REVOLTS THE ORDER OF THE DAY AT GUAM

Two Bloodless Uprisings Have Occurred There Since American Rule Was Established on the Island.

BOTH WERE QUICKLY QUELLED

American Flag Was Hauled Down on Each Occasion, But Soon Replaced by the Local Police--A Young Sailor or Now Running Things for Uncle Sam.

HONOLULU, Oct. 4, via San Francisco, Oct. 12.—The United States troop ship Pennsylvania arrived from Manila by way of Guam yesterday. The Pennsylvania was the first vessel flying the United States flag that had touched at Guam since the Charleston took possession.

Two revolutions had taken place, which were not bad, since republican principles had not been long in the land. Incited by the Spanish priests, twice had the natives pulled down "Old Glory" and hoisted the Spanish colors. Twice had the local police hoisted the ensign of Uncle Sam again, and no bloodshed had ensued. The Poon Bah who is running things in Guam for the United States is reported to be a young sailor, who is said to have deserted from one of the whalers which touched there some time ago.

Dysentery, mumps and measles were epidemic at Manila when the Pennsylvania left.

On the night of Oct. 3d Second-Lieut. Merriam, U. S. A., and First-Lieut. Wheelock, New York volunteers, decided to run things in Honolulu, and declared martial law. Wheelock was provost marshal in charge of the mounted infantry. It is not known whether or not Merriam was on duty. About 11:30 p. m. the two officers declared martial law, and for two hours and a half this condition of affairs prevailed.

Indignant citizens awoke General King about 1 o'clock in the morning, and the general caused the two officers to be rounded up, and martial law was declared off.

The Hawaiian planters have not made any overtures to the sugar trust; the latter has made overtures to the planters, and is now openly in the field with an offer to contract for the Hawaiian sugar for the next three years, expressly stipulating that the present arrangement with the new California refinery shall continue, which means that the Port Costa refinery is to get 60,000 tons annually and the balance goes to San Francisco or New York, as the trust may decide.

Captain Tanner, U. S. N., has arrived to select a suitable site for the coaling wharf.

A BIG FIRE IN TACOMA, WASH.

Partly Completed Tourists Hotel Entirely Destroyed—Incendiarism is Suspected.

TACOMA, Oct. 11.—The Tourists hotel, under construction by the Northern Pacific Land Company, was burned tonight. Officials of the land company say that the building cost as it stood \$470,000, placing the loss at \$200,000, with no insurance. It was the purpose of the land

company to make this one of the finest hotels in the country, and it would have cost over \$1,000,000. The hotel commanded one of the finest sites in the city, overlooking Puget sound.

During the fire tonight, W. F. Fenmore, of hook and ladder No. 5, was thrown from the ladder and two men fell upon him. He is internally injured and may not live.

CONFINED IN A CUBAN DUNGEON

Terrible Experience of Samuel Ensign, An American—Deprived of His Liberty for Eighteen Long Years, and Robbed.

ROCKFORD, Oct. 12.—Samuel Ensign, an engineer of the old-time Racine & Mississippi railroad, and a resident of this city for many years, has returned, old and broken in health, with a sad story of imprisonment and suffering in Cuba.

When Ensign left Rockford he went to Cuba, where he obtained a situation as engineer in a sugar refinery. One night Ensign, with two fellow workmen, resisted an assault made upon a native woman by Spanish soldiers. The next morning, Ensign says, all three were taken prisoners to Havana, where they were placed in Moro Castle. One of the men died in seven months and the other lived two and a half years.

For thirteen years and five months Ensign alleges he was confined in the castle, allowed to speak to no one, and only allowed to walk through the corridor 204 feet long for recreation. At the expiration of that time he was taken out to work with a ball and chain on his ankle, constructing a piazza. At that he worked five years. He became friendly with the monks and attendants of the neighboring monastery, and one night was spirited away and placed on a man-of-war, which finally landed him in Mexico.

When placed in prison Ensign claims he had certificates of deposit to the amount of \$8000 and \$1000 in money, none of which was ever returned to him.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

FIGHT BETWEEN OFFICERS AND STRIKERS

Arrival of Imported Negroes Causes a Fight in Which Twenty Men Were Killed and Wounded.

ANOTHER BATTLE IN PROGRESS

All Sorts of Wild Reports Are Flying Broadcast, One of Which is to the Effect that One Hundred Men Were Killed and Wounded.

VIRGEN, Ill., Oct. 12.—The arrival of the imported Negroes from the south at 12:30 today was followed by a desperate battle. Five hundred shots were exchanged between the strikers on one side, and Sheriff Davenport and deputies and railroad police on the other.

It is thought at least twenty men on both sides were killed and wounded, and five seriously wounded.

When the Chicago & Alton train bearing the Negroes arrived, it was met by fully 1500 armed miners, who were lined up on each side of the track between the telegraph office and the mines of the Chicago Virgen Coal Company. The train was stopped immediately in front of the east gates of the stockade, and the trouble began. Dozens of shots were fired from the stockade at the men, while the strikers were half a mile away and one Chicago and Alton policeman was undoubtedly killed by a shot from the tower.

The wildest rumors are afloat, one of which is that as many as fifty miners have been killed. The town is in the greatest excitement. Men are securing whatever arms they can get hold of, expecting to use them for their own protection should the trouble spread.

Shortly before 1:30 Managar Luken tried to make his escape from the shaft. The attempt was the signal for another fusillade from a body of men said to be miners. The manager and a small body of detectives ran into an alley behind the postoffice. The attacking party, however, continued to fire away. It is not known whether any of the shots took effect. The city marshal telegraphed the chief of police of Springfield to send a special train with doctors. Sheriff Davenport has sent a telegram to Governor Tanner, asking that troops be sent immediately. The sheriff thinks possibly one hundred men have been killed and wounded, but others deem the estimate too large. There is the greatest indignation against the mine operators. Luken is held responsible for the tragedy.

SPRINGFIELD, Oct. 12.—Governor Tanner has just received a telephone message from Sheriff Davenport, of Virgen, stating that over one hundred men have been killed in riots at that place, and that the battle continues. The governor immediately ordered the militia from Pana to proceed at once to the scene of the tragedy.

SPRINGFIELD, Oct. 12.—A bullet-riddled train pulled into the Chicago & Alton depot here this afternoon from Virgen. One deputy is dead. He was riding on the front of the car with a Winchester, when the miners fired on him. He discharged his Winchester and was shot almost to pieces. Bert Kyger, of Bloomington, who was drawing the train, was shot in the arm.

There were about two hundred and fifty armed miners in Virgen. The train was loaded with negroes, who say they came here under false representations from the operators.
