Manila Falls Into the Hands of American Forces

Our Triumphant Army is Now in Full Possession of the Entire City—A Complete Capitulation.

LONDON, Aug. 15.—Manila has fallen and the American forces are in full possession. So says a report from a London business house to the Westminster Gazette.

HONG KONG, Aug. 15.—Delayed information from Manila is to the effect that there has been renewed activity on the part of the Spaniards of late, due to the belief that American resources have been exhausted and that McKinley is suing for peace. According to the same authority the insurgents throughout the island of Visayas are reported to have signified their intention of joining Aguinaldo. The German cruiser Kaiaerin Augusta has arrived here, having left Manila yesterday. She reports the situation there unchanged, but her officers are extremely reticent.

PERCY WING IS DROWNED

A Washougal Teacher Loses Her Life Amid the Breakers at Seaside, on Clatsop Beach.

SEASIDE, Or., Aug. 15.—Miss Percy Wing, a young lady about 20 years old, and a teacher in Washougal schools, was today at 11 o'clock bathing with a crowd in front of Grimes' hotel when the undertow carried her out beyond the help of her companions, and she was drowned.

Frank Russell, son of a wealthy Clark county fruitgrower, to whom Miss Wing was engaged, went half a mile for a boat, and although this took half an hour, succeeded in reaching her before she sank. Drs. O. B. Estes, of Astoria, and H. R. Littlefield, of Portland, after working on the unconscious form for about two hours, gave her up. Young Russell and his friends worked half an hour longer before they realized that she was beyond help. Russell, who recently returned from Skagway, expected soon to marry Miss Wing, and is beside himself with grief.

The deceased leaves a widowed mother, with whom she was camping here in the grove.

From the fact that the body did not sink for nearly half an hour, Dr. Estes expresses the opinion that Miss Wing died from heart shock and not from drowning. The body will be shipped to Washougal for burial.

FIERCE FIGHT AT MANILA

Americans Held Their Position—Officials Anxious as Regards the Occurrence—Precaution Taken to Inform Dewey and Merritt.

WASHINGTON, Aug. 15.—Until Manila is in closer touch with the rest of the world than it has been during the last three and a half months, officials here will be harassed by gravest anxiety regarding the occurrences in that vicinity. The last news from Manila was dated ten days ago, and described the fierce fighting of the Malate on July 31st, when the Americans held their position, which had been assaulted. Aug 3d there was cannonading all day. The Monterey arrived August 4th with the troops of the third expedition, and at the time the dispatch vessel left, preparations were being made for an immediate as-

sault upon the city. It was known that General Merritt was only awaiting these reinforcements to demand its surrender and to give notice of a naval bombardment.

Under the circumstances every precaution was taken last Friday to inform Admiral Dewey and General Merritt with the least possible delay of the informal signing of the protocol and the suspension of hostilities.

Secretary Alger is confident that the Spanish general will welcome the news and cheerfully obey the instructions cable to him from Madrid to lay down his arms, and no serious complication is expected to arise with the insurgents at present. The chief alarm relates to the sacrifice of life which may have taken place since August 3th, and to the possibility that Aguinaldo and his soldiers may have entered the city from a point on the north while the Spaniards were fighting with the Americans on the south. In that case it is feared wholesale slaughter may have taken place and much valuable property have been destroyed.

TERRIBLE TORNADO IN MINNESOTA

Much Damage Done—Seven Killed, the Crops Damaged and Buildings Destroyed.

CANBY, Minn., Aug. 15.—A tornado last night struck twelve miles north of this place, killed seven people, destroyed many buildings, and did great damage to crops. The entire family of Joseph Hutchinson, including his wife and four children, were killed. The storm was not wide in extent, but very violent. Seven people are missing, and some of them are supposed to be killed.

SEVERE STORMS IN THE EAST

Much Damage Done to Crops—Cyclone at Hamilton, Ill.—Child Dies of Fright.

