

# The Dalles Chronicle.

VOL. XI

THE DALLES, OREGON, FRIDAY, SEPTEMBER 9, 1898.

NO 153

## SAYS TURKISH SOLDIERS MUST BE WITHDRAWN

Note of the President of the Cretan Committee—Has Been Handed to the Foreign Admirals.

## RESULT OF CANDAN KILLING

Particulars of the Bloody Battle of Yesterday.

Convention of the Cretan Assembly Demanded and a Force of Cretans Placed at the Disposal of the International Administration.

CANEA, Sept. 3.—The president of the Cretan executive committee has notified the foreign admirals that in view of the massacre at Candia it is impossible to continue the effort to organize the administration until the Turkish troops and functionaries have been withdrawn. He demands the convocation of the Cretan assembly, and proposes to place a force of Cretans at the disposal of the international administration.

## THE BATTLE OF YESTERDAY.

Turkish Troops Refuse to Aid in the Restoration of Order.

LONDON, Sept. 8.—The correspondent of the Times, at Candia, telegraphing on Wednesday, fully confirms earlier reports of most serious events.

Lieutenant Haldad was killed and Lieutenant Seagrave wounded. The soldiers pluckily carried Lieutenant Haldad's body to a boat, under a hail of bullets. The telegraph office was repeatedly set on fire, and the father of the telegraph superintendent was killed.

Worse is feared. As to the fate of the majority of the Christians, it is reported that only 259 have been saved out of over 1000.

The situation was extremely difficult. The Turkish troops refused to aid the British, and there being exceedingly few of the latter in the town, they were soon overpowered. Forty wounded were attended to by the warships.

Mohammedans are pillaging Candia. Edhem Pasha, the governor, declares the mob is uncontrollable. As the dispatch goes, reinforcements are arriving on the Italian flagship Francesco Morosini.

The correspondent later says: Refugees are now coming on board the Camperdown, many of them wounded. They tell a tale of great massacre.

## UNITED STATES A NAVAL POWER

Achievements of Our Ships Will Probably Bring Foreign Contracts to this Country, According to I. M. Scott's Opinion.

New York, Sept. 8.—Irving M. Scott, of San Francisco, vice-president and general manager of the Union Iron Works, at which the Oregon was built, arrived from Europe on the Kaiser Wilhelm der Grosses and went to the Hollann house. Mr. Scott said he went to Russia to further American interests on the eastern coast of Siberia, and incidentally to crack up the performances of American-built ships of war.

"Russia," he continued, "is undergoing marvelous industrial develop-

ments in every direction. Railroads are being built and manufacturing is advancing rapidly.

"A great field of American industry is opening, particularly on the Pacific coast near the terminals of the new railway. Merchant vessels are in demand, and iron and steel will be needed, and it was to get our share of this trade more than anything else that I went abroad. My visit, I think, will result in our getting contracts for some of the new warships which are to be constructed for the Russian government.

Our naval victory at Santiago was an eye-opener to all Europe. There had been a great deal of skepticism before the war about our navy, and the experts were inclined to think our shipbuilding in the experimental stage. The cruise of the Oregon was an object lesson to all the world in what a battleship can do, and now everyone recognizes our warships as of the best. No such performances have been dreamed of abroad, and the prestige of our navy rose to the highest point. There was a keen interest taken in everything we did, going into details.

"The destruction of the torpedo-boats was the cause of a revision of all foreign naval programs. The battleship was elevated to the place and importance it deserves, and much doubt was thrown on the utility of the torpedo-boats. In consequence all the powers have curtailed their outlay for these crafts and are doing more for heavily armed and armored vessels."

Mr. Scott will spend a week or ten days in the city. During his stay he will visit his masterpiece, the Oregon, at the navy yard.

## ATTEMPT TO KILL THE CZAR

Moscow Buildings Was to Have Been Blown up While the Royal Party Was Passing—Two Killed, Many Injured.

New York, Sept. 8.—A World dispatch from London says:

A report is published here of a daring plot to assassinate the czar at Moscow last week. The plan of the conspirators was to allow gas to escape into a house on the route of the czar's procession until the atmosphere in every room was saturated. One of their number was to remain in the house and strike a light when the czar was passing in the expectation that the house would be blown to pieces and the czar killed. The conspirator would perish himself as a sacrifice to the cause.

