Stafur Incident Leads to His Removal at the Hands of Cuban Commissioner-in-Chief, General Garcia.

His Successor Was Named

Rodriguez to Command in Santiago.

Garcia's Succeeding of His Famous Letter to Shatter a Grave Branch of Diplomacy—Cuban Leaders to Hold a Conference.

New York, Aug. 21.—A Santiago special says:

General Garcia has been relieved of his command by General Gomaz, acting under instructions from the government.

This is owing to disagreement of his action during the Cuban incident, and in view of the fact that Garcia is persona non grata with the American government, and that at the commencement of the war the Cuban officers were ordered to put themselves under the command of the American commissioner-in-chief, and therefore the letter from Garcia to Chaffee is considered a breach of protocol.

Garcia's resignation is not accepted, but he is relieved of his command. General Gomaz, commanding the east wing under General Gomaz, will be his successor.

A courier to General Lawton this afternoon conveyed the news that General Lawton will arrive at thirty minutes from Santa Cruz, with instructions from General Gomez to General Lawton: The invasion is under way.

Colonel Bay, the third regiment of Cuban troops, is reported to be in the vicinity of Santa Cruz, but the exact number of soldiers cannot be ascertained.

It is believed that the Spanish forces in the town will raise and assemble the American garrison, and their families, and be relieved by Americans.

A courier has arrived from General Castillo with the report that the governor of Port Principe ordered to march out, giving up the town to the Cubans. It is expected that the American forces will be in Santa Cruz this week, but it is not known if they will advance any further. The conference will be held at Santa Ana. The conference will be arranged for the delegates to go to Camaguey to attend the meeting of the new Cuban government.

THE OLIVETTE GOES DOWN

An Unaccountable Accident in the Harbor at Fernando de Noronha, Florida, This Morning.

Fernandez, Fl., Aug. 21.—The hospital ship Olivetite, which has been lying near the quarantine station, through some mysterious agency, all things about this curious event. It appears that the ship was in the harbor, when a crew of five men, all of whom escaped without injury, hastened in some manner. The rambunctious sleepers in the lower hold had a narrow escape, being driven from their bunks like so many rats.

Finally, we learn that there was a solemn dance, and some of the men took shots at the crew, while the rest of the crew and view sought refuge at the quarantine station.

No one appears to know what the catastrophe could have been, and as investigation has been made the matter will probably remain a mystery.

The Olivetite landed at the Fence Point of St. Thomas, and was built in Philadelphia. The ship is 413 feet long, 127, 127 deep, and registered 1101 tonnage.