St. Louis, Mo., Aug. 15.—Severe hail and rain storms occurred in Southeastern Iowa and Western Illinois yesterday and last night. Much damage was done to crops. Cornfields and melon crops were destroyed and railway bridges washed out in Iowa. The storm became a cyclone at Hamilton, Ill., and buildings were blown to pieces. At McComb, Horace Adcock, 12 years old, died of fright. At Carrollton trees and telephone wires were prostrated. The damage is heavy.

CONFLICT CLOSED IN PORTO RICO

Spaniards Receive Notice of the End of the Fighting—Fears are Expressed that Spaniards May Terrorize the Natives During Period of Negotiations.

PONCE, Porto Rico, Aug. 15.—On Saturday General Miles notified General Macias, at San Juan, by cable of the signing of the protocol, and today he received from Macias an acknowledgment of the receipt of the notification. General Miles also sent Captain Mickler, under a flag of truce, to communicate the intelligence to the Spanish commander at Aibonito.

General Miles says Albonito would have been his within four days, had not the protocol been signed.

General Miles is uncertain whether he will remain here during the period of the negotiations for the peace, but the four army columns will remain where they are until the negotiations are completed.

Fears are expressed by the natives that during the period of the treaty negotiations the Spanish troops may be given free license within their lines to terrorize the inhabitants. If it should be the case, Miles says the Americans would be powerless to interfere.

SAMPSON IS COMING HOME

Sailed from Santiago with Four Big Battleships and Two Armored Cruisers—Schley Accompanying Them on the Brooklyn.

WASHINGTON, Aug. 15.—Sampson with four big battleships and two armored cruisers of the fleet, is now on his way north, having sailed yesterday morning from Santiago. Schley is on the cruiser Brooklyn, accompanying the fleet. The ships are expected at New York the last of the week.

The navy department is considering the project of a naval review in New York harbor next Sunday, when the battleships and cruisers under Sampson will arrive there. Efforts have been made to induce the department to have It is probable that the final decision will be to have the war vessels come up the river to Grant's tomb at Riverside, and there fire a salute. The trip to the tomb will afford the public a sufficient opportunity to view the ships without tiring the sailors by a land procession.

Notice to Delinquent Taxpayers.

The delinquent taxes of Wasco county, as shown on the rolls now in the hands of the sheriff are \$60,000, an amount almost equal to the indebtedness of the county. Every citizen will doubtless admit that this state of affairs should not exist, and that all taxes should be collected. On account of hard times in the past the county court has shown leniency to taxpayers, but that leniency has reached the limit, and the court cannot wait longer on delinquents to make settlements. For this reason a warrant has been attached to each delinquent roll commanding the sheriff to collect all taxes by seizure and sale of property. With a bountiful crop now in sight, there can no longer be any reasonable excuse for the non-payment of taxes. The sheriff is bound by oath to comply with the terms of the warrants attached to the tax rolls for the collection thereof, and has no option in the matter. Delinquent taxpayers can save the cost of seizure and sale of property by settling their taxes at once.

ROBERT KEELY, Sheriff and Tax Collector for Wasco County. Dated, August 4, 1898.

Persons troubled with diarrhoea will be interested in the experience of W. M. Bush, clerk of the hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duty at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by Blakeley & Houghton.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa. For sale by Blakeley & Houghton.

A lilac bush in bloom at this season of the year is something of an oddity. J. E. Miller has one of the shrubs in his yard in North Pendleton which ceased blooming for the first crop of flowers about Decoration day. Mr. Miller then put his scheme into effect and forced a second growth of blossoms, with which the bush is now covered. He says lilac bushes can be made to bloom twice each year if a person only knows how to go about it. Many interested in the cultivation of flowers have visited this rare specimen of August-blooming lilac, and Mr. Miller has been compelled to give away more than half of the blossoms.—East Oregonian.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
