#### CROPS AND WEATHER.

Weekly Report From the United States Weather Bureau-Splendid Grain Returns In Eastern Oregon.

The mean temperature for the week averaged 70°, which was 1° higher than for the preceding week and 1° lower than for the coresponding week of last year. PORTLAND, SEPT. 22d, The highest temperature was 98°, on Wednesday; the lowest 52° during Saturday night. Sprinkles of rain and very mild thunderstorms prevailed Thursday night. The rainfall was not sufficient to lay the dust. The amount of cloudiness has increased.

Harvesting and threshing continues. The grain crop is being rapidly disposed of, though the work of gathering the crop will continue for several weeks yet.

The correspondents, as a rule, report

Products of Oregon and Washington will be displayed in wonderful profusion, including more varieties than ever before gathered together in one exhibit. The correspondents, as a rule, report most excellent returns from the grain. The warm period during the fore part Gold, Silver and Bronze Medals will be Awarded of this month was miurious to the spring grain, yet it is turning out very factory to every person.

The corn crop is making good growth; To Indian Stone Relic Collectors and it has commenced to mature. The weather has been favorable for corn throughout the entire season.

Alfalfa and clover hay continue to be cut and housed or stacked. The hay crop is, and has been, good. Fruit is making satisfactory progress. Prunedrying has commenced in many sections of the Columbia River Valley. Peaches are plentiful and are ripening rapidly. The apple crop is very large and is making good progress. The fruit trees are unusually healthy this year. Melons are very numerous and of large size.

It is seldom that an adverse report is received from any correspondent in this section of the state concerning any product.

The water supply is very low, and in some localities is a serious question; it Makes Pictures 3½x3½ inches; weighs 12½ oz will not increase until the winter rains neys and liver to a healthy activity, begin, although rain usually falls in small amounts during the latter part of

> Stock is reported to be in good condition, with fully an average amount of feed. A very large supply of hay is being secured for winter use throughout the stock country.
