

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

PECULIAR POISONS.

GENERATED IN THE HUMAN BODY

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Ptomaines), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak, and lacking in red corpuscles; poisoning the brain and causing headaches and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and pepsinogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood strong nerves, a bright eye and a clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents a full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first.

Eastern Wool Market.

Our weekly wool report shows the mark a waiting one; merchants in general who have good lines of wool to offer are making no concessions for the purpose of disposing of the same. Several offers have been refused during the week upon large lines of stock, as prices at which manufacturers wanted to purchase were warranted on account of the strong undertone permeating the leading markets.

Then again it would not be in conformity with the European strength indicated at the present time at the London auction sales, which have advanced the price of Merino wools, our previous sales from 7 1/2 to 10 cents per pound. Even this factor of strength asserting itself abroad, American values remain unchanged, although it has a tendency to stimulate confidence among holders of wool. Many believe we are nearing the end of the long depression through which the wool trade has passed during the last several months and that better times will soon come to stay.

All who are interested in wool must bear in mind that we are fast consuming the old stocks of woolen goods and wool, and when these are absorbed, the new clip will be in demand. It is reported that another line of 200,000 pounds of Australian wool has been re-shipped, and other lots will soon follow. We have no reason to change our opinion therefore in regard to the future of the staple; everything looks favorable for improvement in wool soon, however this will depend greatly upon the unknown quantities of old stock that were carried over from last season, and which has been unquestionably the real cause of the long inactivity among wool circles in the leading markets.

Mr. Poling's First Sermon Here.

Mr. Poling, in beginning his work as newly-elected pastor of the Congregational church of this city, did not make anything like an introductory sermon; but as one standing as an ambassador, charged with a message from his Master, began his pulpit service with the words of Jesus recorded in Matthew 26:45 46, "Sleep on now, and take your rest", and "Arise, let us be going." He explained the apparent contradictory nature of the two mandates by saying the first had reference to the work and duties of the past—the irrevocable past—and belongs to the order given before to "Watch therefore"; now the hour of arrest had come, nothing could change it; watching was of no avail; those who wanted might take their fill of sleep. But to others there were still duties and privileges—the accompanying with sad sympathy to the judgment hall; watching for the last words of counsel that should come from the divine lips. To those the command to "Arise, let us be going", was the next duty. Mr. Poling gave the application to those of us who had failed in "watching" to let the dead past of sleep be enough, and to rise and do what work remained for us to do.

He held his large audience with great power, and it is believed that the new pastoral opens under most hopeful auspices.
