Over 200 newspaper men have signified their intention of being present at the meeting of the Oregon and Washington state press association, to be held in Spokane, August 25th, 26th, and 27th.

Russell and Roy Reed, aged 17 and 14, were drowned in the Columbia river, near Columbia beach Monday. They were playing on a raft, when Roy fell into the stream. Russell plunged in to save him and both were drowned.

The work of excavating has begun and Judge Bennett will soon erect one of the prettiest homes in the city on his lot at the extreme end of Fourth street. It is a beautiful site and the building will add greatly to that portion of the city.

Stevenson, Moffett Springs, Cascades, Clatsop and Ilwaco beaches are rivals for the honor of having the largest number of the "best people on earth" as sojourners during the heated term, while Trout Lake is not far behind as regards Dalles visitors.

The quarantine against scarlet fever, which has been maintained against a portion of the town of Mitchell for thirty days, has been abolished, the fever having entirely died out. Mitchell is to be congratulated that she is freed from this terrible disease, as it is even more to be dreaded during the hot weather.

At 6 o'clock Sunday morning the home of C. M. Hess, in Goldendale, was burned to the ground. The family escaped in their night clothes. Three young ladies made a narrow escape by plunging through the flames in the stairway. B. W. Gilmore, an aged man, was badly burned, and is now in a precarious condition. The building was insured.

The annual teachers' institute, which is to be held in the new school building on the 7th, 8th and 9th of September, is to be unusually interesting and entertaining. Superintendent Gilbert informs us that some new features are to be introduced in which all can take part and enjoy. On the afternoon of the 9th special dedicatory exercises of the new High School building will take place.

Sunday afternoon Geo. Murray, steward on the Dalles City, left the steamer to take a stroll through the city, and with

no suspicion, neglected to remove \$23 from a pocket in a pair of pants hanging in his room. Upon returning he found that the money had been taken. Suspecting Carly Keith, a waiter who had been working but a few days, he called Night-Watchman Phipman, who, finding a portion of the cash on his person, arrested him. The man was lodged in jail.

The house being erected by Mr. Emil Schanno on his lot in West Dalles is very nearly completed. It is very neat in appearance and being situated in a grove of trees, looks cool and inviting. West Dalles is coming to the front and will soon be the swell residence part of the city. Strangers invariably remark as to the number of pretty homes in The Dalles, and truly, when we consider the many conflagrations we have had, it is remarkable that such is the case. We understand a number of residences are to be built in the spring, among them one by E. C. Pease, on his lot on Fourth street, adjoining G. C. Blakeley's residence.

There is a rumor abroad to the effect that a party of "sportsmen" from near Troutdale recently used dynamite in Clear Lake in the vicinity of Mt. Hood, and killed a very large number of trout. It is said that 1100 of these fish were sent to the Portland market, and that there were many dead ones left in the lake. There was quite a party of miscreants engaged in the slaughter of trout, and their identity is known to Portland people who intend to see that they are punished. This is a most deplorable violation of the game law, and any who have a spark of honor about them would scorn to take a hand in any such proceedings.

Adolph A. Dekum, who has just returned from an extended two-months' trip through the East, finds that the people of the Pacific coast, and especially of Oregon, enjoy many blessings which they do not appreciate. First among them he mentions the climate, which, at this season, although we deem it almost unbearable, is far superior to anything he found in the East, where the heat is very oppressive and the nights are almost as warm as the day. Mr. Dekum also says: "The good ship Oregon is a great ad for our state. I told everybody that she was just like the state of Oregon—the best, the safest, and always to be found in the right place at the right time, and has no equal anywhere."

Vehicles must be scarce in our city. Our cabs, which are in evidence principally upon occasions such as marriages, funerals and "sich-like," have a formidable rival in the shape of "China Sam's" vegetable cart. Saturday night this marvel of wagon-making architecture might have been seen gliding through our streets—mostly in the shadows—the fiery steed in front being driven by a prominent young man from the East End. The cart itself was loaded with—not vegetables, but "peaches," in the shape of a number of Dalles young ladies. The young man made no attempt to dispose of his precious load and the girls seemed to like the place only hoping that the papers would "make no notice of the event." "The rich they ride in chaises," but the poor they ride in Sam's (spelt with an S, not an H) cart.
