SHE WILL NOT INTERFERE IN THE MATTER

Germany Indifferent to Fate of Philippines.

A CHANGE IN PUBLIC OPINION

Emperor William's Interest in Cuban War Operations—The Question of American Meat.

BERLIN, Oct. 8.—There has been a great change in German public opinion on the matter of the retention of the Philippine islands by the United States. The feeling toward America generally is much more favorable than a couple of months ago. The news from the United States that the government at Washington is seriously contemplating holding the Philippines, is commented upon dispassionately by the German press, and it is significant that this week two papers of such standing as the *Kölnische Zeitung* and the *Vossische Zeitung* have published long letters from German merchants settled in the Philippine islands, in which American annexation is strongly advocated. A correspondent of the *Vossische Zeitung* even vigorously combats Germany making any attempt to secure a portion of the islands, citing weighty reasons therefor.

Another significant fact this week was that a delegation representing German and German-Swiss firms in the Philippine islands called at the United States embassy to express their hopes that the United States would not relinquish the islands and would not return them to Spain, which the delegation claimed would mean a recurrence of revolution and the perpetuation of commercial troubles. The delegation also asked if it might go to Paris and lay its views before the United States peace commission. The United States ambassador here, Mr. White, advised the delegation not to do so.

Mr. White does not anticipate German interference directly or indirectly, even if the United States insists upon retaining the whole of the archipelago.

Councillor Schwarzenley, formerly of the German embassy at Washington, declares that Germany does not dream of putting obstacles in America's way.

Mr. White had a long conference on Wednesday last with the German minister of foreign affairs, Baron von Buelow.

The imperial government last winter, goaded by the agrarians, drew up a bill to regulate the inspection of American meat exports. The bill practically meant the death of the American meat trade, and, luckily, it could not be made ready for production in the reichstag before that body adjourned. Since then, the situation has changed. The charges against American meats have invariably proved to be groundless, so that the violent press attacks have ceased. The government therefore has considerably modified the bill, which is now much less stringent, but some of its provisions are still highly prejudicial to canned meats and sausages. It is expected that the measure will be introduced into the reichstag soon after its convening next month. The entire right and a majority of the centrists favor the measure, so its passage is virtually assured.

At the scholastic's annual conference at Stuttgart, this week, Herr Leinrecht made a speech in which he declared the socialist party was the only one capable of freeing the world from anarchism and war. He further asserted that Prince Bismarck, "who had more power than any other one man, was smashed by the socialists." He added significantly: "And after we have overcome Bismarck, there is no opponent we fear."

The speech of Emperor William, upholding the anti-strikes bill, furnished

material for inflammatory speeches. The proceedings of the socialists' congress brought out clearly the development of the socialists into a parliamentary party of practical reform. A feature of the congress was the prominent part taken by the workmen, whose speeches in nearly every case were of a revolutionary character. They scouted promises or caution.

Dr. Mignel, the minister of finance and vice-president of the council of ministers, through his mouthpiece, the *Politische Nachrichten*, has issued a denial of the newspaper statement to the effect that the recent epidemics of sickness in a number of German regiments was due to American meats. He also denies that one hundred and fifty cases of trichinosis at Sandersleben, near Beinberg, were caused by American pork. All the cases, he pointed out, were due to home-grown pork.

DANGER IN SODA.

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it accumulated in the intestines, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, pepsines and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in any stomach trouble except cancer of the stomach.

All druggists sell Stuart's Dyspepsia Tablets at 50c per package.

A little book describing all forms of stomach weakness and their cure mailed free by addressing the Stuart Co. of Marshall, Mich.

How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this country, and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined. —J. M. NICKLE, of Nickle Bros., merchants, Nickleville, Pa. For sale by Blakeley & Houghton.

THE PILLAGER INDIANS ARE DANCING

Uncertain Feeling in Leech Lake Country.

MORE TROOPS HAVE BEEN SENT

The Loss of the Indians Was Six Killed and Two Wounded—Demand for the Murderers.

ST. PAUL, Oct. 8.—Nearly 200 additional troops will be scattered about the scene of the disturbance near Leech lake within a few hours. Two battalions of National Guardsmen were sent up today by the governor for the protection of the Cass Lake settlers. At midnight a special train with ninety additional regulars from the Third regiment at Fort Snelling, started north. They will be there by morning and will be placed by General Bacon where they can best protect the country. This will make four hundred regulars in and about Walker and the Leech lake country.

Reports from the scene of the trouble tonight indicate considerable uncertainty. The dancing in Bear island is kept up, and it is looked on as one of the principal causes for apprehension. Many Indians have been seen going from other parts of the reservation toward that island. Whether they will join with the comparatively small number of the Bear island Indians is not known. The Bear islanders are claiming a victory over the soldiers, and this may bring more recruits. Some of them undoubtedly are going peacefully to the agency, as ordered to, for they are accompanied by their families, which would not be the case were their intentions of a hostile nature.

However a small number of Indians could do much damage before being captured or killed, for the swamps and lakes are so numerous and the general conditions such that the soldiers, unacquainted with their surroundings, would be unable to cope with the savages.

An Indian is authority for the statement that their loss in the fight of last Wednesday was six killed and two mortally wounded. The same Indian says they want to fight the soldiers but not the citizens.

Demand For the Murderers.

WALKER, Oct. 8.—At an Indian council held at the reservation a demand was made by the government that the men concerned in the killing of soldiers near Bear island be given up to answer to the charge of murder. The Indians stated that but nineteen of their number were in the fight with the troops.

Millions Given Away!

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and diseases of the Throat, Chest and Lungs are surely cured by it. Call on Blakeley & Houghton, druggists, and get a trial bottle free. Regular size 50c. and \$1. Every bottle guaranteed, or price refunded.

THE LOSSES IN THE NAVY

Only Seven Men Were Killed During the Entire War.

WASHINGTON, Oct. 8.—Seventeen sailors killed and eighty four casualties all told was the total loss suffered by the United States navy during the war. The figures have just been completed at the navy department.

In Dewey's fight at Manila bay not a man was killed, and every one of the nine men wounded returned to duty. In the battle of July 4th, off Santiago, one man was killed, and there were eleven wounded, all returning to duty. In the attack upon the forts at the entrance of Santiago, June 23, one sailor was killed and eleven wounded, of whom only seven were able to return to duty. The heaviest loss of the navy was at Guantanamo. There were twenty-three casualties in that fight, and of the list, six marines were killed. Of the wounded, nine returned to duty.

In the battle with the forts and gunboats off Cienfuegos, the list aggregated eleven wounded and two killed. One man continued under treatment. The fierce battle between the torpedo-boat Winslow and the revenue cutter Hudson, and the Spanish land batteries and artillery forces at Cardenas resulted in five deaths. The wounded afterward returned to duty. In the bombardment of San Juan, the casualties numbered eight, with one man killed. One of the wounded men was invalidated home, while six returned to duty.

There were four other casualties occurring in as many separate engagements, and this completes the list of naval losses. Considering results obtained, this list is said to be the most remarkable in the naval history of the world.

Three Doctors in Consultation.

From Benjamin Franklin. "When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by Blakeley & Houghton.
