

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

THAT JOYFUL FEELING

With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of

Figs, is unknown to the few who have not progressed beyond the old-time medicines and the cheap substitutes sometimes offered but never accepted by the well-informed. Buy the genuine. Manufactured by the California Fig Syrup Co.

On the Toboggan Slide.

The Pendleton Tribune says: "Many who had hopes that wheat was going up and up until the last year's figures were reached for the crop of the present season, look dubious nowadays and conclude that the grain is on the toboggan slide and on the downward trip, at that. It refuses to climb to any higher altitudes.

"The quotation in Pendleton today is 44½ cents. This, as has been said on numerous occasions, is just 5½ cents under what will be required to pull any wheat away from the grower, unless he becomes frightened and fears it is going lower yet."

There are stations on The Dalles toboggan slide, and wheat here has stopped at the 50-cent one, remaining there for the past few days. Well-bread wheat isn't too fast in its downward movements, and isn't going to drop any lower till it feels the knead of so doing.
