HOW IT WILL BE GOVERNED

The Conquered Territory Will Remain Under Military Rule—Commission to Be Appointed Within Ten Days.

WASHINGTON, Aug. 13.—It is probable that conquered stations like Porto Rico and Manila will remain under military government until congress can act. It is believed the military commissions will be appointed within ten days, and will make such recommendations to the president. In fact, it is pointed out that little else can be done, for Porto Rico and Manila officially should be governed at present by the war department and a military commander. As to Cuba, it is likely so far as the United States authority is extended, it will be governed by the secretary of war and officers in Cuba under his direction.

The energies of the war department are being directed toward making the soldiers in the field and in different camps as comfortable as possible.

DISPOSITION OF THE TROOPS

General Merriam Will Send Such Troops As Are Intended for Manila to That Place.

SAN FRANCISCO, Aug. 14.—General Merriam in referring to the disposition of the troops says:

"I shall make no change in the present arrangements unless ordered by the authorities at Washington. Every man of the expeditionary forces will be sent to Manila if I am permitted to send them. I cannot say whether the journeying of the troops to the island would be construed as an infraction of the protocol. With peace an assured fact, the troops would be merely guards to preserve order. Still I look for orders from Washington settling the matter one way or the other.

GRATEFUL FOR HELP RENDERED

President Expresses Thanks to France, and Spain Sends Similar Message to Patenotre at Madrid.

PARIS, Aug. 13.—President McKinley said he was pleased that the final negotiations would be conducted in Paris after the signing of the protocol and asked Cambon to thank his government for its good offices in bringing about the terms of peace.

MADRID, Aug. 13.—The minister of foreign affairs has asked Patenotre, the French ambassador at Madrid, to transmit to his government the thanks of Spain for its good offices which have resulted in the signature of a protocol of peace with the United States.

AMERICANS WERE AGAIN VICTORS

The Spanish Refuse to Surrender Manzanillo and a Fight Ensues—Efforts Made to Stop Hostilities.

WASHINGTON, Aug. 13.—A dispatch notified Secretary Allen that a naval force sent by Admiral Sampson had appeared in the harbor of Manzanillo and demanded the surrender. The commandant of the city declined to comply with the demand and an engagement took place, which is said to have resulted victoriously for the Americans.

In view of the signing of the protocol and the suspension of hostilities, every effort was made by the authorities to stop the fight at Manzanillo. A dispatch was sent by Adjutant-General Corbin to San Francisco, directing General Shafter to get into communication with Manzanillo as soon as possible, and inform the naval commander there that hostilities were over.

A dispatch was also sent by the navy

WHAT THE WAR COST UNCLE SAM

So Far One Hundred and Fifty Millions Have Been Expended and Still the Expense Goes on.

WASHINGTON, Aug. 13.—Although the war lasted only 114 days it is estimated that it has cost the government so far \$150,000,000, of which \$98,000,000 have been actually paid out of the treasury. Beginning with March 1st, when the first increases in expenditures in anticipation of the war became apparent in the daily expenditures of the treasury, actual disbursements have been approximately as follows:

March—Army, \$600,000; navy, \$2,400,000; total \$3,000,000.

THE PRESIDENT'S PROCLAMATION.

WASHINGTON, August 12.—The president issued the following proclamation:

"By the President of the United States of America—A proclamation:

"Whereas, By a protocol concluded and signed August 12, 1898, by William R. Day, secretary of state of the United States, and his excellency Jules Cambon, ambassador extraordinary and minister plenipotentiary of France, at Washington, respectively representing for this purpose the government of the United States and the government of Spain, the United States and Spain have formally agreed upon the terms which the negotiations for the establishment of peace between the two countries shall be undertaken; and

"Whereas, It is in said protocol agreed that upon its concession and signature, hostilities between the two countries shall be suspended, and notice to that effect shall be given as soon as possible by each government, to the commanders of its military and naval forces,

"Now, therefore, I, William McKinley, president of the United States, do, in accordance with stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the City of Washington, this 12th day of August, in the year of our Lord, one thousand eight hundred and ninety-eight, and of the independence of the United States the one hundred and twenty-third.

WILLIAM MCKINLEY,
President.

"WILLIAM R. DAY,
Secretary of State."

Tomatoes Not a Disease-Breeder.

People were wont to enjoy eating a bunch of good grapes until of late years when the fear of swallowing some of the seeds and causing that dreaded disease, appendicitis, has taken away the pleasure. The same thing applies to tomatoes, and now when one sees a dish of sliced tomatoes by his plate at the table, the fear of cancer immediately takes possession of him and causes him to leave them untouched. The following from Dr. Andrew Wilson, of London, should dispel this dread: "I have received several letters of late, reiterating a question I might well be tired of answering: Do tomatoes cause cancer? But for the fact that one takes a pleasure in stamping one's foot on a misleading statement calculated to prejudice people against a vegetable food which is entirely healthful and safe, I should grow weary of asserting that not a jot or tittle of proof has ever been offered in support of the outrageous statement noted above. One might as well allege that cabbage causes cancer, for there would be no more proof to be had concerning the tomato myth. I can only repeat that the tomato is an excellent vegetable enough, and may be partaken of by those with whom it agrees, without any fear of its initiating any disease whatever."

Notice to Delinquent Taxpayers.

The delinquent taxes of Wasco county, as shown on the rolls now in the hands of the sheriff are \$60,000, an amount almost equal to the indebtedness of the county. Every citizen will doubtless admit that this state of affairs should not exist, and that all taxes should be collected. On account of hard times in the past the county court has shown leniency to taxpayers, but that leniency has reached the limit, and the court cannot wait longer on delinquents to make settlements. For this reason a warrant has been attached to each delinquent roll commanding the sheriff to collect all taxes by seizure and sale of property. With a bountiful crop now in sight, there can no longer be any reasonable excuse for the non-payment of taxes. The sheriff is bound by oath to comply with the terms of the warrants attached to the tax rolls for the collection thereof, and has no option in the matter. Delinquent taxpayers can save the cost of seizure and sale of property by settling their taxes at once.

Sheriff and Tax Collector for Wasco County.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
