placing their guns in the most advantageous positions about Manila. The insurgents are becoming very impatient over the delay in ordering an attack on Manila, and fighting is now expected to begin at any moment. The Second American expedition has

not arrived yet, and it may be decided to await the coming of General Merritt before beginning operations.

When the steamer left Manila a Spanish ship had just been brought in by the insurgents, on which a Chinese crew had mutinied. All the Spanish officers had been killed.

An incident which shows the kind of timber of which Admiral Dewey is made had just occurred. The German gunboat Irene attempted to pass the blockade, and, on being hailed, paid no attention whatever to the warning. A shot was fired across her bow and a small boat from one of the American warships went aboard to inquire as to what were her intentions. The German admiral protested that warships had a right of free entry, which Dewey informed him would not be entertained.

It is reported that the admiral inquired of the of the British captains what he would do if the Germans had trouble in the harbor. The reply of the Britisher is said to have been, "Only Dewey and myself know."

## RELIEF EXPEDITION CALLED FOR

### Hundreds of Miners Will Starve on the Copper River if Steps Are Not Taken to Aid Them.

SEATTLE, July 18.—Captain .Ambercrombia, U. S. A., recently returned from Valdes, Copper river, has filed an official report saying that hundreds of miners are stranded on Copper river and will starve or freeze to death the coming winter if the government fails to send a relief expedition. The men have lost their outfits trying to navigate Copper river, or in the terrible avalanches at Valdes glacier.

### The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Colds and Coughs is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Trial bottles free at Blakeley & Houghton's.

## POWERS ABOUT TO INTERVENE

## ARRIVAL OF THE STEAMER SAMOA

### She Brings About \$400,000 in Dust and Nuggets—Report that but one of the River Boats Reached its Destination.

SEATTLE, July 18.—The steam schooner Samoa reached here late tonight with 38 Klondikers who had between \$300,000 and \$400,000 in dust and nuggets. She brings the report that only one of the great fleet of river boats and barges that started for the Yukon have ever reached St. Michael, the others having gone to the bottom of the sea.

The official estimates place the output from the Klondike not more than ten million dollars. Most of the treasure fleet is now on the way from St. Michaels. Hundreds of disgusted miners are at St. Michaels eager for an opportunity to get back to civilization.

Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man.
