NO 157

CUTTER BEAR'S MERCY ERRAND IS COMPLETED

Government Relief Expedition Back From
the North With the Crews of the
Whalers Which Were Lost.

ONLY THREE SHIPS CRUSHED

Orca and Freeman Were Lost
Last Fall.

THE ROSARIO LOST LAST SPRING

All the Crews Saved—Some of the Men
Were Rescued by the Bear When
on the Verge of Starvation—Fatalities
Among the Crews.

NEAR BAY, Wash., Sept. 14.—The revenue cutter Bear touched here on her way down the coast. She has on board Lieutenants Jayis and Berthoff and Dr. Call, composing the relief party, and ninety-one members of the whaling vessels which were wrecked in the North, including the crew of the schooner, Louise J. Kenney.

Besides the loss of the Orca and Freeman last fall, the schooner Rosario was the only other vessel that was crushed in the ice. The other vessels, the Newport, Jeanette, Fearless and Belvidere, are all out and either on their way down or have continued on their whaling cruise. The Wander, which went into Herschel island last fall when she found she could not get out, is now known to be safe.

Captain North of the Jaenette, who was taken sick at Cape Smyth, came down on the Bear, having turned his vessel over to Thomas Ellis and Charles Brewer.

The Bear reports that a petty officer of the Rosario committed suicide by drowning last spring, and that in June Phil Mann of the Jessie Freeman, dropped dead of heart failure. Gray, of the Jaenette, died of dropsy. A Siberian and a Japanese attached to the fleet, also died since the fleet was last heard from.

When the crews of the wrecked vessels came on board the Bear, after she reached Cape Smyth, there were 119 in all. Twelve of these exchanged places with a like number of the crew of the Fearless, and eighteen shipped on other vessels of the whaling fleet. Two of them shipped on the Morning Light at Kootzebue sound; six shipped on some of the Yukon steamers when they got to St. Michaels, and two others shipped on the English ship Illala, on reaching Dutch harbor.

NEXT AMBASSADOR TO GREAT BRITAIN

At Least the President Has Decided to
Offer Him the Place—His Health
the One Drawback to His Acceptance
of the Place.

New York, Sept. 13.—A Washington special says:

It is understood that President McKinley had decided to offer the post of ambassador to the court of St. James, made vacant by the appointment of Mr. Hay as secretary of state, to Senator Hoar. The president is very anxious to have him accept the post. He thinks

that Mr. Hoar would maintain the lofty standards established at that court by such ambassadors as Lowell and Bayard.

Senator Hoar is considered learned, a diplomat by nature and long training, tactful and gracious. The only thing that stands in the way of his acceptance is his own health, which has not been very strong for some time. His friends think, however, that he is strong enough for the post, and believe that he will soon be in excellent physical condition.

Mr. Hoar is, outside of his own qualities, an ideal man in the estimation of the president. His mission to London would create a vacancy which could and would be filled acceptably by Secretary of the Navy Long, whose friends are anxious to see him round out his career by a long and unchallenged seat in the senate.

It is an understood thing that the president is especially pleased by the manner in which Long has conducted the affairs of the navy department during the war, in which so much was accomplished by American seamen, and is anxious to promote any plans that may lead to a seat in the senate for the secretary of the navy.

FORTY OF EVERY HUNDRED SICK

Five Deaths Have Occurred in the
Regiment—Illness Among All the
Troops on the Increase—Craue's
Immunes Not Immunes Against
Deadly Malaria.

New York, Sept. 12.—A dispatch to the Herald from Santiago says:

Five men of the Fifth regulars have died since their arrival here, 40 per cent of the regiment being on the sick report from malaria fever. Illness among all the troops is increasing.

Colonel Crane's immunes are in camp on the banks of the San Juan river. This has had a fatal effect. There are now more than 800 men in the hospital or on the sick report. The illness is attributed to the effect that the rains on a country full of shallow graves, and to miasma from the swampy surroundings.

A medical board was appointed today to report upon sanitary conditions of the camp and the advisability of its immediate removal to San Luis to form a part of General Fewer's brigade.

Colonel Hood's regiment, which has been doing garrison duty in Santiago, will this week be relieved by the Fifth regulars, the volunteers going to a camp yet to be selected on the San Luis railroad.

All the troops not absolutely needed in the city will be sent to more healthful camping places.

FAR WORSE THAN DEATH

Life Imprisonment in Solitary Confinement is the Fate in Store for the Cowardly Slayer of the Empress of Austria.

New York, Sept. 13.—A dispatch to the World from Geneva says:

The life imprisonment with solitary confinement in store for the Austrian empress' assassin is declared by those acquainted with Swiss prisons to be vastly worse than death.

A correspondent who recently visited the chief prison of the canton of Vaud, where the assassin will be confined, describes as sad indeed the result of solitary life imprisonment. One man he saw, the perpetrator of a series of murders in the mountains, had been in the cell for fifteen years, with the result that he completely lost his reason. The governor of the prisoner confessed that in view of this and other similar cases, his views of capital punishment had undergone a complete change, and that he was now strongly in favor of the death penalty.

Upon a sentence of life imprisonment the assassin will be placed in a small dark cell, from which he will never emerge and will be fed just enough to enable him to support life.

IT IS A VERY STRANGE TALE

How the Collier Scipio Became a Part
of the Naval Establishment of the
United States.

New York, Sept. 13.—Interesting facts have just come to light concerning the collier ship Scipio, which has lain unused in the navy yard since the outbreak of the war.

In the middle of May one of our cruisers found a deserted ship about a hundred miles off Sandy Hook. The ship was in excellent shape, with plenty of coal and a large quantity of smokeless powder and a number of English cannon on board. The vessel was the English ship Ravenna, and why she was deserted off Sandy Hook with such a remarkable cargo is one Uncle Sam's secrets. The Scipio is the Ravenna with a new name.

There is a suspicion that the officers of the cruiser that found the Ravenna might perhaps explain the mystery if they choose, but so far the mystery, if there be one, has been carefully preserved.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
