

## THE INDIANS ARE WRATHY

They Will Attempt to Prevent Shafter's Army Staying at Montauk Point—A Legal Contest Likely.

New York, Aug. 6.—The Times says: There is a likelihood of a legal contest growing out of the establishment of the new camp at Montauk Point. Scott and Treadwell, of this city, attorneys for the Montauk tribe of Indians, has served notice on United States attorney Griggs that they claim ownership of the land, and protest against dealings for possession of the point by the United States government with the Long Island Railway Company.

Former Judge Scott said last night that the notice was served because his clients did not wish to be held guilty of laches by failure to assert their right at all times when their rights were ignored. "If the United States government fails to recognize the rights of the Indians," Judge Scott said, "proper proceedings will be instituted to compel it to do so. The railroad has no title to this land, has been from the beginning a trespasser, and so will be the government also if it occupies any part of Montauk Point covered by the claim of the Indians, unless the occupancy is authorized by the Montauk tribe."

The campaign in Porto Rico is progressing and conditions at Santiago are improving. There will be little surprise here if consummation of peace arrangements brings about a change in the Spanish cabinet by concerted movement among leaders to institute a cabinet representing all elements, capable of taking responsibility before the country of acceptance of the American terms.

# Spain's Acceptance is Expected Almost Immediately

## The Spanish Cabinet Discusses the Terms—Sagasta Has His Hands Full Molding Political Sentiment.

WASHINGTON, Aug. 6.—Spain's answer to America's terms of peace has been expected at any moment today. Dispatches from Madrid say that the answer is likely to be one of acceptance. Everything is in a state of expectancy, as no direct information as to the answer has been received. A report from Madrid said that the cabinet council would go over the reply today.

All reports indicate that Sagasta is trying to reconcile the different political elements through their leaders. Doubtless officials will give him time for this difficult work that he may mold sentiment up to an acceptance of our demands.

One of the most destructive fires in the Inland Empire in many years occurred at Dayton, Wash., yesterday morning, when six large warehouses, containing 90,000 bushels of grain, five loaded cars of wheat and 75,000 empty sacks were consumed. The total loss amounted to over \$90,000, and the insurance was but \$10,000. The Hamilton-Rourke Warehouse system was the heaviest loser, its loss being two warehouses, 18,000 bushels of wheat and 50,000 empty sacks. The W. & C. R. lost 50,000 bushels of grain and one warehouse, and A. Engle two warehouses, 12,000 bushels of wheat and 17,000 sacks. It is not known how the fire started, but it soon got beyond the fire company's control, although it was on the ground without delay.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
