SOME VERY FAST WORK BEING DONE

Legislature Transacts Considerable Business.

CELEBRATION IS PROPOSED

Resolution Passed to Celebrate the Fortieth Anniversary of the Statehood of Oregon.

SALEM, Oct. 3.—Much routine business was transacted in the two hours the legislature was in session this afternoon. The senate received four new bills, one of which was finally passed under suspension of the rules—an amendment to the Astoria charter enlarging the power of the common council. Twenty-eight bills were advanced through the second reading, and half a dozen resolutions were concurred in.

A dozen new bills were introduced in the house, eight others passed second reading, and five resolutions were handled.

One of the resolutions, introduced by Ross of Multnomah, and passed, is for arranging appropriate exercises for a joint meeting of the two houses February 14th, to celebrate the fortieth anniversary of the admission of Oregon as a state and the fiftieth anniversary of extending United States laws over Oregon, the governor being requested to appoint a committee for a semicentennial celebration in Portland, June 15th.

The last member to appear at roll-call this session is Representative Donnelly, of Grant, who has been absent in Tennessee and only arrived today.

Hawson of Gilliam introduced a resolution in the house calling on the members of the Oregon delegation at Washington to urge upon congress the great importance of opening up for navigation the Columbia river to tidewater, in order that the heavy tariff on immense wheat shipments may be reduced. Obstructions at Celilo and The Dalles are especially mentioned.

WILL GO TO CUBA THIS MONTH

General Health of the Command is Excellent.

NEW YORK, Oct. 3.—General Fitzhugh Lee, interviewed in this city, said that the Seventh army corps, of which he is commander, would probably go to Cuba about the last of this month. He had fifteen regiments under his command, and the general health of the corps was excellent. Only about two per cent had been on the sick list since they had been encamped at Jacksonville.

"We've got excellent water," he said. "It comes from artesian wells, and pipes are run through the camp, with a spill-out at the head of each company street."

When asked whether Colonel William J. Bryan's regiment would be mustered out, General Lee said he did not know. One Nebraska regiment would be mustered out, and the choice had been left to the governor of that state.

"My corps is in fine condition and well drilled," said General Lee. "You know, when there's any fighting going on I like the volunteers, but in times of peace they have two many fathers and mothers, and sisters and cousins and aunts who want to get them out of the service."

General Lee did not know that any commander had been suggest to take command of all the troops in Cuba. He was inclined to think that the island

would be divided into two departments, with one general in command of each department, but, of course, one man might be put in command of all.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Three Doctors in Consultation.
From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best, to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. ALL PARIS WAS IN A TURMOIL

Scuffle and Uproar the Order of the Day Yesterday.

NEW YORK, Oct. 3.—A dispatch to the Herald from Paris says:

Revisionists and anti-revisionists seem to be spoiling for a fight. Captain Dreyfus, whether guilty or innocent, has certainly caused a veritable cyclone of passion to be turned loose. Paris was in turmoil all Sunday. Crowds, scuffle, uproar and arrests was the program of the last twelve hours. At this moment the mounted republican guards are patrolling certain parts of the city and all of the police are on the alert.

About a score of people are said to have been seriously wounded in the various free fights which have broken the monotony of the Parisian Sunday. In one quarter alone over forty arrests have been made. Of the persons arrested thirteen have been kept and the rest liberated.

GO TO CHINA IMMEDIATELY

Order Issued From Washington Upon Receipt of Advices.

WASHINGTON, Oct. 3.—The department has the following cablegram from Minister Conger at Peking:

There is no serious danger as yet, but considerable anxiety for the future. Foreign fleets are assembling at Tientsin. Some of the ministers are ordering marines to Peking for legation guard duty.

Secretary Long, upon advices received at the state department, which show the existence of threatening conditions in China, ordered Dewey to send two war ships immediately from Manila to a point near the Chinese capital as possible for a warship to approach. The vessels selected are the Baltimore and the Petrel.

How to Prevent Croup.

We have two children, who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this country, and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined. —J. M. NICKLE, of Nickle Bros., merchants, Nickleville, Pa. For sale by Blakeley & Houghton.

MOST PRECIOUS OF STONES.

Some Interesting Facts About the Value of Rubies.

"To the question: 'Which is the most valuable precious stone?' nine people out of every ten, at least, will, without the slightest hesitation, reply: 'The diamond,'" said a dealer in gems. "But the value of a good-sized diamond cannot approach that of a ruby of the correct color and similar dimensions.

"The worth of small rubies—stones that are of less than a carat—is, if anything, rather less than that of diamonds of a like description, but the rare occurrence of large specimens of that dark carmine tint which is looked upon as the sine qua non of a perfect ruby causes the value of these gems to increase in a far greater proportion than in the case of diamonds. Rubies weighing more than four carats are so exceptional that when a perfect one of five carats is brought to the market it will command ten times as high a sum as a diamond of the same weight, while rubies of six carats, without crack or flaw, and of the proper color, would, in all probability, bring as high a price as \$5,000 per carat, or 15 times as much as a diamond of like size and faultlessness.

"All over the east rubies are regarded with the greatest possible favor, and so it has been from the earliest times of which we have any record. The finest specimens are found in Burmah, and from time immemorial it has been a law of that country that all rubies of above a certain size are the property of the king, whoever may have been fortunate enough to find them. It is thought to this day there are concealed in Burmah, among the treasures which the British invasion caused to be hidden away, rubies of far greater size and value than any which have up to now been seen either in Europe or this country.

"The law which gave fine rubies to the ruler of the land has undoubtedly caused the destruction in modern times of many magnificent specimens of this gem, for the finders of larger stones than usual have, whenever the opportunity was favorable, broken them into fragments, each weighing less than a carat, to insure themselves the possession of several rubies incomparably less valuable, it is true, than the original in which they were once united, but still their own instead of the king's."—Washington Star.