This duty fell to the lot of one Alexander Kolanoff. In his agitation he seems to have made an error, as the explosion was mistimed. When it occurred a staff officer and his wife were driving past, and they, instead of the czar were killed. Their coachman will die of his injuries, and about thirty persons were more or less injured. Kolanoff's mangled body was found among the ruins. The czar and czarina drove by 25 minutes later.

Many arrests have been made in Moscow, but the Russian press has been forbidden to refer to the matter.

## MADRID GOVERNMENT IS ISOLATED

Chambers Opposed to its Policy in Regard to the Conclusion of Peace.

MADRID, Sept. 8.—Newspapers assert that the government is surprised and chagrined at the attitude of the conservatives of the chamber, which indicates that the government is isolated on questions of such magnitude as the conclusion of the peace treaty. Continuing, the papers express the opinion that this foreshadows the downfall of the ministry. The chamber does not meet today.

The cabinet this morning decided to take the most stringent measures to prevent the publication of the proceedings of the cortes and to provide for a censorship of telegraphic dispatches.

## AN ATTEMPT TO ASCERTAIN THE TRUTH

Investigation of War Department May be Made.

## ALGER HAS REQUESTED IT

And is Joined by Adjutant General Corbin—The President Has Not Yet Come to Any Decision in Regard to the Matter.

WASHINGTON, Sept. 8.—Secretary Alger has requested the president to order a thorough and searching investigation of the war department. In this request the secretary had been joined by Adjutant-General Corbin. No decision has been reached yet by the president as to what course he will pursue. He has the request of Secretary Alger under consideration, but has not yet determined whether he will grant it or not. Secretary Alger had a long conference with the president tonight, before he left the city, and impressed upon him his earnest desire that an investigation, such as he had requested, be ordered. It now seems not unlikely that the investigation will be ordered, but it is the wish of the president further to consider the matter before announcing a definite policy.

The question probably will receive consideration at the cabinet meeting tomorrow.

## Mr. McGuire's Fish.

SAN FRANCISCO, Sept. 8.—Several salmon, averaging 28 pounds in weight, have recently been caught in the Sacramento river. From the fact that the adipose fin had been removed from each they were identified as fish liberated from the hatcheries on the Clackamas river, in Oregon, in 1897.

This discovery is said to refute the theory of Doctors Jordan and Gilbert, who have maintained that salmon remain from three to four years in the sea before reaching their majority, and then return to fresh waters to spawn.

## Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at Blakeley & Houghton's drug store. Regular size 50 cents and \$1.00. Guaranteed to cure or price refunded.

## Day At Ellensburg.

ELLENSBURG, Wash., Sept. 8.—The populist, democratic and silver republican state conventions accomplished but little at this morning's session, owing to the fact that the conference committee on apportionment of the officers was not ready to report. A movement was inaugurated looking to the adoption of a union platform by appointment of a committee to confer on the subject.

## Teacher Wanted.

To teach a small school and commence as soon as arrangements can be made. Salary one hundred dollars for a three months term, without board. Apply to 9-7 2t R. A. MURRAY, Monkland, Sherman Co., Ore.

Win your battles against disease by acting promptly. One Minute Cough Cure produces immediate results. When taken early it prevents constipation. And in latter stages it furnishes prompt relief. Snipes-Kinersly Drug Co.

Royal makes the food pure, wholesome and delicious.

**ROYAL BAKING POWDER**  
Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

## A CRITICAL TIME

During the Battle at Santiago.

SICK OR WELL, A RUSH NIGHT AND DAY.

The Packers at the Battle of Santiago de Cuba Were all Heroes—Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Sandiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrad and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by Blakeley and Houghton.

## Sheep for Sale.

Band of fine stock sheep, between 2500 and 2600 head; (about 900 lambs, balance old sheep.) Price \$2.50 per head. Ample range and hay for 2000. Will sell either sheep or hay or both. Inquire at this office. 8-27-3w

## Decided Advantages of the Vibe Camera Construction

OVER THAT OF ANY OTHER.
